Introduction

This document is important. If you are in any doubt as to the meaning of any information in this Prospectus you should consult your financial adviser.

HSBC Asset Management (Fund Services UK) Limited, the Authorised Corporate Director ("the ACD") of the Company, is the person responsible for the information contained in this Prospectus. To the best of its knowledge and belief (having taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts, does not contain any untrue or misleading statement and does not omit anything likely to affect the import of such information or any matters required by the Collective Investment Schemes Sourcebook Instrument 2004 to be included in it. The ACD accepts responsibility accordingly.

This is the Prospectus of HSBC Index Tracker Investment Funds ("the Company") valid as at 2 July 2025. This Prospectus has been prepared by the ACD in accordance with the Collective Investment Schemes Sourcebook Instrument 2004.

The Company is incorporated in England and Wales as an investment company with variable capital under registered number 1C75. The FCA Product Reference Number is 191832. The Shareholders are not liable for the debts of the Company.

Copies of this Prospectus have been sent to the Financial Conduct Authority and State Street Trustees Limited, the Depositary.

No person has been authorised by the Company to give any information or to make any representations in connection with the offering of Shares other than those contained in the Prospectus and, if given or made, such information or representations must not be relied upon as having been made by the Company. The delivery of this Prospectus (whether or not accompanied by any reports) or the issue of Shares shall not, under any circumstances, create any implication that the affairs of the Company have not changed since the date hereof.

The distribution of this document and the offering or sale of Shares in certain jurisdictions may be restricted by law. No action has been taken by the Company or the ACD that would permit an offer of Shares or possession or distribution of this document in any jurisdiction where action for that purpose is required, other than in the United Kingdom. This document does not constitute an offer of or an invitation to purchase or subscribe for any Shares by anyone in any jurisdiction in which such offer or invitation is not authorised or to any person to whom it is unlawful to make such offer or invitation. Persons into whose possession this document comes are required by the Company and the ACD to inform themselves about and to observe any such restrictions. This document may be translated into languages other than English. In the event of any inconsistency or ambiguity in relation to the meaning of any word or phrase in any translation, the English text shall prevail.

Potential investors should not treat the contents of this document as advice relating to investment, legal, taxation or any other matters and are recommended to consult their own professional advisers concerning the acquisition, holding or disposal of Shares.

The provisions of the Company's Instrument of Incorporation are binding on each of its Shareholders (who are taken to have notice of them).

This document has been approved for the purpose of the Financial Services and Markets Act 2000 by the ACD.

Shares in the Company are not listed on any stock exchange.

This Prospectus uses information that the ACD has made available to Shareholders and is based on UK law and practice at the date hereof. The Company cannot be bound by an out of date Prospectus when it has issued a new Prospectus and investors should check with the ACD that this is the most recently published Prospectus.

Definitions

“Accumulation Shares” means a type of share where the income earned by the Fund is retained in the Fund

“ACD” means HSBC Asset Management (Fund Services UK) Limited, the Authorised Corporate Director of the Company

“Act” is the Financial Services and Markets Act 2000 as amended, replaced or re-enacted from time to time

“Administrator” means Northern Trust Global Services SE, which is appointed by the ACD to administer the Funds on its behalf

“Annual Management Charge” means the ongoing fee paid to the ACD for managing the Fund, usually charged as a percentage of the value of the Fund

“approved bank” has the meaning set out in the FCA Rules

“Approved Counterparty” means an FCA approved company who the fund manager will deal with when investing in derivatives or entering into Securities Financing Transactions

“Approved Security” means classes of securities which a fund manager can invest in. e.g. shares in companies, bonds or other forms of securities debt and any other negotiable securities. For further details, please refer to Appendix 3 of the Company Prospectus

“asset allocation” means dividing the money invested in a fund across different assets, such as in different geographical areas or by industry sectors such as oil and gas or financial companies

“associate” means a subsidiary of the HSBC Group

“Base Currency” means the base currency of the Company and each of the Funds which is Pounds Sterling of the United Kingdom

“blue chip companies” means nationally recognised, well-established and financially sound companies. Blue chips generally sell high-quality, widely accepted products and services

“bond(s)” means a loan, usually to a company or government, that pays interest

“Business Day” means any day that the London Stock Exchange (or its successor organisation) is open for business (except for, unless the ACD otherwise decides, the last business day before Christmas Day); and other days at the ACD’s discretion

“Canadian Resident” means:

1. An individual, if
 - (a) the individual’s primary principal residence is located in Canada; or
 - (b) the individual is physically located in Canada at the time of the offer, sale or other relevant activity.
2. A corporation, if
 - (a) the corporation’s head office or principal office is located in Canada; or
 - (b) securities of the corporation that entitle the holder to elect a majority of the directors are held by Canadian Resident individuals (as described above) or by legal persons resident or otherwise located in Canada; or
 - (c) the individuals that make investment decisions or provide instructions on behalf of the corporation are Canadian Resident individuals (as described above).
3. A trust, if
 - (a) the principal office of the trust (if any) is located in Canada; or
 - (b) the trustee, or in the case of multiple trustees, the majority of trustees, are Canadian Resident individuals (as described above) or are legal persons resident or otherwise located in Canada; or
 - (c) the individuals that make investment decisions or provide instructions on behalf of the trust are Canadian Resident individuals (as described above).
4. A partnership, if

- (a) the partnership's head office or principal office (if any) is located in Canada; or
- (b) the holders of the majority of the interests of or in the partnership are held by Canadian Residents (as described above); or
- (c) the general partner (if any) is a Canadian Resident (as described above); or
- (d) the individuals that make investment decisions or provide instructions on behalf of the partnership are Canadian Resident individuals (as described above).

"China A shares" means domestic shares in People's Republic of China incorporated companies listed on either the Shanghai Stock Exchange or the Shenzhen Stock Exchange, the prices of which are quoted in Renminbi and which are available to domestic investors and foreign strategic investors approved by the China Securities Regulatory Commission

"China A Shares Access Product (CAAP)" means a security (such as a participation note, warrant, option, participation certificate) linked to a China A-share or portfolios of China A-shares which aims to synthetically replicate the economic benefit of the relevant China A-share or portfolios of China A-shares

"client money" means money that we hold on behalf of investors in a bank account that is separate from our own money

"collateralised bonds" means a type of bond whose income payments and value are derived from and backed by a specified pool of underlying assets

"collective investment scheme" means a fund that more than one person contributes to with the aim of increasing the value of their investments or receiving income from a pooled investment. A fund manager will invest the pooled money into one or more types of asset, such as stocks, bonds or property

"Company" means HSBC Index Tracker Investment Funds

"contract for differences" means a derivative that pays the differences between the settlement prices of the opening and closing trades of the contract

"conversion" means the exchange of one Share Class for Shares of another Share Class of the same Fund

"covered bonds" means bonds that are issued by a bank or mortgage company that are covered by a pool of assets in case the issuer becomes insolvent

"currency forward contracts" means a contract in the foreign exchange market that locks in the exchange rate for the purchase or sale of a currency on a future date

"Currency Share Class" means a Share Class denominated in a currency other than the Base Currency of the relevant Fund

"Dealing Day" means Monday to Friday (except for, unless the ACD otherwise decides, the last Business Day before Christmas Day, a bank holiday in England and Wales or any other day on which the London Stock Exchange or its successor organisation is closed); and other days at the ACD's discretion

"Depository" means State Street Trustees Limited, the depository of the Company

"Depository Receipt" means a certificate issued by a bank representing shares in a foreign company traded on a local stock exchange. The depository receipt gives an investor the opportunity to hold shares in the equity of foreign countries and gives them an alternative to trading on an international market

"derivative(s)" means an investment whose value is linked to another investment, or to a performance of a stock exchange or to some other variable factor, such as interest rates

"developed markets" means countries with relatively high levels of personal income and established economies

"dilution adjustment" means an amount you pay to cover the dealing costs incurred by the Fund when it buys or sells investments as a result of you buying or selling Shares in the Fund. It is normally only charged when those costs are large enough to have a negative impact on the value of the Shares remaining in the Fund and is used to protect the existing investors

"EEA" means the European Economic Area

"EEA UCITS" means a collective investment scheme established in accordance with the UCITS Directive in the EEA

“efficient portfolio management (EPM)” means managing the Fund in a way that is designed to reduce risk or cost and/or generate income or growth

“eligible derivatives markets” means derivative markets which the ACD, after consultation with and notification to the Depositary, has decided are appropriate for the purpose of investment of or dealing in the scheme property in accordance with the FCA Rules

“Eligible Institution” means one of certain institutions being a CRD credit institution authorised by its Home State regulator or a MiFID investment firm authorised by the FCA or an EEA MiFID investment firm authorised by its Home State Regulator

“emerging markets” means countries that are progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body

“ESG” means environmental, social and governance factors which can be considered as non-financial performance indicators which include ethical, sustainable and corporate government issues.

“equity” or “equities” means shares issued by a company

“EU” means European Union

“exchange traded” means a type of investment that is traded on a stock exchange

“exchange traded futures” means a contract traded on a stock exchange stating that the holder agrees to purchase a security or an index at a particular price on a specified future date

“FCA” means the Financial Conduct Authority or its successor organisation

“FCA Rules” means the handbook of rules issued by the FCA as amended or re-enacted from time to time

“Fund” or “Funds” means a sub-fund of the Company (being part of the scheme property of the Company which is pooled separately) to which specific assets and liabilities of the Company may be allocated and which is invested in accordance with the investment objective applicable to such sub-fund

“Group 1 Shares” are Shares held at the start of a distribution period and which continue to be held throughout the distribution period

“Green Card Holder” means an individual who is a US permanent resident (even if they do not actually reside in the US)

“Group 2 Shares” are Shares that have been purchased during a distribution period

“growth” means the increase in the value of investments

“Haircut” means the additional percentage of an asset that is held as collateral to protect the lending parties if the market value of the collateral falls

“hedging” means using derivative type investments as a way to reduce risk

“HKD” means Hong Kong Dollar

“HSBC Group” means HSBC Holdings plc and its subsidiaries as defined in Section 1159 of the Companies Act 2006

“income” means money generated by a fund, such as interest from a bond or a dividend from a share, which can be paid out to its investors or retained in the fund and reinvested

“Income Share” means a type of Share where the income earned by the Fund is paid out to you

“Initial Charge” means an up-front fee paid to the ACD when you buy Shares

“Index Tracker” means a Fund which tracks the capital performance of a stock market Index either using a full replication technique or a sampling optimisation technique

“Instrument of Incorporation” means the instrument of incorporation of the Company, as amended from time to time, prepared and registered by the Company in accordance with the OEIC Regulations and FCA Rules

“investment grade” means a credit rating that indicates the issuer of a bond has a relatively low risk of being unable to make interest payments and repay the money to it

“larger denomination Shares” means any Share other than a smaller denomination Share

“liquidity” means the degree to which an investment can be quickly bought or sold on a market without affecting its price

“market capitalisation-weighted index” means a type of market index whose components, or securities, are weighted according to the total market value of their outstanding shares. Every day an individual stock's price changes and thereby changes a stock index's value

“Member State” means a member state of the European Community and any other state which is within the European Economic Area

“Net Asset Value” or **“NAV”** means the value of the scheme property of the Company (or of any Fund as the context requires) less the liabilities of the Company (or of the Fund concerned) as calculated in accordance with the Company's Instrument of Incorporation

“OEIC Regulations” means the Open-Ended Investment Companies Regulations 2001 (as amended or re-enacted from time to time)

“Ongoing Charges Figures (OCF)” means a measure of what it costs to invest in a Fund. It includes the fee paid to the ACD and other operating costs

“over-the-counter” means a contract that is traded (and privately negotiated) directly between two parties, without going through an exchange or other intermediary

“Pricing and Valuation Committee” means the HSBC Pricing and Valuation Committee which has ultimate oversight responsibilities for the exceptions to pricing policies, which includes approving the methodologies for the valuation of illiquid securities. It is functionally independent of the ACD

“Register” means the Register of Shareholders in the Fund

“Regulated Market” means a UK recognised investment exchange or an EU regulated market as defined in the FCA Rules

“return(s)” means the money made or lost on an investment

“scheme property” means the property of the Company required under the OEIC Regulations to be given for safe-keeping to the Depositary

“Securities Financing Transactions” or **“SFTs”** means repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions, and margin lending transactions, where such are transactions within the scope and defined in Article 3(11) of SFTR

“SFTR” means the UK version of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 as amended by the Transparency of Securities Financing Transactions and of Reuse (Amendment) (EU Exit) Regulations 2019, which is part of UK law by virtue of the EUWA

“Share” or **“Shares”** means an equally valued holding in a Fund of the Company, representing part ownership of that Fund, (including larger denomination Shares and smaller denomination Shares)

“Share Class(es)” means one of the types of Share representing part ownership of the Fund that is different to other Share Classes for some reason, such as it pays out income rather than retaining it in the Fund

“Shareholder” means a holder of Shares in the Company

“securities lending” means the process whereby those holding securities (investments), such as a Fund, lend them to other parties who pay a fee for borrowing

“smaller denomination Shares” means one hundredth of a larger denomination Share (designed to deal with fractional entitlements to Shares)

“SRRI” means the Synthetic Risk and Reward Indicator as defined in the Risk section of this document

“Stock Connects” means the Shanghai-Hong Kong Stock Connect Programme and the Shenzhen-Hong Kong Stock Connect Programme as described in Risks section

