

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UK Focus Fund

a sub-fund of HSBC Private Investment Funds, (the "OEIC");
managed by HSBC Global Asset Management (UK) Limited

Class: Institutional
Accumulation
ISIN: GB00B171K680

Explanations of terms shown within the objectives and policy in bold, can be found within the glossary on our website: <http://www.assetmanagement.hsbc.com>.

Objectives and Investment Policy

- The Fund aims to provide **growth** in the long term, which is a period of five years or more. The Fund intends to provide higher **returns** (before charges and tax are deducted from the Fund) than the FTSE All-Share Index, over five-year periods.
- To achieve its objective, the Fund will invest at least 80% of its value in the shares (**equities**) of UK companies, including **preference shares**. UK companies are those that are based in the UK or earn at least 80% of their revenue from the UK.
- The Fund may invest up to 20% of its value in other assets, such as shares of non-UK companies and cash.
- The Fund may invest up to 10% of its value in other funds, which may be managed by the **HSBC Group**.
- Typically the Fund will invest in the shares of 25 to 45 companies.

Use of Benchmarks

- The Fund is **actively managed** and is managed with reference to the FTSE All-Share Index.
- The fund manager aims to generate **returns** in excess of the FTSE All-Share Index over five-year periods before charges and tax are deducted from the Fund, based on our current view of **returns** the Fund may potentially achieve, which may change.
- The level of risk the Fund may take is considered relative to the FTSE All-Share Index as part of the portfolio construction

process. This means the Fund **returns** are more likely to be closer to the **returns** of the FTSE All-Share Index than if there were no limits on the level of risk the Fund may take.

- The FTSE All-Share Index is also considered as part of our investment risk monitoring process, to check that the overall level of risk taken by the fund manager is not inconsistent with the UK **equities** market.
- The performance of the Fund is therefore shown against the performance of the FTSE All-Share Index.

Use of Derivatives

- The Fund may invest in different types of **derivatives** for **efficient portfolio management** purposes, including **hedging**. The Fund does not currently use **derivatives** to reduce the risk of movements in the rate of exchange between sterling and other currencies in which the Fund's assets may be held. The use of **derivatives** will be consistent with the risk profile of the Fund.
- Income is reinvested.
- You may sell your investment on any business day by contacting the administrator before the dealing deadline at 12pm.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 6 because its price or simulated data has shown high fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- **Concentration Risk** The Fund may be concentrated in a limited number of securities, economic sectors and/or countries. As a result, it may be more volatile and have a greater risk of loss than more broadly diversified funds.
- **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- **Liquidity Risk** Liquidity is a measure of how easily the Fund's holdings can be quickly converted to cash. The value of the Fund's holdings may be significantly impacted by liquidity risk during adverse market conditions.
- **Operational Risk** Operational errors may affect transactions, valuation, accounting, financial reporting and other processes relating to the Fund.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	0.17%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

- The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- A conversion charge may be payable.
- The ongoing charges figure is based on last year's expenses for the year ending 31/08/2020. Charges may vary from year to year.

Further information on Charges can be found in the "Fees and Expenses" section of the Fund's Prospectus.

Past Performance

- Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- The past performance of this share class is calculated in GBP.
- The performance of the Fund is shown against the performance of the FTSE All Share Index.
- The Fund was launched on 27 July 2006.
