

HSBC Investment Funds

UK Growth & Income Fund

Marketing communication | Monthly report 30 June 2025 | Share class Inst A Acc

Investment objective

The Fund aims to provide growth and income in the long term, which is a period of five years or more.

Investment strategy

To achieve its objective, the Fund will invest at least 80% of its value in the shares (equities) of UK companies, including preference shares. UK companies are those that are based in the UK or earn at least 80% of their revenue from the UK. Typically the Fund will invest in the shares of 40 to 70 companies. The Fund is managed with reference to the FTSE All-Share Index (the "Index"). The level of risk the Fund may take is considered relative to the Index as part of the portfolio construction process. This means the Fund returns are more likely to be closer to the returns of the Index than if there were no limits on the level of risk the Fund may take. The Index is also considered as part of our investment risk monitoring process, to check that the overall level of risk taken by the Fund manager is not inconsistent with the UK equities market. The performance of the Fund is therefore shown against the performance of the FTSE All-Share Index.

Main risks

- The value of investments and any income from them can go down as well as up and investors may not get back the amount originally invested
- Where overseas investments are held the rate of currency exchange may cause the value of such investments to go down as well as up.
- Liquidity is a measure of how easily the Fund's holdings can be quickly converted to cash. The value of the Fund's holdings may be significantly impacted by liquidity risk during adverse market conditions.

Share class details

Key metrics

NAV per share	GBP 1.97
Performance 1 month	0.45%
Volatility 3 years	10.36%

Fund facts

UCITS V compliant	Yes
UK reporting fund status (UKRS)	No
ISA eligible	Yes
Dividend treatment	Accumulating
Dealing frequency	Daily
Valuation time	12:00 United Kingdom