“supranational” means international groups such as the European Union or World Trade Organisation

“switching” means the exchange of Shares of one Fund for Shares of another Fund (whether of the same or a different Share Class)

“tracking error” means the volatility of the difference between the return of the Fund and the return of the Index or Indices it tracks. In general, the lower the tracking error, the more consistent the Fund’s performance is relative to the Index, and vice-versa

“UCITS” means Undertaking for Collective Investment in Transferable Securities. This will include a UCITS scheme or an EEA UCITS scheme as defined in the FCA Rules

“UCITS Directive” means the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS)

“UCITS scheme” means a UK UCITS

“UK UCITS” means, in accordance with sections 236A and 237 of the Act, a collective investment scheme which may consist of several sub-funds, which is either an authorised unit trust scheme, an authorised contractual scheme, or an authorised open-ended investment company, and has identified itself as a UCITS in its prospectus and has been authorised accordingly by the FCA

“UK UCITS Rules” means the Collective Investment Schemes Sourcebook (COLL) and the Collective Investment Schemes (Amendment etc) (EU Exit) Regulations 2019 No.325 as amended or replaced from time to time

“UNGC” means the United Nations Global Compact, which is a corporate sustainability initiative to align strategies and operations with universal principles on human rights, labour, environment and anti-corruption and take strategic actions to advance broader societal goals

“US” means the United States of America (including the States and the District of Columbia), its territories, possessions and all other areas subject to its jurisdiction

“US Citizen” means an individual born in the US or an individual whose parent is a US citizen or a former alien who has been naturalised as a US Citizen

“US Law” means the laws of the US, its territories, possessions and all other areas subject to its jurisdiction. US Law shall additionally include all applicable rules and regulations, as supplemented and amended from time to time, as promulgated by any US regulatory authority, including, but not limited to, the Securities and Exchange Commission and the Commodity Futures Trading Commission

“US Person” means the following:

1. An individual (including a US Citizen or Green Card Holder) who is a resident of the US under any US Law.
2. An individual who is a US Citizen or Green Card Holder who has not formally renounced their US citizenship (including a person with dual or multiple nationality) even though they may reside outside of the US;
3. A corporation, partnership, limited liability company, collective investment vehicle, investment company, pooled account, or other business, investment, or legal entity:
 - a. created or organized under US Law;
 - b. created (regardless of domicile of formation or organization) principally for passive investment (e.g. an investment company, fund or similar entity excluding employee benefit or pension plans):
 - i. and owned directly or indirectly by one or more US Persons who hold, directly or indirectly, in aggregate a 10% or greater beneficial interest, provided that any such US Person is not defined as a Qualified Eligible Person under CFTC Regulation 4.7(a);
 - ii. where a US Person is the general partner, managing member, managing director or other position with authority to direct the entity's activities;
 - iii. where the entity was formed by or for a US Person principally for the purpose of investing in securities not registered with the SEC unless such entity is comprised of Accredited Investors, as defined in Regulation D, 17 CFR 230.501(a), and no such Accredited Investors are individuals or natural persons; or

- iv. where more than 50% of its voting ownership interests or non-voting ownership interests are directly or indirectly owned by US Persons;
 - c. that is an agency or branch of a non-US entity located in the US; or
 - d. that has its principal place of business in the US.
4. A trust created or organized under US Law; or where, regardless of domicile of formation or organization:
- i. any settlor, founder, trustee, or other person responsible in whole or in part for investment decisions for the trust is a US Person;
 - ii. the administration of the trust or its formation documents are subject to the supervision of one or more US courts; or
 - iii. the income of which is subject to US income tax regardless of source.
5. An estate of a deceased person who was a resident of the US at the time of death or the income of which is subject to US income tax regardless of source; or where, regardless of the deceased person's residence while alive, an executor or administrator having sole or shared investment discretion is a US Person or the estate is governed by US Law.
6. An employee benefit or pension plan that is established and administered in accordance with US Law; or established for employees of a legal entity that is a US Person or has its principal place of business in the US.
7. A discretionary or non-discretionary or similar account (including a joint account) where one or more beneficial owners is a US Person or held for the benefit of one or more US Persons; or the discretionary or similar account is held by a dealer or fiduciary organized in the US.

The Company may, from time to time, waive or modify the above restrictions.

“volatility” means a measure of the size and frequency of changes in the value of an investment over a short space of time

“yield” means the income from an investment, usually stated as a percentage of the value of the investment

Words and phrases used in this document that are defined in the FCA Rules (but not here) shall bear the same meaning as in the FCA Rules unless the context shall otherwise require.

The Constitution of the Funds

Umbrella Company

The Company is authorised and the ACD is authorised and regulated by the FCA. The Company is structured as an “umbrella” company, in that the Company proposes to issue Shares linked to different Funds which have been established. The Company is a UK UCITS and its FCA Product Reference Number is 191832.

Each Fund is invested as if it belongs to the “UCITS” category specified in the FCA Rules. For investment purposes the assets of each Fund will be treated as separate and will be invested in accordance with the investment objective and investment policy of that Fund. The Funds set out below are those that are currently available.

Current Funds	FCA Product Reference Number
American Index Fund	643786
Developed World Lower Carbon ESG Tilt Equity Index Fund	939248
European Index Fund	643784
FTSE All-Share Index Fund	643787
FTSE All-World Index Fund	643791
FTSE 100 Index Fund	643783
FTSE 250 Index Fund	643785
Japan Index Fund	643789
MSCI Emerging Markets Equity Index Fund	1022042
MSCI Emerging Markets ex China Equity Index Fund	1022043
Pacific Index Fund	643788
S&P 500 Equal Weight Equity Index Fund	1019926
Sterling Corporate Bond Index Fund	763640
UK Gilt Index Fund	643790
USA Lower Carbon ESG Tilt Equity Index Fund	971835

Details of the individual investment objective, investment policy, investment strategy, SRRI and Share Classes offered for each of the Funds, along with details of the replication strategy and indices they each invest into, can be found in Appendix 1.

The ACD has adopted, as its core principle in its business practice, the guidelines published by the FCA in regard to treating customers fairly, for the benefit of both Shareholders and the Company.

Factsheets and other index information can be found on the HSBC Global Asset Management (UK) Limited website: <http://www.assetmanagement.hsbc.com>. You will need to sign in as an ‘Individual investor’ and accept the terms. Details of the constituents that make up the relevant indices are available on the relevant index provider sites as detailed in Appendix 1.

The historic performance of the Funds for the last five years (where available) can be found in Appendix 2.

Additional Funds and Share Classes

Further Funds and new Share Classes may be added in the future by the ACD from time to time with the approval of the FCA. On the introduction of any new Fund or new Share Class a revised Prospectus will be prepared.

For all Funds, the ACD reserves the right to invest or remove seed money at its discretion when it considers it appropriate to do so. Typically, seed money is invested when a new Fund and/or Share Class is launched and removed when the ACD considers the Fund and/or Share Class to be viable.

Allocation of Assets and Liabilities

Each Fund has a portfolio of assets to which that Fund's assets and liabilities are attributable. So far as the Shareholders are concerned each Fund is treated as a separate entity.

The assets of a Fund of the Company belong exclusively to that Fund and shall not be used to discharge directly or indirectly the liabilities of, or claims against, any other person or body, including the Company, or any other Fund of the Company, and shall not be available for any such purpose.

While this principle of segregation of assets and liabilities between the Funds is established in English law under the OEIC Regulations, this is not the case across all jurisdictions. Accordingly, where claims are brought by local creditors in foreign courts or under foreign law contracts, it is not yet known whether foreign courts will recognise and give full effect to this segregation.

Each Fund will be charged with the liabilities, expenses, costs and charges of the Company in respect of or attributable to that Fund as they occur.

Within the Funds, charges will be allocated between Share Classes in accordance with the terms of issue of Shares. Any expenses specific to a Share Class will be allocated to that Share Class and otherwise shall be allocated between Share Classes by the ACD in a manner which is considered fair to Shareholders. With the exception of the audit fee, which is allocated according to the complexity of the audit in respect of the relevant Fund, and the FCA authorisation fee, which is allocated equally between each Fund so authorised and then apportioned equally between all Share Classes of the relevant Fund, such fees will normally be allocated to all Share Classes in proportion to the respective Net Asset Value of the relevant Share Classes.

Except for the fees and expenses payable to the ACD, the dilution adjustment, expenses incurred in acquiring and disposing of investments, the costs of registering investments and taxation and duties payable by the Company where these are allocated to specific Share Classes, no other fees will be allocated to the Accumulation T Share Class of the Developed World Lower Carbon ESG Tilt Equity Index Fund. Instead all such other fees attributable solely to the Accumulation T Share Class of the Developed World Lower Carbon ESG Tilt Equity Index Fund will be borne by the ACD.

Any assets, liabilities, expenses, costs or charges not attributable to a particular Fund may also be allocated by the ACD in a manner which is considered fair to the Shareholders. They will normally be allocated to all Funds in proportion to the respective Net Asset Value of the relevant Funds.

Share Classes

The Company may issue several Share Classes in respect of each Fund being Retail Income, Retail Accumulation, Income C, Accumulation C, Institutional A Income, Institutional A Accumulation, Income S, Accumulation S, Income T, Accumulation T, Institutional Income, Institutional Accumulation, Accumulation CHKD, Accumulation SHKD and Institutional Accumulation HKD.

The Share Classes currently in issue are Retail Income, Retail Accumulation, Income C, Accumulation C, Institutional A Income, Institutional A Accumulation, Income S, Accumulation S, Income T, Accumulation T, Institutional Income, Institutional Accumulation, Accumulation CHKD, Accumulation SHKD and Institutional Accumulation HKD.

These Share Classes are distinguished on one or more of the following criteria: accumulation or distribution of income, minimum subscription, minimum holding, currency, Annual Management Charge and distribution channel. All Funds are marketable to all investors subject to the Share Dealing Restrictions on page 18.

The Share Classes available for each Fund are subject to the eligibility criteria detailed below. For all Share Classes the ACD has discretion to apply lower minima than those stated. For details of charges specific to each Share Class, please refer to the Fees and Expenses section on page 49.

Hong Kong Investors

- The FTSE 100 Index Fund, American Index Fund, European Index Fund, Japan Index Fund and Pacific Index Fund are authorised by the Securities and Futures Commission in Hong Kong. The Securities and Futures Commission reserves the right to withdraw the authorisation of the aforementioned funds if the index which each Fund tracks is no longer considered acceptable.
- It is the current intention of the ACD not to market the Securities and Futures Commission-authorized Funds to retail investors in Hong Kong. Investments into the FTSE 100 Index Fund, American Index Fund, European Index Fund, Japan Index Fund and Pacific Index Fund can only be accepted from (i) HSBC or Hang Seng branded feeder funds, unit trusts or mutual funds (ii) a client or custodian of HSBC Global Asset Management (Hong Kong) Limited and/or HSBC Global Asset Management Holdings (Bahamas) Limited acting in their capacity as discretionary investment manager of their clients or (iii) other Hong Kong investors that the ACD is satisfied are not retail investors.
- Investments into the Developed World Lower Carbon ESG Tilt Equity Index Fund, FTSE 250 Index Fund, the FTSE All-Share Index Fund, FTSE All-World Index Fund, MSCI Emerging Markets Equity Index Fund, MSCI Emerging Markets ex China Equity Index Fund, S&P 500 Equal Weight Equity Index Fund, Sterling Corporate Bond Index Fund, UK Gilt Index Fund and USA Lower Carbon ESG Tilt Equity Index Fund are not permitted by investors in Hong Kong (except with the prior permission of the ACD).

All Funds are marketable to all investors, subject to the eligibility criteria detailed below, except as detailed above for investors in Hong Kong.

Subscription criteria

Retail Income and Retail Accumulation Share Classes: These are Net Income and Net Accumulation Share Classes and each has a minimum initial subscription of £1,000, with a minimum additional subscription of £500 and the minimum redemption of £100. Both Share Classes are only available to Shareholders who held these Share Classes as at 8 January 2021 or otherwise at the discretion of the ACD.

NOTE: The Retail Income Share Class for the American Index Fund, European Index Fund, Japan Index Fund and Pacific Index Fund, is only open for investment in a Taxed Plan or Individual Savings Account (ISA) through an HSBC Taxed Plan/ISA Account Manager or otherwise at the discretion of the ACD.

Income C and Accumulation C Share Classes: These are Net Income and Net Accumulation Share Classes. The minimum initial subscription is £1,000,000. The minimum additional subscription is £500.

Institutional A Income and Institutional A Accumulation Share Classes: These are Net Income and Net Accumulation Share Classes. The minimum initial subscription is £500,000,000 (for the S&P 500 Equal Weight Equity Index Fund and the MSCI Emerging Markets ex China Equity Index Fund the minimum initial subscription is £250,000,000). The minimum additional subscription is £1,000,000. Each Share Class is only available at the discretion of the ACD to investors that meet the minimum investment criteria.

Income S and Accumulation S Share Classes: These are Net Income and Net Accumulation Share Classes. The minimum initial subscription is £10,000,000. The minimum additional subscription is £1,000,000. Each Share Class is only available at the discretion of the ACD to investors that meet the minimum investment criteria.

Income T and Accumulation T Share Classes: These are Net Income and Net Accumulation Share Classes. The minimum initial subscription is £100,000,000. The minimum additional subscription is £1,000,000. Each Share Class is only available to investors that meet the minimum investment criteria and for which an acceptable distribution agreement is in place or otherwise at the discretion of the ACD.

Institutional Income and Institutional Accumulation Share Classes: These are Net Income and Net Accumulation Share Classes. The minimum initial subscription is £10,000,000. The minimum additional subscription is £1,000,000. Each Share Class is only available to HSBC Group Companies or otherwise at the discretion of the ACD.

Accumulation CHKD Share Class: This is a Net Accumulation Share Class. This is a Currency Share Class denominated in HKD. The minimum initial subscription is HKD10,000,000. The minimum additional subscription is HKD5,000.

Accumulation SHKD Share Class: This is a Net Accumulation Share Class. This is a Currency Share Class denominated in HKD. The minimum initial subscription is HKD100,000,000. The minimum additional subscription is HKD10,000,000. Each Share Class is only available at the discretion of the ACD to investors that meet the minimum investment criteria.

Institutional Accumulation HKD Share Class: This is a Net Accumulation Share Class. This is a Currency Share Class denominated in HKD. The minimum initial subscription is HKD100,000,000. The minimum additional subscription is HKD10,000,000. Each Share Class is only available to HSBC Group Companies or otherwise at the discretion of the ACD.

The Finance Bill 2017 removed the requirement for tax to be deducted from interest distributions of open ended investment companies. The changes took effect on 6 April 2017. As a result, the price of Net Shares is now calculated gross of tax on income to reflect that income tax is no longer deducted from interest distributions and UK tax is no longer accounted for on Net Share Classes. Therefore there is no distinction between Gross Shares and Net Shares in this respect.

Holding criteria

The minimum holding for all Share Classes is the same as the minimum initial subscription.

Additional Classes

Further Share Classes may be established from time to time by the ACD with the approval of the FCA. On the introduction of any new Share Class, a revised Prospectus will be prepared.

Currency Share Classes

Within a Fund, separate Currency Share Classes may be issued. Investors in such classes may be exposed to currency fluctuations between the Currency Share Class and the Base Currency of the Fund. A Currency Share Class is identified by a standard international currency acronym added as a suffix, e.g. "HKD".

Exceptions to Subscription Criteria

Exceptions

The ACD may, at its absolute discretion, allow investment into a Share Class where the investor does not meet the minimum subscription criteria as set out above. Such exceptions may be permitted for any share class for HSBC Group companies, institutional or retail investors.

Discounts

In certain circumstances the ACD may, at its absolute discretion, agree to a rebate of a proportion of its Annual Management Charge.

Regular Savers

The ACD operates a regular savings plan for Shareholders in the Retail Accumulation* and Accumulation C Share Classes, subject normally to a minimum monthly subscription of £50 in any one Fund and a minimum additional subscription of £10 per month.

* Please note the Retail Accumulation Share Class is only available to Shareholders who held this Share Class as at 8 January 2021 or otherwise at the discretion of the ACD.

The minimum holding for a regular saver if contributions are to cease is £1,000.

Conversions

Shareholders are entitled (subject to certain restrictions) to convert all or part of their Shares in a Share Class for Shares of another Share Class within the same Fund. Details of this conversion facility and the restrictions are set out in the Share Conversion section on page 23.

Switching

Shareholders are entitled (subject to certain restrictions) to switch all or part of their Shares in a Fund for Shares in another Fund (whether of the same or a different Share Class). Details of this switching facility and the restrictions are set out on page 24.

Income Shares and Accumulation Shares

Holders of Retail Income, Income C, Institutional A Income, Income S, Income T and Institutional Income will receive distributions of income. Holders of Retail Accumulation, Accumulation C, Institutional A Accumulation, Accumulation S, Accumulation T, Accumulation CHKD, Accumulation SHKD, Institutional Accumulation and Institutional Accumulation HKD Shares do not receive payments of income as these are Accumulation Shares and any income arising in respect of an Accumulation Share is automatically accumulated and reflected in the price of each Accumulation Share.

Shareholders' liability to tax is explained in more detail in the Section "Taxation" on page 59.

Tax vouchers or certificates of deduction of income tax for both Income and Accumulation Shares will be issued in respect of distributions made or accumulated and tax accounted for.

Each allocation of income made in respect of any Fund at a time when more than one Share Class is in issue in respect of that Fund will be done by reference to the relevant Shareholder's proportionate interests in the scheme property of the Fund in question. Shareholders must have their distribution of income paid direct to their bank or building society current account.

Where both Income Shares and Accumulation Shares are in existence in relation to a Fund, the relevant Shareholder's proportionate interest in the scheme property of the Fund represented by each Accumulation Share increases as income, if any, is accumulated. In these circumstances, the income of the Fund is allocated between Income Shares and Accumulation Shares according to the relevant Shareholder's proportionate interests in the scheme property of the Fund represented by the Accumulation Shares and Income Shares in existence at the end of the relevant accounting period.

Governing Law

An investment in Shares is governed by English law.

Dealing in Shares

The ACD's Share dealing lines are open from 9.00 am until 5.00 pm on each Dealing Day*.

* Further information regarding Dealing Days and non-Dealing Days can be found on the HSBC Global Asset Management (UK) Limited website; www.assetmanagement.hsbc.com, select "Fund Centre" and locate and select the Fund from the list of funds. The "Fund holiday calendar" can then be found by clicking on the "Documents" page. Or you can call the Fund Servicing Centre on 0800 358 3011 (international +44 (0)800 358 3011). Lines are open 9.00 am to 5.00 pm Monday to Friday (excluding public holidays). To help the ACD and the Administrator continually improve their services and in the interests of security, they may monitor and/or record your communications with them.

Pricing

The Company deals on the basis of "single pricing". This means both the issue and the redemption price of a Share at a particular valuation point will be the same.

The price of a Share in the Company is calculated by reference to the Net Asset Value ("NAV") of the Fund to which it relates. The Share Class NAV is derived from the Fund NAV proportionate to the value of the assets attributable to each Share Class. The price of a Share is calculated by dividing the Share Class NAV by the number of Shares of that Share Class in issue. In addition, the ACD may make an Initial Charge on Shares purchased (such charge is currently 0%). The ACD also reserves the right to make a redemption charge (often referred to as an Exit Charge) on Shares sold. Although no such redemption charge is currently intended, if the ACD were to levy such a charge, the amount of the charge would be taken from the proceeds of the investment before they are paid out. If the ACD decides to increase the initial charge or introduce a redemption charge in the future, it will only do so after giving an appropriate period of notice to Shareholders (see "Fees and Expenses" section on page 49).

For both purchases and sales, a dilution adjustment may be made to the price of a Share (see section titled "Dilution" on page 54).

For all Funds the Company deals on a forward pricing basis only (and not on the basis of published prices). A forward price is the price calculated at the next valuation point (currently 12 noon on each Dealing Day) after the deal instruction is received.

As indicated in the Valuation section on page 28, in determining the Net Asset Value of a Fund an estimated amount is deducted for anticipated tax liabilities at that point in time including (but not limited to) income tax where applicable in respect of income received by a Fund during an accounting period. The price that Shareholders receive when they buy, sell, switch or convert Shares therefore reflects any income received during the accounting period and accounted for by the Fund net of any income tax and other liabilities. Prospective investors should consider whether this method of valuation meets with their investment needs. Note that for the Sterling Corporate Bond Index Fund and UK Gilt Index Fund, the price that Shareholders receive from 15 November 2016 is calculated gross of tax on income received by the Fund from this date.

In the case of a Currency Share Class, a currency conversion will take place on subscriptions and redemptions at prevailing exchange rates. The value of the Share expressed in the currency in which the Currency Share Class is denominated will be subject to exchange rate risk in relation to the Base Currency of the relevant Fund. Movements in currency exchange rates can materially impact investment returns and investors should ensure they fully understand the difference between investment in Currency Share Classes and Share Classes denominated in the Base Currency.

The prices of Shares will be published on the HSBC Global Asset Management (UK) Limited website; www.assetmanagement.hsbc.com, or you can call the Fund Servicing Centre on 0800 358 3011 (international +44 (0)800 358 3011). Lines are open 9.00 am to 5.00 pm Monday to Friday (excluding public holidays). To help the ACD and the Administrator continually improve their services and in the interests of security, they may monitor and/or record your communications with them.

Share Dealing Restrictions

The Administrator may refuse or delay your application for the purchase of Shares or your instruction for the sale of Shares. In these circumstances the Administrator will use reasonable endeavours to contact you personally unless it is not permitted to do so. In particular, applications to purchase Shares may be refused if the ACD or the Administrator:

- reasonably believes that you are not eligible to hold Shares under the terms of the relevant Fund prospectus; or
- reasonably considers that by accepting your instruction it may break a law, regulation, code, court order or other duty; or
- becomes aware or has reason to believe you are resident in or otherwise connected to a country into which the ACD is not permitted to distribute or offer the Shares; or
- if, subsequent to a Shareholder's investment in the Company, the Shareholder becomes a US Person, such Shareholder
 - (i) will be restricted from making any additional investments in the Company and
 - (ii) as soon as practicable have its Shares compulsorily redeemed by the Company (subject to the requirements of applicable law).

The ACD may, from time to time, waive or modify the above restrictions.

In addition, the ACD or the Administrator also have the right to refuse to sell Shares to a prospective investor if:

- (a) there are reasonable grounds relating to the circumstances of the applicant; or
- (b) the number or value of the Shares applied for is less than the minimum for that Share Class.

The Administrator may also refuse to accept applications for subscriptions or switches of Shares in a Fund which it knows, or in its absolute discretion considers to be, associated with market timing activities.

In general terms, market timing activities are strategies which may include frequent purchase and sale of Shares, with a view to profiting from anticipated changes in market prices between valuation points or arbitraging on the basis of market price changes subsequent to those used in the valuation of a Fund.

Such market timing activities are disruptive to Fund management, may lead to additional dealing charges which cause losses/dilution to a Fund and may be detrimental to performance and to the interests of long-term Shareholders.

In the event of any of the above occurrences, the Administrator will return any money sent, or the balance of such monies, at the risk of the applicant.

In accordance with the requirements arising under FATCA (more detail can be found in the Taxation Section on page 59), an application from a non-personal investor to purchase Shares will require such documentation as the ACD may require to establish the investor's status under FATCA and payment for the investment amount must accompany the application.

When payment is received it will be held in accordance with the FCA Rules and Shares will be purchased to avoid unnecessary delay in making the investment and comply with the requirements of timely execution. However, the Shares will not be registered in the applicant's name until the W Form (or such other form that the ACD may require) has been validated. Following validation, the Shares will be registered in the name of the applicant.

If the W Form (or such other form that the ACD may require) cannot be validated, the Administrator will contact the applicant requesting further information and/or a replacement form. Once this has been received and validated the Shares will be registered in the applicant's name.

If a new W Form (or such other form that the ACD may require) is not received by the date advised, or the application is withdrawn after the Shares have been purchased, the Shares will be sold and the money will be returned to the applicant, at the risk of the applicant. In these circumstances, the applicant may receive less than the original investment amount as a result of market movement.

Shares of the Company may not be offered or sold to any US Person.

The Shares described in this prospectus may only be distributed in Canada through a distributor appointed by the ACD to do so, and this prospectus may not be used to solicit, and will not constitute a solicitation of, an offer to buy Shares in Canada unless such solicitation is made by a distributor appointed by the ACD to do so.

A distribution or solicitation may be deemed to occur in Canada where a distribution or solicitation is made to a Canadian Resident at the applicable time.

Investment into the Shares for the purpose of creating a structured product replicating the performance of the Fund(s) is only permitted after entering into an agreement to this effect with the ACD. In the absence of such an agreement, the ACD can refuse or repurchase an investment into the Shares if this is related to a structured product and deemed by the ACD to potentially conflict with the interest of other Shareholders.

Buying Shares

Investors, including regular savers, wishing to buy Shares must initially provide a completed application form/registration document and appropriate anti-money laundering documentation to the Administrator. Subsequently, applications to buy Shares can be made by telephoning the Administrator's Fund Servicing Centre on 0800 358 3011. Requests to subsequently alter regular savings amounts must be notified to the Administrator in writing. The ACD does not currently accept email instructions for the buying of Shares. The ACD accepts instructions to buy Shares, in respect of unrestricted Share Classes, that are placed through Electronic Instruction Routing service providers with which the ACD has contracted and which Shareholders have access to.

Application forms are available from the ACD by writing to the Administrator or telephoning the Administrator's Fund Servicing Centre on 0800 358 3011. Visit the HSBC Global Asset Management (UK) Limited website for supporting literature at www.assetmanagement.hsbc.com, choose "United Kingdom" then "Individual Investors" or "Financial Intermediary" then choose "Funds". Choose a fund that you would like to consider, each fund listed has a "Documents" tab that contains the prospectus and key investor information document (KIID) that you should read prior to making your decision. The ACD may introduce other methods by which Shares can be purchased in the future.

Any subscription monies remaining after a whole number of Shares has been issued will not be returned to the applicant. Instead, smaller denomination Shares will be issued in such circumstances. A smaller denomination Share is equivalent to one hundredth of a larger denomination Share.

The register and all documentation sent to Shareholders will show the number of larger denomination Shares and smaller denomination Shares of the same Share Class.

If a Shareholder has title to more than 100 smaller denomination Shares of any one Share Class then sufficient smaller denomination Shares will be consolidated to one larger denomination Share, so that the Shareholder has title to less than 100 smaller denomination Shares.

The Administrator may at any time, for the purposes of effecting a transaction in Shares with a Shareholder, substitute that Shareholder's entitlement to one or more larger denomination Shares into an entitlement to smaller denomination Shares of the same Share Class, in a ratio of one larger denomination Share to 100 smaller denomination Shares.

Applications to buy Shares will not be acknowledged. However, a contract note will be issued by the end of the Business Day following the later of the day of receipt by the Administrator of the application for the purchase of Shares or the day of the valuation point by reference to which the purchase price is determined. Where appropriate, applicants will be informed of their right to cancel. The contract note will give details of the Shares purchased, the price used and the time and date by which a cleared payment must be received. The time and date specified will be a Business Day, regardless of whether this is a Dealing Day.

In the case of a Currency Share Class, payments for subscriptions can only be made in the currency in which the Share Class is denominated. Payments will require a foreign exchange transaction between this currency and the Base Currency of the Fund. This operation will be arranged by the Administrator on the basis of the exchange rate applicable as at the Dealing Day. Any fees charged by the Administrator for arranging the foreign exchange transaction will be charged to the relevant Currency Share Class. For all other Share Classes, payments for subscriptions can only be made in the Base Currency.

If a cleared payment is not received by the time and date specified in the contract note the instruction to buy Shares may be cancelled and in such circumstances no Shares will be issued to the applicant.

The applicant or their financial intermediary will be liable for the cost of the cancellation. Furthermore, failure to make payment by the date specified may result in the Company or the ACD bringing an action against the

defaulting applicant or their intermediary, or deducting any costs or losses incurred by the Company or the ACD against any existing holdings of the applicant.

Certificates will not be issued in respect of Shares.

Ownership of Shares will be evidenced by an entry on the Company's Register of Shareholders (the "Register"). The Registrar may delay updating the Register to reflect the ownership of Shares until such time as it has received a cleared payment in respect of the Shares. Once a cleared payment has been received, if any Shareholder requires evidence of title to Shares then upon such proof of identity as it shall reasonably require the Registrar will provide the Shareholder with a certified copy of the relevant entry in the Register.

Shareholders will be able to monitor their holdings by a statement showing transactions in Shares and current holdings which will be sent out to all Shareholders (or in the case of joint holdings, the first named) twice a year by the ACD. The Register is prima facie evidence of entitlement to Shares. Shareholders must notify the ACD of any change of address. Individual statements of Shareholder's (or in the case of joint holdings, the first named) Shares will also be issued at any time on request by the registered holder. The right is reserved to make a charge for duplicate copies of statements.

Selling Shares

Sole Shareholders wishing to sell Shares should telephone the Administrator's Fund Servicing Centre on 0800 358 3011 or write to the Administrator. In the case of joint Shareholders wishing to sell Shares the Administrator will need to receive written instructions signed by all registered Shareholders. The ACD does not currently accept email instructions for the sale of Shares. The ACD accepts instructions to sell Shares, in respect of unrestricted Share Classes, that are placed through Electronic Instruction Routing service providers with which the ACD has contracted and which Shareholders have access to. The ACD may introduce other methods for selling Shares in the future.

In the case of a Currency Share Class, payments for redemptions will only be made in the currency in which the Share Class is denominated. Payments will require a foreign exchange transaction between the Base Currency of the Fund and the currency in which the Currency Share Class is denominated. This operation will be arranged by the Administrator on the basis of the exchange rate applicable as at the Dealing Day. Any fees charged by the Administrator for arranging the foreign exchange transaction will be charged to the relevant Currency Share Class. For all other Share Classes, payments for redemptions will only be made in the Base Currency.

Instructions to sell are irrevocable.

Shareholders are entitled on any Dealing Day to request that the Company redeem their Shares in accordance with the procedures set out below.

A contract note giving details of the number and prices of Shares sold will be sent to the selling Shareholder (the primary holder in the case of joint holders). If written instructions are required this will be accompanied by a form of renunciation for completion and execution by the Shareholder (or in the case of joint holders, by all the joint holders). This will be sent no later than the end of the Business Day following the later of:

- (a) the day of the request to sell Shares; or
- (b) the day of the valuation point by reference to which the redemption price is determined.

For all Funds (with the exception of the UK Gilt Index Fund, the American Index Fund, Developed World Lower Carbon ESG Tilt Equity Index Fund, FTSE All-World Index Fund, MSCI Emerging Markets Equity Index Fund, MSCI Emerging Markets ex China Equity Index Fund, S&P 500 Equal Weight Equity Index Fund and the USA Lower Carbon ESG Tilt Equity Index Fund) redemption monies will be paid within three Business Days of the later of:

- (a) the receipt by the Administrator of the telephone request to sell, or where written instructions are required, the form of renunciation (or other sufficient written instructions) duly signed by all the relevant Shareholders and completed as to the appropriate number of Shares, together with any other appropriate evidence of title; and
- (b) the valuation point following receipt by the Administrator of the request to sell.

In the case of the American Index Fund, Developed World Lower Carbon ESG Tilt Equity Index Fund, FTSE All-World Index Fund, MSCI Emerging Markets Equity Index Fund, MSCI Emerging Markets ex China Equity

Index Fund, S&P 500 Equal Weight Equity Index Fund and the USA Lower Carbon ESG Tilt Equity Index Fund, redemption monies will be paid within two Business Days of the later of (a) and (b) above.

In the case of the UK Gilt Index Fund, redemption monies will be paid on the next Business Day following the later of (a) and (b) above.

Where the Administrator is unable to pay money out to you, for example the proceeds from the sale of Shares for which supporting documentation is needed, the money may, subject to the FCA Rules, be held by the ACD as client money in a client bank account with HSBC Bank plc and/or other financial institutions. No interest will be paid to you in respect of any client money held in the client money bank account.

While the ACD does not accept liability for acts, omissions and defaults of authorised financial institutions that hold client money on its behalf, in the event of insolvency you may be an eligible claimant under the Financial Services Compensation Scheme and be entitled as an individual to claim up to £85,000 in respect of the total cash you hold directly and indirectly hold with the failed financial institution.

Where amounts of client money are held that are deemed to be de minimis amounts as set out in the FCA Rules, the ACD may, after a period of six years has elapsed, following the date of the last movement on the relevant account, pay away such amounts to charity provided it has made at least one attempt to contact the rightful beneficial owner(s) as set out in the FCA Rules, being the registered Shareholder, and the Shareholder has not responded to the communication within 28 days of the communication being issued. The ACD does not require the consent of Shareholders to do this.

After a period of six years has elapsed (following the date of the last movement on the relevant account as set out in the FCA Rules) any unclaimed client monies which remain in the ACD's client money account which do not meet the FCA's defined de minimis criteria, may be paid away to a registered charity of the ACD's choice. Before doing so the ACD must ensure that it has taken all reasonable steps in accordance with the FCA Rules, to ensure payment of the client monies to their rightful beneficial owner(s),

In all circumstances monies paid to a charity would no longer be treated as client money. The making of a payment of unclaimed client money to a charity would not prevent a Shareholder from making a future claim to the ACD for repayment of such client monies upon production to the ACD of satisfactory evidence of their entitlement to those monies.

Treatment of Client Money when Buying or Selling Shares

When the Administrator receives money following an application to buy Shares, or when it receives the proceeds from the Fund when Shares are sold, the Client Money Rules allow the ACD a period of one Business Day before it must treat that money as Client Money. This is called the Delivery versus Payment ("DvP") exemption and it is an exception to the general requirement that money held for investors must always be held in a Client Money bank account.

When the ACD uses the DvP exemption at certain periods of time money that you pay to it when you buy Shares, or money that the ACD is due to pay you when you sell Shares is held in the ACD's own bank account. During this time it does not receive the same level of protection as it would receive if it was held in a Client Money bank account.

However, any monthly direct debit payments made by regular savers will not use the DvP exemption and instead will be held as Client Money from the date of collection until the settlement date for the relevant Fund. Any cheque payments made by the ACD to you will be issued from a Client Money Account.

Any Client Money will be held in a Client Money bank account at a UK bank and /or other financial institutions. No interest is paid in respect of any monies held in the Client Money bank account. In the event that HSBC Asset Management (Fund Services UK) Limited, HSBC Bank plc (or a third party bank with which your money is deposited) were to fail, the FCA's Client Money distribution rules contained in the FCA rules apply to your Client Money. The purpose of the Client Money distribution rules is to protect your interests with the aim of making the timely return of your money following any such failure.

In the event that the appointment of the ACD is terminated and a replacement ACD is appointed ("New ACD"), the ACD may also transfer any Client Money it holds on behalf of Shareholders to the New ACD. In these circumstances, the ACD will ensure that the New ACD will hold Client Money in accordance with the FCA Rules or, to the extent the New ACD is not required to hold this money as Client Money, the ACD will exercise all due skill, care and diligence in assessing whether the New ACD will apply adequate measures to protect

Client Money when transferred to that New ACD. Shareholders will be entitled to request the return of any Client Money from the new ACD if they so wish.

Minimum Redemption

Shareholders may sell part of their holding but the Administrator reserves the right to refuse a redemption request if the value of the Shares of any Fund to be redeemed in the Retail Share Classes is less than £100 or where the remaining holding in a Class would fall below the stated minimum for that Share Class if it were effected. In this circumstance the ACD may require redemption of the entire holding.

Share Conversion

Subject to the qualifications and restrictions shown below, a Shareholder may request to convert (exchange) all or some of his Shares of one Share Class ("the Original Shares") for the appropriate number of Shares of another Share Class in the same Fund ("New Shares"). The ACD may not impose restrictions as to the Share Classes of New Shares unless there are reasonable grounds relating to the circumstances of the Shareholder or the terms of the issue of the Share Class concerned for refusing to issue Shares of a particular Share Class to him. In no circumstances will a Shareholder who converts Shares of one Share Class for Shares of another Share Class in the same Fund be given a right by law to withdraw from or cancel the transaction.

The number of New Shares issued is determined by the following formula:

$$N = \frac{O \times (CP \times ER)}{SP}$$

Where N is the number of New Shares, O is the number of Original Shares to be converted, CP is the price at which one Original Share can be redeemed, ER is 1 (for the same currency Shares or an appropriate exchange rate where the currency of the Shares involved are different) and SP is the price of a New Share (in the cases of CP and SP at the applicable valuation point). Each number referred to in the definition of N or O shall be expressed to the second decimal place and rounded thereto in the case of N, so that the numbers before the decimal point represent the number of larger denomination Shares and the numbers after the decimal point when multiplied by 100 represents the number of smaller denomination Shares.

If the conversion would result in the Shareholder holding a number of Original Shares or New Shares of a value which is less than the minimum holding in the Share Class concerned, the ACD may (at its discretion) convert the whole of the applicant's holding of Original Shares to New Shares or refuse to effect any conversion of the Original Shares.

The New Shares will retain the same Group 1 Shares and Group 2 Shares split (where applicable) as that held with the Original Shares until the next distribution date. Equalisation will be applied to Group 2 Shares.

A Shareholder wishing to convert Shares should send written instructions to the Administrator. Any instructions to the Administrator must be signed by all registered Shareholders. Where instructions to convert are received and the New Shares are Income Shares, the ACD may require written bank account details in order to pay income distributions. The ACD may however, delay or reject an application for a conversion of Shares if, in its opinion, to undertake such a transaction within the Fund would be detrimental to the other Shareholders.

Notification must be received by the Administrator before the valuation point on a Dealing Day in the Fund concerned, to be dealt with at the price at the valuation point on that Dealing Day or at such other valuation point as the ACD at the request of the Shareholder giving the relevant exchange notice may determine.

A conversion request received after a valuation point will be held over until the next Dealing Day. If a conversion instruction relates to Original Shares for which a cleared payment has not been received the Administrator may delay converting the Shares until any outstanding payment is received and cleared.

Conversions will be effected by the Administrator recording the change of Share Class on the Register at the date of conversion.

Conversion instructions, once given, are irrevocable. A conversion is not treated as a redemption of Shares and will, therefore, not be deemed a disposal for the purposes of Capital Gains Tax.

The ACD does not propose to charge a fee for conversions.

Conversions between a Currency Share Class and a Share Class denominated in the Base Currency are not permitted.

Switching

Subject to the qualifications below, a Shareholder may at any time switch (exchange) all or some of his Shares of one Fund ("the Original Shares") for the appropriate number of Shares of another Fund ("New Shares") (whether of the same or a different Share Class). In no circumstances will a Shareholder who switches Shares in one Fund for Shares in another Fund be given a right by law to withdraw from or cancel the transaction. The number of New Shares issued is determined by the following formula:

$$N = \frac{O \times (CP \times ER)}{SP}$$

Where N is the number of New Shares to be issued, O is the number of Original Shares to be exchanged, CP is the price at which one Original Share can be redeemed, ER is 1 (for the same currency Shares or an appropriate exchange rate where the currency of the Shares involved are different) and SP is the price at which a New Share can be purchased (in the cases of CP and SP at the applicable valuation point). Each number referred to in the definition of N or O shall be expressed to the second decimal place and rounded down thereto in the case of N, so that the numbers before the decimal point represent the number of larger denomination Shares and the numbers after the decimal point when multiplied by 100 represents the number of smaller denomination Shares.

Where it is desired to switch Shares between Share Classes issued in respect of different Funds, the ACD may not impose restrictions as to the Share Classes of New Shares unless there are reasonable grounds relating to the circumstances of the Shareholder or the terms of the issue of the Share Class concerned for refusing to issue or sell Shares of a particular Share Class to him.

If the switch would result in the Shareholder holding a number of Original Shares or New Shares of a value which is less than the minimum holding in the Share Class concerned, the ACD may (at its discretion) switch the whole of the applicant's holding of Original Shares to New Shares or refuse to effect any switch of the Original Shares. No switch will be made during any period when the right of Shareholders to require the redemption of their Shares is suspended.

The general provisions on procedures relating to redemption will apply equally to a switch. Shareholders wishing to switch Shares held in their sole name should send written instructions to the Administrator or may telephone the Administrator's Fund Servicing Centre on 0800 358 3011. However in the case of joint Shareholders the switch cannot be carried out until the Administrator has received written instructions signed by all registered Shareholders.

Where instructions to switch are received over the telephone and the New Shares are Income Shares the ACD may request written bank account details in order to pay income distributions.

Notification must be received by the Administrator before the valuation point on a Dealing Day in the Fund or Funds concerned to be dealt with at the prices at those valuation points on that Dealing Day, or at such other valuation point as the ACD at the request of the Shareholder giving the relevant exchange notice may determine. A switching request received after a valuation point will be held over until the next Dealing Day.

If a Shareholder switches Original Shares in one Fund for New Shares in another Fund the ACD may impose a switching fee and in certain circumstances make a dilution adjustment to the price of a Share. Details of these charges are described in the Fees and Expenses section on page 49.

The ACD may adjust the number of New Shares to be issued to reflect the imposition of any switching fee together with any other fees, charges or levies in respect of the issue or sale of the New Shares or repurchase or cancellation of the Original Shares as may be permitted pursuant to the FCA Rules.

Switching instructions, once given, are irrevocable.

It should be noted that a switch of Original Shares in one Fund for New Shares in any other Fund is treated as a redemption and will, for persons subject to United Kingdom taxation, be a disposal for the purposes of Capital Gains Tax.

Switches between a Currency Share Class and a Share Class denominated in the Base Currency (whether of the same or a different Fund) are not permitted.

Dealing Charges

The charges applicable to all dealings in Shares are set out in the Fees and Expenses section on page 49.

Compulsory Transfer and Redemption

Shares in the Company may not be acquired or held by any person in circumstances (relevant circumstances):

- (a) which constitute a breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory; or
- (b) which would (or would if other Shares were acquired or held in like circumstances) result in the Company incurring any liability to taxation or suffering any other adverse consequence (including a requirement to register under any securities or investment or similar laws or governmental regulation of any country or territory).

In this connection, the ACD may (amongst other things) reject any subscription, sale, transfer or switching of Shares.

If it comes to the notice of the ACD that any Shares (affected Shares) have been acquired or are being held directly or beneficially in any of these relevant circumstances or by virtue of which the Shareholder in question is not qualified to hold such Shares or if it reasonably believes this to be the case, the ACD may give notice (an action notice) to the holder of the affected Shares requiring the transfer of such Shares to a person who is qualified or entitled to own them or may give a request in writing for the redemption or cancellation of such Shares in accordance with the FCA Rules. If any person upon whom such a notice is served does not within 30 days after the date of such notice transfer his affected Shares to a person qualified to own them or establish to the satisfaction of the ACD (whose judgement shall be final and binding) that he and any person on whose behalf he holds the affected Shares are qualified and entitled to own them, he may be deemed upon the expiration of the 30 day period to have given a request in writing for the redemption or cancellation of all the affected Shares pursuant to the FCA Rules.

A person who becomes aware that he has acquired or holds affected Shares in any of these relevant circumstances, or by virtue of which he is not qualified to hold such affected Shares, shall forthwith, unless he has already received an action notice, either transfer all his affected Shares to a person qualified to own them or give a request in writing for the redemption of all his affected Shares pursuant to the FCA Rules.

The ACD may also compulsorily redeem the Shares held by a Shareholder where:

- (a) the value of the Shares held by the Shareholder is lower than the minimum holding amount set out in the subscription criteria on page 16, for the Share Class held by the Shareholder; and
- (b) the Shareholder is not eligible to hold any other Share Class for the same Fund in accordance with the subscription criteria set out on page 16.

The ACD will give 60 days' prior notice to Shareholders before undertaking such a compulsory redemption of Shares. Shareholders may make additional subscriptions such that the value of their Shares meets the minimum holding amount or redeem all of their Shares during the notice period, as set out in the Dealing in Shares section on page 18.

The proceeds of the redemption will be paid out to the Shareholder.

The redemption and payment of redemption monies will be carried out in accordance with the procedures set out in the Selling Shares section on page 21.

Compulsory Conversion

The ACD may convert (exchange) some or all of the Shares ("Original Shares") of one Share Class held by a Shareholder to the appropriate number of Shares ("New Shares") of another Share Class for the same Fund in the following circumstances:

- (a) where the ACD has considered and is satisfied that the conversion to another Share Class is in the best interests of the Shareholders concerned in all circumstances. The ACD may therefore undertake such a conversion where the ACD reasonably believes that the conversion would not be detrimental to the Shareholders concerned.

The conditions under which a conversion is not detrimental may vary for different Shareholders. Such a conversion is likely to be beneficial where the Annual Management Charge of another Share Class for the same Fund is lower than the Annual Management Charge for the existing Share Class held by the Shareholder. To ensure that such a conversion is in the best interest of the Shareholders concerned the ACD will give 60 days' prior notice to Shareholders before undertaking such a compulsory conversion of

Shares. Shareholders may opt out of the conversion during the notice period by contacting the Administrator or ACD; or

- (b) where the value of the Shares held by a Shareholder is lower than the minimum holding amount, set out in the Subscription Criteria on page 16, for the Share Class held by the Shareholder. The ACD may convert the Shares to another Share Class that the Shareholder is eligible to hold in accordance with the Subscription Criteria set out on page 16. The ACD will give 60 days' prior notice to Shareholders before undertaking such a mandatory conversion of Shares. Shareholders may make additional subscriptions such that the value of their Shares meets the minimum holding amount or redeem all of their Shares during the notice period, as set out in the Dealing in Shares section on page 18; or
- (c) where a distribution of income remains unclaimed by a Shareholder for consecutive distributions as set out in the table below then the ACD may convert the Share Class to Accumulation Shares.

Monthly distributions	19 uncashed distribution cheques
Quarterly distributions	7 uncashed distribution cheques
Half yearly distributions	4 uncashed distribution cheques
Yearly distributions	3 uncashed distribution cheques

The ACD will give 60 days' prior notice to Shareholders before undertaking such a mandatory conversion of Shares. Shareholders may opt out of the conversion during the notice period by contacting the Administrator or ACD and will be required to provide bank or building society current account details to which future distributions of income can be paid.

The number of New Shares will be determined in accordance with the formula set out in the Share Conversion section on page 23.

In Specie Redemptions

If a Shareholder requests the redemption or cancellation of Shares representing more than 5% (or such smaller percentage as the ACD may decide) of the Fund's Net Asset Value the ACD may arrange that in place of payment of the price of the Shares in cash, the Company cancels the Shares and transfers scheme property or, if required by the Shareholder, the net proceeds of sale of relevant scheme property, to the Shareholder.

Before the proceeds of the cancellation of Shares become payable, the ACD must give written notice to the Shareholder that the scheme property or the proceeds of the sale of scheme property will be transferred to that Shareholder.

The scheme property to be transferred will be selected by the ACD in consultation with the Depositary with a view to achieving no more advantage or disadvantage to the Shareholder requesting cancellation or redemption than to the continuing Shareholders of the Fund concerned.

The scheme property to be transferred or the proceeds of sale of the relevant scheme property shall be subject to the retention by the Company of scheme property or cash equivalent in value to any redemption charge under the FCA Rules and any duty or tax, or amounts owing by the Shareholder to the Company to be paid in relation to the redemption of Shares.

In Specie Applications

In exceptional circumstances the ACD may at its discretion and by special arrangement, agree to arrange for the Company to issue Shares in exchange for assets other than money, provided the Depositary has taken reasonable care to ensure that the acquisition of those assets in exchange for the Shares is not likely to result in any material prejudice to the interests of Shareholders of the Fund concerned.

The ACD will ensure that the beneficial interest in the assets is transferred to the Company with effect from the issue of the Shares.

The ACD will not issue Shares in any Fund in exchange for assets, the holding of which would be inconsistent with the investment objective of that Fund.

General

To satisfy a request for the issue, redemption or exchange of Shares, the ACD will normally sell Shares to or re-purchase Shares from Shareholders to meet such requests. The ACD is entitled to hold Shares for its own account and to satisfy requests for sales from its own holding. In some circumstances and in accordance with the FCA Rules, the Company will issue or cancel Shares to meet such requests. The FCA Rules require the

ACD to procure the issue or cancellation by the Company where necessary to meet any obligation to sell or redeem Shares. The ACD is under no obligation to account to the Company or to Shareholders for any profit it makes on the issue, reissue or cancellation of Shares and will not do so.

The amount to be charged by or paid to the ACD for the sale of a Share by the ACD will not be more than the price of a Share notified to the Depositary at the relevant valuation point plus any initial charge and/or dilution adjustment to the issue price of a Share which may apply.

The amount to be paid by the ACD for the redemption of a Share will not be less than the price of a Share notified to the Depositary at the relevant valuation point minus any redemption charge and/or dilution adjustment to the redemption price of a Share which may apply.

Each of the Funds is designed and managed to support longer-term investment and active trading is discouraged. High value or frequent trading into and out of a Fund may harm performance by disrupting portfolio management strategies and by increasing expenses. The ACD may at its discretion refuse to accept applications for, or conversion or switching of, Shares, especially where transactions are deemed disruptive, particularly from possible market timers or investors who, in its opinion, have a pattern of short-term or excessive trading or whose trading has been or may be disruptive to the Fund(s). For these purposes, the ACD may consider an investor's trading history in the Fund(s) or other HSBC funds and accounts under common ownership or control.

Money Laundering

Under current UK money laundering legislation, persons conducting investment business are responsible for compliance with money laundering regulations. So as to ensure compliance, appropriate identification enquiries may be made in certain circumstances whether in respect of the sale, purchase or transfer of Shares or distribution of income. Until satisfactory proof of identity and address is provided, the Administrator reserves the right, in the case of a purchase or transfer of Shares, to refuse to carry out the transaction requested and in the case of a sale of Shares, to hold the proceeds in a client money account until such time as the appropriate information is received. In the case of a sale of Shares, where appropriate proof of identity and verification of address is not received from you, the ACD also reserves the right to cancel the deal and, in such cases, the ACD may refuse to accept any further instruction to sell your Shares until such time as full identity and verification of address is received.

Suspension of Dealings in the Company

The ACD may (with the prior agreement of the Depositary and will if the Depositary so requires) temporarily suspend the issue, cancellation, sale, redemption, conversion and switching of any Share Class in any of the Funds where, due to exceptional circumstances, it is in the best interests of all the Shareholders in the Fund. Such suspension shall be allowed to continue for as long as it is justified having regard to the interests of Shareholders.

Shareholders will be notified of any suspension as soon as reasonably practicable after suspension commences, including details of the exceptional circumstances which have led to the suspension, in a clear, fair and not misleading way and giving Shareholders details of how to find further information about the suspensions.

Where such suspension takes place, the ACD will publish details on the HSBC Global Asset Management (UK) Limited website or other general means, sufficient details to keep Shareholders appropriately informed about the suspension, including, if known, its possible duration.

During the suspension none of the obligations in Section 6.2 (Dealing) of the FCA Rules will apply but the ACD will comply with as much of Section 6.3 (Valuation and Pricing) of the FCA Rules during the period of suspension as is practicable in light of the suspension.

The ACD will regularly review any suspension of dealings and take all necessary steps to resume normal dealing operations as soon as practicable after the exceptional circumstances leading to the suspension have ceased but the ACD and the Depositary will formally review the suspension at least every 28 days and will inform the FCA of the review and any change to the information given to Shareholders.

During the period of suspension the ACD may, at its discretion, agree to issue, redeem, convert or switch Shares at prices calculated by reference to the first valuation point after resumption of dealing.

Valuation

The price of a Share in the Company is calculated by reference to the Net Asset Value of the Fund to which it relates. The Net Asset Value per Share of a Fund is currently calculated as at 12 noon on each Dealing Day.

The ACD may at any time carry out an additional valuation if it is considered desirable to do so.

Calculation of the Net Asset Value

The value of the scheme property of a Fund is the value of its assets less the value of its liabilities determined in accordance with the following provisions:

1. All the scheme property (including receivables) of the Company (or the Fund) is to be included, subject to the following provisions.
2. Property which is not cash (or other assets dealt with in 3 below) or a contingent liability transaction shall be valued as set out below and the prices used shall (subject as follows) be the most recent prices which it is practicable to obtain:
 - (a) units or shares in a collective investment scheme:
 - (i) if a single price for buying and selling units or shares is quoted, at that price; or
 - (ii) if separate buying and selling prices are quoted, the average of the two prices provided the buying price has been reduced by any initial charge included therein and the selling price has been increased by any exit or redemption charge attributable thereto; or
 - (iii) if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no recent price exists, or if the most recent price available does not reflect the ACD's best estimate of the value of the units or shares, at the value which in the opinion of the ACD is fair and reasonable, using a valuation method agreed in consultation with the Depositary;
 - (b) any other transferable security:
 - (i) if a single price for buying and selling the security is quoted, at that price; or
 - (ii) if separate buying and selling prices are quoted, the average of the two prices; or
 - (iii) if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no price exists, or if the most recent price available does not reflect the ACD's best estimate of the value of the security, at a value which in the opinion of the ACD is fair and reasonable, using a valuation method agreed in consultation with the Depositary;
 - (c) property other than that described in (a) and (b) above:
 - (i) at a value which, in the opinion of the ACD, represents a fair and reasonable mid-market price (where available), using a valuation method agreed in consultation with the Depositary; or
 - (ii) where a mid-market price is not available, through the UK Valuations Committee which has ultimate oversight responsibilities in relation to exceptions to pricing policies, which include approving the methodologies for the valuation of illiquid securities
3. Cash and amounts held in current and deposit accounts and in other time-related deposits shall be valued at their nominal values.
4. Property which is a contingent liability transaction shall be treated as follows:
 - (a) if a written option (and the premium for writing the option has become part of the scheme property), deduct the amount of the net valuation of premium receivable. If the property is an off-exchange derivative it shall be included in a valuation using a method agreed between the ACD and the Depositary;
 - (b) if an off-exchange future, it shall be included at the net value of closing out in accordance with a valuation method agreed between the ACD and the Depositary;

- (c) if any other form of contingent liability transaction, include at the net value of margin on closing out (whether as a positive or negative value). If the property is an off-exchange derivative it shall be included at a valuation using a method agreed between the ACD and the Depositary.
5. In determining the value of the scheme property, all instructions given to issue or cancel Shares shall be assumed to have been carried out (and any cash paid or received) whether or not this is the case.
 6. Subject to paragraphs 7 and 8 below, agreements for the unconditional sale or purchase of property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and, in the opinion of the ACD, their omission shall not materially affect the final net asset amount.
 7. Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 6.
 8. All agreements are to be included under paragraph 6 which are, or ought reasonably to have been, known to the person valuing the property.
 9. Deduct an estimated amount for anticipated tax liabilities at that point in time including (as applicable and without limitation) capital gains tax, income tax, corporation tax, value added tax, stamp duty and stamp duty reserve tax.
 10. Deduct an estimated amount for any liabilities payable out of the scheme property and any tax thereon treating periodic items as accruing from day to day.
 11. Deduct the principal amount of any outstanding borrowings whenever repayable and any accrued but unpaid interest on borrowings.
 12. Add an estimated amount for accrued claims for tax of whatever nature which may be recoverable.
 13. Add any other credits or amounts due to be paid into the scheme property.
 14. Add a sum representing any interest or any income accrued due or deemed to have been accrued but not received.
 15. Currencies or values in currencies other than the Base Currency or (as the case may be) the designated currency of a Fund shall be converted at the relevant valuation point at an exchange rate that is not likely to result in any material prejudice to the interests of Shareholders or potential Shareholders. This also applies in respect of the determination of the value of Currency Share Classes.
 16. Where securities lending is undertaken, income received from securities lending transactions will be accrued and received into the income account of the relevant Fund and reflected in that Fund's NAV. Allocation of income in respect of securities lending transactions is set out in Appendix 3, Part G.

Income Equalisation

The price of a Share is based on the value of the proportionate interest of that Share Class in the relevant Fund including its proportionate interest in the income of the Fund since the preceding distribution or, in the case of Accumulation Shares, deemed distribution. In the case of the first distribution received, a part of the amount, namely the equalisation payment, is treated by HM Revenue & Customs as a return of the price paid by the Shareholder for his Shares and is not taxable as income in the hand of the Shareholder. However, this amount must be deducted from the cost of the Share in computing any capital gains.

In the case of Accumulation Shares, no equalisation payment is made and so no adjustment need be made to the cost of the Shares for the purposes of Capital Gains Tax.

Equalisation does not apply to Group 1 Shares, which are Shares already held at the beginning of the distribution period. It applies only to Group 2 Shares, which are Shares purchased during the relevant distribution period.

Risks

The following are important warnings and potential investors should consider the following risk factors before investing in the Company.

The risk categories that specifically apply to each Fund of the Company are shown in Appendix 1.

General

There are inherent risks in investing in securities markets. Security prices are subject to market fluctuations and can move irrationally and be unpredictably affected by many and various factors including political and economic events, pandemics and market rumours.

There can be no assurance that any appreciation in the value of investments will occur. The value of investments and the income derived from them may go down as well as up and investors may receive back less than the original amount invested.

There is no guarantee that the investment objectives of any Fund will be achieved.

The ACD may, under certain circumstances (as detailed in “Dealing in Shares” section, “Compulsory Transfer and Redemption” sub-section and “Compulsory Conversion” sub-section, on page 25) compulsorily redeem or convert all or a portion of a Shareholder’s Shares in a Fund. Such compulsory redemption and conversion may create adverse tax and/or economic consequences to the Shareholder depending on the timing thereof.

No person will have any obligation to reimburse any portion of a Shareholder’s losses in the event of the termination of a Fund, a compulsory redemption or a compulsory conversion. It is important to note that past performance cannot be regarded as an indication of future performance. Please remember that inflation will reduce what you can buy in the future with your investment.

The ACD will monitor the management of the Funds to ensure the risks published remain relevant and that any change to the risk exposure is communicated to the Shareholders.

New Funds

There is a risk that if any new Fund(s) launched do not receive the level of investment we expect, the proportion of charges and expenses may be higher and the value of investment consequently reduced.

Cancellation

If you make an investment, we will give you 30 days in which to exercise your cancellation rights. If you cancel your investment within the cancellation period, you will receive a refund of your Initial Charge (if applicable) but you may get back less than the amount you originally invested if the market has fallen in that time.

Efficient Portfolio Management (EPM) and Counterparty Risk

The Funds will be subject to the risk of the inability of any counterparty to perform its contractual obligations either by failing to pay or failing to deliver securities. If a counterparty defaults, the relevant Fund may suffer losses as a result.

The Funds may use EPM, however there is no guarantee that the use of EPM will result in a positive effect for any Fund and its investors and may result in losses.

There is no guarantee that any Fund will achieve the objective for which it entered into a transaction in relation to EPM.

Leverage Risk

Leveraging may occur as a result of transactions carried out for the purposes of EPM and borrowing.

The use of derivatives instruments can involve risks different from, and in certain cases greater than, the risks associated with more traditional assets.

The value of derivative contracts is dependent upon the performance of underlying assets. A small movement in the value of the underlying assets can cause a large movement in the exposure and value of derivatives. Leverage risk can occur due to investment leverage (gearing) resulting from using derivatives for investment

purposes, where the gross market risk of the Fund is greater than the value of its net assets. When this happens the value of the Fund can go up or down by more than expected relative to the performance of the markets and/or assets the Fund is invested in. There is also leverage risk associated with using instruments that contain derivatives, although where these derivative instruments are used for efficient portfolio management purposes, the total market risk should not be greater than the NAV. Thus typically the value of the Fund should not go up nor down more than expected had these derivative instruments not been used. Unlike exchange traded derivatives, over-the-counter derivatives have credit and legal risk associated with the counterparty or the institution that facilitates the trade.

Furthermore, where the Fund undertakes borrowing the Fund will incur interest charges on the amount borrowed and in circumstances where the amount borrowed is in a different currency to the base currency of the Fund, the Fund will be exposed to an additional currency risk. In addition, if the borrowing is used to purchase assets for the Fund or to retain assets in the Fund following redemptions from Shareholders, the Fund will be exposed to an additional market risk on the borrowed amount. Each Fund is limited to borrowing not more than 10% of its net asset value on any Business Day and such borrowing shall be on a temporary basis only and shall not exceed a period of three months.

Collateral Risk

A Fund may receive collateral from and may deliver collateral to a counterparty or broker (a “**Counterparty**”) by way of title transfer or by way of security interest and, in certain circumstances, where the Fund delivers collateral to a Counterparty, may grant a right of reuse of such collateral to such Counterparty. The treatment of such collateral will vary according to the type of transaction and its contractual terms, the jurisdiction in which the Counterparty is located and the assets are traded, the legal status of the collateral and applicable law.

Where a Fund receives collateral the Counterparty will forfeit its collateral if it defaults on the transaction. However, if the collateral is in the form of securities, there is a risk that when those securities are sold they will realise insufficient cash to settle the Counterparty’s debt to the Fund or to purchase replacements for the securities that were lent to the Counterparty. This may result in losses for investors. Where a Fund provides collateral, it is exposed to the risk that the Counterparty will be unable or unwilling to honour its obligations to return the collateral provided.

Where collateral is delivered by way of title transfer, the relevant Fund will be exposed to the creditworthiness of the Counterparty and, in the event of insolvency, that Fund will rank as an unsecured creditor in relation to any amounts transferred as collateral in excess of the Fund’s exposure to the Counterparty.

Where assets are delivered pursuant to a security interest (to the extent not re-used), such assets should be protected from the insolvency of the Counterparty but subject to the Counterparty complying with its obligations pursuant to the terms of the agreement with the Company on behalf of the relevant Fund and applicable law.

Where the Counterparty exercises a right of use in respect of financial instruments provided to it by a Fund as collateral, the Fund’s rights in respect of such financial instruments will be replaced by an unsecured contractual claim for delivery of equivalent financial instruments subject to the terms of the relevant arrangement. The relevant financial instruments will not be held by the Counterparty in accordance with client asset rules or similar rights and so will not be segregated from the Counterparty’s own assets or held on trust for the Fund. In the event of the Counterparty’s insolvency or default, the Fund’s claim for delivery of equivalent financial instruments will not be secured and will be subject to the terms of the relevant arrangement and applicable law and, accordingly, the Fund may not receive such equivalent financial instruments or recover the full value of the financial instruments. Further, in the event that a resolution authority exercises its powers under any relevant resolution regime in relation to the Counterparty any rights the Fund may have to take any action against the Counterparty, such as to terminate the relevant agreement, may be subject to a stay by the relevant resolution authority and/or the Fund’s claim for delivery of equivalent financial instruments may be reduced (in part or in full) or converted into equity and/or a transfer of assets or liabilities may result in the Fund’s claim being transferred to different entities.

Where collateral is held by a third party custodian, on the insolvency or default of the custodian the relevant financial instruments should, subject to the terms of the relevant agreement and applicable law, be unavailable to its general creditors. However, in the event of an irreconcilable shortfall following the default of a custodian the relevant Fund may share in that shortfall proportionately with the custodian’s other customers.

Collateral arrangements may be subject to a number of operational risks, including the failure of the relevant Fund to call for collateral where it is entitled to do so, the failure of the Counterparty to call for the correct amount of collateral or failure to redeliver any excess collateral and settlement failures.

In the event that a Fund attempts to realise collateral following the default by a Counterparty, there may be no or limited liquidity or other restrictions in respect of the relevant collateral and any realisation proceeds may not be sufficient to off-set the Fund's exposure to the Counterparty and the Fund may not recover any shortfall.

Securities Financing Transactions Risks

The risks posed by transactions in securities financing transactions (referred to here as "Transactions") can be extremely complex and may involve leveraging of the assets in the Funds investing in these, including: (1) credit risks (the exposure to the possibility of loss resulting from a counterparty's failure to meet its financial obligations); (2) market risk (adverse movements in the price of a financial asset or commodity); (3) legal risks (the characterisation of a Transaction or a party's legal capacity to enter into it could render the financial contract unenforceable, and the insolvency or bankruptcy of a counterparty could pre-empt otherwise enforceable contract rights); (4) operational risk (inadequate controls, deficient procedures, human error, system failure or fraud); (5) documentation risk (exposure to losses resulting from inadequate documentation); (6) liquidity risk (exposure to losses created by inability to prematurely terminate the Transaction); (7) system risk (the risk that financial difficulties in one institution or a major market disruption will cause uncontrollable financial harm to the financial system); (8) concentration risk (exposure to losses from the concentration of closely related risks such as exposure to a particular industry or exposure linked to a particular entity); and (9) settlement risk (the risk faced when one party to a Transaction has performed its obligations under a contract but has not yet received value from its Counterparty).

For Transactions that are cleared through a clearing house, there is the additional risk that the clearing house may become insolvent or lack the financial resources to assure performance in the event of a clearing house member's default.

As explained under 'Collateral Risk' above, a Fund may deliver collateral to a Counterparty and may grant a right of reuse of such collateral to such Counterparty. See 'Collateral Risk' above for details of risks relating to the use of collateral by a Fund in relation to SFTs.

Securities Lending Risk

A Fund may engage in securities lending. In order to mitigate the credit risk exposure to the counterparties to any securities lending contract, the lending of a Fund's securities must be covered by high quality and liquid collateral received by a Fund under a title transfer arrangement with a market value at all times at least equivalent to the market value of a Fund's securities lent plus a premium. The risks of securities lending include the risk that a borrower may not provide additional collateral when required or may not return the securities when due. A default by the counterparty combined with a fall in the value of the collateral below that of the value of the securities lent may result in a reduction in the value of a Fund. To the extent that any securities lending is not fully collateralised (for example, due to timing issues arising from payment lags), a Fund will have a credit risk exposure to the counterparties to the securities lending contracts.

In the event that a borrower of securities from a Fund fails to comply with its obligation to return the applicable securities, the securities lending agent indemnifies the Fund against such a default. However, there is a risk that the securities lending agent may not be able to obtain and deliver to the Fund some or all of the applicable securities and instead the securities lending agent will credit the Fund with a sum of money representing the value of the securities that could not be delivered back to the Fund.

Investors should note that a limitation on the maximum level of securities lending arrangements by a Fund, at a time when demand for securities lending exceeds those maximum levels, may reduce potential income that a Fund could achieve.

See 'Collateral Risk' above for details of risks relating to the use of collateral by a Fund in relation to securities lending.

Currency Exchange Rates

Investments for some Funds will be made in assets denominated in currencies other than the base currency and exchange rate movements may affect the value of an investment favourably or unfavourably, separately from gains or losses otherwise made by such investments.

Currency Share Class Risk

Movements in currency exchange rates can materially impact investment returns and investors should ensure they fully understand the difference between investment in Currency Share Classes and Share Classes denominated in the Base Currency.

In particular, Shareholders in Currency Share Classes will be exposed to changes in the exchange rate between the currency in which the Currency Share Class is denominated, the Base Currency, the underlying portfolio currency exposures and their home currency.

Geographical Concentration

Where a Fund invests predominantly in one geographical area, any decline in the economy of this area may affect the prices and value of the shares or units held by that Fund.

Investing in Europe

Where a Fund invests in a European country which has the Euro as its local currency, there is a risk that that country could cease using the Euro in the event that there is a collapse of the European monetary union, in which case such countries may revert back to their former (or another) currency. This could lead to additional performance, legal and operational risks to the Fund and may ultimately negatively impact the value of the Fund. The performance and value of the Fund may potentially be adversely affected by any or all of the above factors, or there may be unintended consequences in addition to the above arising from the potential European crisis that adversely affect the performance and value of the Fund.

Chinese Markets Risk*

*This applies to **FTSE All-World Index Fund** and **MSCI Emerging Markets Equity Index Fund** investments which may invest in Chinese equities.

Investing in emerging markets such as the People's Republic of China (PRC) subjects the Fund to a higher level of market risk than investments in a developed country. This is due to, among other things, greater market volatility, lower trading volume, political and economic instability, settlement risk, greater risk of market shut down and more governmental limitations on foreign investment than those typically found in developed markets.

Investment in Chinese equities include, but are not limited to, China A-shares listed on stock exchanges in the People's Republic of China ("PRC"). Investment in China A-shares will be made through the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect (the "Stock Connects"), subject to applicable quota limitations. Furthermore, exposure to China A-shares may be gained indirectly through China A-shares Access Products ("CAAP") such as, but not limited to, participation notes linked to China A-shares, or through collective investment schemes (funds), including funds managed by the HSBC Group.

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (the "Stock Connects")

The aim of Stock Connects is to achieve mutual stock market access between the PRC and Hong Kong:

Shanghai-Hong Kong Stock Connect

The Shanghai-Hong Kong Stock Connect is a securities trading and clearing links program developed by Hong Kong Exchanges and Clearing Limited ("HKEX"), Shanghai Stock Exchange ("SSE") and China Securities Depository and Clearing Corporation Limited ("ChinaClear").

Shenzhen-Hong Kong Stock Connect

The Shenzhen-Hong Kong Stock Connect is a securities trading and clearing links program developed by HKEX, Shenzhen Stock Exchange ("SZSE") and ChinaClear.

Further information about the Stock Connects is available online at the website:

https://www.hkex.com.hk/mutual-market/stock-connect?sc_lang=en

Investment through the Stock Connects are subject to the following additional risks:

- (a) Regulatory risk: the relevant regulations relating to the Stock Connects are untested and subject to change which may have potential retrospective effect. There is no certainty as to how they will be applied. New regulations may be issued from time to time by the regulators / stock exchanges in the PRC and Hong

Kong in connection with operations, legal enforcement and cross-border trades under the Stock Connects. The sub-funds may be adversely affected as a result of such changes.

- (b) Operational risk: the programmes require use of new information technology systems which may be subject to operational risk due to its cross-border nature. If the relevant systems fail to function properly, trading in both Hong Kong and Shanghai and any other relevant markets through the programmes could be disrupted;
- (c) Legal / Beneficial Ownership: The Fund's China A-shares are held by the sub-custodian in accounts in the Hong Kong Central Clearing and Settlement System maintained by the Hong Kong Securities Clearing Company Limited ("HKSCC") as central securities depository in Hong Kong. HKSCC in turn holds shares, as the nominee holder, through an omnibus securities account in its name registered with ChinaClear for each of the Stock Connects. The precise nature and rights of the Fund as the beneficial owner of the shares held through HKSCC as nominee is not well defined under PRC law. There is lack of a clear definition of, and distinction between, "legal ownership" and "beneficial ownership" under PRC law and there have been few cases involving a nominee account structure in the PRC courts. Therefore the exact nature and methods of enforcement of the rights and interests of the Fund under PRC law is uncertain. Because of this uncertainty, in the unlikely event that HKSCC becomes subject to winding up proceedings in Hong Kong it is not clear if the shares will be regarded as held for the beneficial ownership of the Fund or as part of the general assets of HKSCC available for general distribution to its creditors.
- (d) Clearing and settlement risk: in the event ChinaClear defaults, HKSCC's liabilities under its market contracts with clearing participants will be limited to assisting clearing participants with claims. HKSCC will act in good faith to seek recovery of the outstanding stocks and monies from ChinaClear through available legal channels or ChinaClear's liquidation. In this event, the Fund may not fully recover any losses or its Stock Connect securities and the process of recovery could also be delayed;
- (e) Restrictions on Selling Imposed by Front-end Monitoring: PRC regulations which include certain restrictions on selling and buying will apply to all market participants. Because of such requirements, the Fund may not be able to purchase and/or dispose of holdings of China A-Shares in a timely manner;
- (f) Quota limitations: daily quota limitations are applied to the Stock Connect which does not belong to the Fund and can only be utilized on a first-come-first serve basis. This may restrict the Fund ability to invest in China A-Shares through the programmes on a timely basis;
- (g) Differences in Trading Day: the Stock Connects only operate on days when both the PRC and Hong Kong markets are open for trading and when banks in each respective market are open on the corresponding settlement days. There may be occasions when it is a normal trading day for the PRC market but the Fund cannot carry out any China A-Shares trading. The Fund may be subject to risks of price fluctuations in China A-Shares during the time when Stock Connects is not trading as a result;
- (h) No Protection by Investor Compensation Fund: Investment via the Stock Connects is conducted through brokers, and is subject to the risks of default by such brokers' in their obligations. The Fund will not benefit from local China investor compensation schemes.

Index Tracking

The investment of each of the Funds may be concentrated in one or two securities, in the event that the relevant index is so concentrated.

The capital performance of the index will be tracked using either a full replication technique or a sampling-optimisation (partial replication) technique. The composition of the index may change and constituent securities or the index may from time to time be delisted.

Where a Fund fully replicates an index, there is a risk that transaction costs and different time zones mean that we are not able to exactly match the return on the index. There is also a risk that we cannot trade in sufficiently small lots to match perfectly the index weights.

Where a Fund partially replicates an index there is the risk that the stocks selected will not accurately replicate the performance of the index. This can be mitigated by minimising factor risks, such as sector allocation, allocation to small caps or duration.

Whether the Fund fully or partially replicates an index there is a risk that when a dilution adjustment is made, the volatility of the NAV quoted will exceed that of the index, as the Fund swings from bid to offer.

If the price in a Fund needs to be swung, then the tracking error (the movement away from the index being tracked) will be affected.

There is no guarantee that the investment objective of any Fund will be achieved. In particular, no financial instrument enables the returns of any index to be reproduced exactly. Changes in the investments of any Fund and rebalancing of the relevant index may give rise to various transaction costs. (including in relation to the settlement of foreign currency transactions), operating expenses, custody costs, taxes, corporate actions, cash flows into and out of a Fund from dividend/reinvestments or inefficiencies which may adversely impact a Fund's tracking of the performance of an index. Furthermore, the total return on investment in the Shares of a Fund will be reduced by certain costs and expenses which are not taken into account in the calculation of the applicable index. Moreover, in the event of the temporary suspension or interruption of trading in the Investments comprising the index, or of market disruptions, rebalancing a Fund's investment portfolio may not be possible and may result in deviations from the returns of the index.

Where it is not possible under the FCA Rules to invest in a stock such that the amount held is consistent with that stock's weighting within the index, then additional exposure to the stock will be sought by investing in transferable securities (which may or may not be constituents of the index) which themselves aim to closely replicate the performance of the stock or which it is expected will perform in a similar way to that stock, subject to any restrictions that may be provided by the FCA Rules. There is a risk that the stocks selected will not accurately replicate the capital performance of the index.

As each Fund aims to track the performance of an index, the fund manager does not have the discretion to adapt to changes to the market that the index represents. In particular, falls in the value of the index are expected to result in corresponding falls in the value of the Fund.

Effect of Initial Charge

Where the ACD's Initial Charge (if any) is added to the cost of the investment at the outset, an investor who redeems his Shares in the short term may not (even in the absence of a fall in the value of the relevant investments) realise the original amount invested. Shares should, therefore, be viewed as a medium to long term investment.

Suspension of Dealings

In certain circumstances the right to redeem Shares may be suspended (see "Suspension of Dealings in the Company" on page 27).

Liabilities

The assets of a Fund belong exclusively to that Fund and cannot be used to discharge the liabilities of any other Fund. Consequently, the liability incurred on behalf of a Fund will be discharged solely out of the assets of that Fund. The only exception to this is where a liability arises which is not attributable to any specific Fund, in which case the ACD will allocate such liabilities, expenses, costs and charges between the Funds in a manner which would be fair to the Shareholders of the Company. The ACD would normally expect any such re-allocation to be effected on a pro rata basis having regard to the Net Asset Value of the relevant Funds.

Shareholders are not, however, liable for the debts of the Company. A Shareholder is not therefore liable to make any further payment to the Company after he has paid the purchase price of the Shares.

Liquidity

The Funds are subject to liquidity risk. Liquidity is a measure of how easily and/or quickly a security can be purchased or redeemed in the market. The liquidity of a Fund is determined by the liquidity of the securities held by the Fund. In times of market stress, which may be caused by market announcements, events or closures, the liquidity of the securities held by a Fund may decrease. This may affect the ability of the Fund to purchase or redeem such securities and adversely affect the price paid or received for such securities, which in turn may adversely affect the value and performance of the Fund. The ACD has liquidity risk management policies and processes to manage liquidity risk. In summary, the ACD monitors the subscription and redemption requests received in respect of the Funds and monitors the liquidity of the Funds on an ongoing basis. In exceptional circumstances, the ACD may (with the prior agreement of the Depositary) and will (if the Depositary so requires) temporarily suspend the issue, cancellation, sale, redemption, conversion and switching of Shares relating to any of the Funds where it is in the best interests of all the Shareholders. Such suspension shall only be allowed to continue for as long as it is justified having regard to the interests of the Shareholders.

Emerging Markets

Where Funds invest in some overseas markets these investments may carry risks associated with failed or delayed settlement of market transactions and with the registration and custody of securities.

Investment in emerging markets may involve a higher risk than those inherent in established markets.

Investors should consider whether or not investment in such Funds is either suitable for or should constitute a substantial part of a prudent investor's portfolio.

Companies in emerging markets may not be subject:

- (a) to accounting, auditing and financial reporting standards, practices and disclosure requirements comparable to those applicable to companies in major markets;
- (b) to the same level of government supervision and regulation of stock exchanges as countries with more advanced securities markets.

Accordingly, certain emerging markets may not afford the same level of investor protection as would apply in more developed jurisdictions.

Restrictions on foreign investment in emerging markets may preclude investment in certain securities by certain Funds and, as a result, limit investment opportunities for the Funds.

Substantial government involvement in, and influence on, the economy may affect the value of securities in certain emerging markets.

The reliability of trading and settlement systems in some emerging markets may not be equal to that available in more developed markets, which may result in delays in realising investments.

Lack of liquidity and efficiency in certain of the stock markets or foreign exchange markets in certain emerging markets may mean that from time to time the ACD may experience more difficulty in purchasing or selling holdings of securities than it would in a more developed market.

Fixed Income Securities

Fixed interest securities include corporate bonds and gilts. If the yield on a corporate bond, gilt or other fixed interest security is fixed and interest rates go up, the relative yield will be reduced as may its capital value. In addition investing in corporate bonds carries the risk of the issuer becoming insolvent. In this case the bondholder would rank as an unsecured creditor in the liquidation and may not recover all or any of the debt due.

Error in Calculation of Relevant Index

For each of the Funds, the underlying asset allocation is determined based upon the composition of the relevant index. The relevant index is rebalanced at regular intervals as set out for each Fund in Appendix 1.

Since the assets of the Fund are determined with regard to the relevant index composition, there is a risk that in the event of a miscalculation in the value of the relevant index by the index provider the Fund could hold assets which do not reflect the true 'theoretic' index composition at any given time.

The index provider is under no obligation to notify the ACD if it becomes aware of a miscalculation in the value of the relevant index and the index provider may not carry out a corrective calculation when such an error is identified. For funds that aim to match the return of the index by holding the physical assets this could result in an increased tracking error in the Fund compared to the relevant index. The investment manager has controls in place to identify, at an early stage, any potential error in the relevant index and may adjust the Fund composition accordingly when it becomes aware of any such error. The investment manager may also notify the index provider to ask for correction of the index miscalculation.

Banned Weapons Policy

The ACD has determined that no Fund of the Company may invest directly in securities issued by companies that the ACD considers, after reasonable enquiries, to be involved in the use, development, manufacturing, stockpiling, transfer or trade of controversial weapons (i.e. those banned by international convention), including but not limited to cluster munitions and/or anti-personnel mines and/or biological weapons and/or blinding laser weapons, and/or chemical weapons and/or non-detectable fragments. This policy restricts the Fund from investing directly in relevant securities, meaning the Fund will not benefit from any potential capital growth or income from such companies. In the case of Funds that track an index, if the index includes a security

prohibited under this policy, the Fund will not directly hold that security, which will lead to a deviation in the performance of the Fund against the index. This policy does not apply to third party funds or derivative instruments any Fund may invest in. This policy applies to all HSBC Group funds.

Environment, Social and Governance (ESG) Scoring Risk

The Funds may rely on third parties to provide ESG scoring data where relevant. Therefore, the Funds are subject to certain operational and data quality risks associated with reliance on third party service providers and data sources. ESG data provided by third parties may not always be reliable, consistent or available and this may impact on a sub-fund's ability to accurately assess sustainability risks and effectively promote environmental and social characteristics, where relevant.

Sustainable Funds and Environment, Social and Governance (ESG) data

Funds that promote environmental and/or social characteristics or have sustainable investment aims are subject to particular disclosure requirements or may make particular disclosures, with the purpose of providing transparency to show how the Funds' environmental and / or social characteristics are met, or how the sustainable investment objective and policy is achieved.

HSBC Asset Management's investment process will use relevant and available information, to assess the investments to be made and to manage the Funds in line with the stated investment objective and policy.

However, the disclosures may not always include complete data for a Fund's portfolio due to the unavailability of such data. A lack of data could arise because a company does not provide this data at an entity and/or product level, or because the company's circumstances change and it ceases to provide particular information in future.

In such a situation, the discretionary investment manager will aim to disclose as much information about the Fund's portfolio as possible in order to provide as much transparency as it is able to about the alignment between the existing investments and the environmental and/or social characteristics promoted by the Fund or the Fund's sustainable investment objective.

Integration of Sustainability Risks into Investment Decisions

The ACD is disclosing the manner in which sustainability risks are integrated into the investment process and the potential impacts of sustainability risks on the returns of the Funds. A sustainability risk is defined as an environmental, social or governance (“**ESG**”) event or condition that, if it occurs, could cause an actual or potential material negative impact on the value of an investment.

We recognise that sustainability risks are amongst those risks which can impact the value of securities. The potential impact of sustainability risks and how likely they are to materialise can vary according to the market or investment universe concerned. Such risks may already be reflected in the market view of a particular security to a greater or lesser extent. For this reason, the consideration of a sustainability risk within our investment processes may differ dependent upon the investment approach of the Fund, strategy or asset class concerned.

The ACD has appointed HSBC Global Asset Management (UK) Limited as the discretionary investment manager of the Funds. HSBC Global Asset Management (UK) Limited has adopted HSBC Asset Management’s responsible investment policy (the “**Policy**”) in the integration of sustainability risks into investment processes.

The Policy outlines HSBC Asset Management’s approach to certain key responsible investment issues. Different investment approaches, for example active management – whether equity or fixed income - and passive (index tracking) management, have very different associated sustainability risks and opportunities. Implementation of the Policy will therefore depend on the investment strategy employed.

In respect of certain Funds, which have been identified as promoting ESG characteristics, further details can be found for the relevant Fund in Appendix 1 as well as on HSBC Asset Management’s website. Additional sub-funds which promote ESG characteristics or sub-funds which have a sustainable investment objective may be established from time to time and will be included in this Prospectus.

For more information, please refer to the Policy which can be found on HSBC Asset Management’s website.

Potential impact of sustainability risks on returns

Companies that adequately manage sustainability risks may be better placed to anticipate future sustainability risks and opportunities. This may make them more strategically resilient and therefore able to anticipate, and adapt to, the risks and opportunities in relation to sustainability on the horizon. Likewise, if managed inadequately, sustainability risks may adversely impact the value of the underlying company or the competitiveness of the country issuing government bonds. Sustainability risks can materialise in various forms for the issuers or government securities or other investments / assets, as applicable, in which the Funds invest in, including (but not limited to) (i) reduced revenue due to shifts in customer preferences, negative impacts on the workforce, social unrest and decreased production capacity; (ii) increased operating/capital costs; (iii) write-off and early retirement of existing assets; (iv) loss of reputation due to fines and judgements and loss of license to operate; (v) the risk score (and market for) government bonds. These risks, together or individually can potentially impact the returns of the Funds.

The potential impacts of sustainability risks on the returns of each Fund will also depend on each Fund’s investments and the materiality of sustainability risks. The likelihood of sustainability risks arising in respect of a Fund may be mitigated by the relevant investment manager’s approach to integrating sustainability risks in its investment decision-making process as outlined in the Policy. However, there is no guarantee that these measures will completely mitigate or prevent sustainability risks materialising in respect of a Fund. The likely impact on the return of a Fund from an actual or potential material decline in the value of an investment due to a sustainability risk will therefore vary and depend on several factors, including, but not limited to the type, extent, complexity, duration of the event or condition, prevailing market conditions and the existence of any mitigating factors.

Passively managed funds

For Funds that are passively managed and hold securities included in the relevant Index which they track, the Index is required to represent an adequate benchmark for the market to which it refers. Each Index is created by a third-party index provider (the “**Index Provider**”). As the strategy for the passively managed Funds is to

track the relevant Index, changes to the portfolios of the Funds are driven by changes to the Index in accordance with its published methodology rather than by an active selection of securities by the relevant investment manager. Accordingly, the relevant investment manager does not exercise discretion to actively select/deselect securities. Therefore, for passively managed Funds that do not follow a sustainable Index, the investment manager cannot integrate sustainability risks into the investment process. Even where the Fund uses an optimisation strategy to track the relevant Index, ESG considerations may not be incorporated into the optimisation approach as the Fund's objective is to replicate the performance of the relevant Index and decisions driven by ESG factors could be less effective in achieving this goal. For passively managed Funds, ESG activity is principally focused on engagement, voting and applicable policies, where relevant, as security selection is determined by the Index, which may have ESG considerations such as positive and negative screening for our sustainable passive strategies.

To the extent that a passively managed Fund promotes ESG characteristics or has sustainable investment as an objective, the relevant Index Provider's methodology will include an assessment of individual companies/issuers against ESG criteria, including consideration of sustainability risks. Therefore, the investment manager cannot directly integrate sustainability risks into the investment process. However, when a passively managed Fund promotes ESG characteristics or has sustainable investment as an objective, the relevant Index Provider's methodology for determining the constituents of the Index will be evaluated. This is to ensure that the Index is consistent with the promotion of ESG characteristics or the sustainable objective / policy of the Fund.

For further information on how ESG criteria are incorporated into the Index methodology, please refer to the description of the Index Provider's methodology on its website which can be found in Appendix 1.

Funds investing in financial derivative instruments

Some Funds may invest in financial derivative instruments and therefore, sustainability risks are harder to factor in as the Funds are not directly investing in the underlying asset. Currently, no ESG integration methodology can be applied for the financial derivative instruments which may be utilised.

Management and Administration

Authorised Corporate Director

The Authorised Corporate Director of the Company is HSBC Asset Management (Fund Services UK) Limited. The ACD is a private company limited by shares and incorporated in England and Wales on 1 September 2021 under the Companies Act 1985.

The registered office of the ACD is 8 Canada Square, London E14 5HQ. Its principal place of business is 8 Canada Square, London E14 5HQ.

The ACD has an issued share capital of £21,500,100 which is fully paid.

The ACD is responsible for managing and administering the Company's affairs in compliance with all applicable law, regulation and rules, including the FCA Rules.

The ACD may provide investment services to other funds and clients and to companies in which the Company may invest, and also acts as the manager of certain authorised unit trusts and authorised corporate director of certain open-ended investment companies as set out in Appendix 5.

The ACD shall provide its services to the Company under the terms of an agreement dated 29 July 2024 ("the ACD Agreement"). This agreement may be terminated upon 12 months' written notice by the Company; although in certain circumstances the agreement may be terminated forthwith by notice in writing by the ACD to the Company. Termination of the ACD's appointment cannot take effect until the FCA has approved the change of authorised corporate director.

The ACD shall be entitled to its pro rata fees and expenses to the date of termination and any additional expenses necessarily incurred in settling or realising any outstanding obligations. There is no compensation for loss of office provided for in the ACD Agreement. The agreement provides indemnities to the ACD other than where there has been negligence, fraud, default, breach of duty or breach of trust in the performance of its duties and obligations.

The ACD is authorised and regulated by the FCA and is treated as having a permission pursuant to Part IV of the Act. The address of the FCA is: 12 Endeavour Square, London E20 1JN.

The names of the directors of the ACD and any significant activities of each director not connected with the business of the ACD are as follows:

Name	Significant Activities not connected to the ACD
Simeon Brown	None
Peter G.P. Dew	None
Christopher Godfrey	Also a Director of HSBC Management (Guernsey) Limited
Matthew Higginbotham	None
Debra McMaster	None
Priya Mittal	None
Lucy Williams	Also Board Member of the Royal Shakespeare Company

The Depositary

State Street Trustees Limited (registered no. 2982384) is the depositary of the Company. It is a private company limited by shares incorporated in England and Wales on 24 October 1994. The registered office of the Depositary is 20 Churchill Place, London, E14 5HJ. The Depositary's principal business activity is acting as trustee and depositary of collective investment schemes. It is authorised and regulated by the Financial Conduct Authority.

Duties and functions of the Depositary

The Depositary is responsible for the safekeeping of all the scheme property of the Company. In carrying out its duties the Depositary shall act honestly, fairly, professionally, independently and solely in the interests of the Fund and its Shareholders.

In addition to its safekeeping role, the Depositary carries out a number of additional duties and functions, including:

- ensuring that the sale, issue, repurchase, redemptions and cancellation of Shares are conducted in accordance with the relevant FCA Rules, applicable law, the Instrument of Incorporation and the Prospectus;
- ensuring that Shares are valued in accordance with the relevant FCA Rules, applicable law, the Instrument of Incorporation and the Prospectus;
- carrying out the instructions of the ACD unless these conflict with relevant FCA Rules, applicable law, the Instrument of Incorporation or the Prospectus;
- ensuring that for transactions involving the assets of a Fund, any consideration is remitted within the usual time limits;
- ensuring that the income of a Fund is applied in accordance with the relevant FCA rules, applicable law, the Instrument of Incorporation and the Prospectus;
- monitoring the cash and cash flows of each Fund;
- safe-keeping of financial instruments to be held in custody and ownership verification and record keeping in relation to other assets.

Delegation

The Depositary has full power to delegate the whole or any part of its safe-keeping functions but its liability will not be affected by the fact that it has entrusted to a third party some or all of the assets in its safekeeping. The Depositary's liability shall not be affected by any delegation of its safe-keeping functions under the Depositary Agreement.

Information about the safe-keeping functions which have been delegated and the identification of the relevant delegates and sub-delegates are contained in Appendix 5 to the Prospectus.

Depositary Agreement

The Depositary provides its services under an agreement dated 18 March 2016 between the Company and the Depositary ("the Depositary Agreement").

The Depositary is entitled to receive remuneration out of the property of the Funds for its services as set out under 'Depositary's Remuneration and Expenses' on page 55 of this Prospectus. The Depositary is under no obligation to account to the ACD, the Company or the Shareholders for any profits or benefits it makes or receives that are made or derived from or in connection with the dealings in Shares of the Company, any transaction in scheme property or the supply of services to the Company.

The Depositary Agreement may be terminated on three months' written notice by either party, or sooner in the event of a material breach of the Depositary Agreement. The Depositary may not retire voluntarily or otherwise be replaced except upon the appointment of a new depositary.

If there is a loss of a financial instruments held in custody, determined in accordance with the UCITS Directive, the Depositary shall return financial instruments of identical type or the corresponding amount to the relevant Fund without undue delay. However, the Depositary will not be liable if it can prove that the loss of a financial instrument held in custody has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary pursuant to the UCITS Directive.

In case of a loss of financial instruments in custody, the Shareholders may invoke the liability of the Depositary directly or indirectly through the Fund provided that this does not lead to a duplication of redress or to unequal treatment of the Shareholders. The Depositary is indemnified by the Fund against all liabilities suffered or incurred by the Depositary by reason of the proper performance of the Depositary's duties under the terms of the Depositary Agreement save where any such liabilities arise as a result of the Depositary's negligence, fraud, bad faith, wilful default or recklessness of the Depositary or the loss of financial instruments held in custody. The Depositary will be liable to the Fund for all other losses suffered by the Fund as a result of the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the UCITS Directive.

The Depositary shall not be liable for consequential or indirect or special damages or losses, arising out of or in connection with the performance or non-performance by the Depositary of its duties and obligations.

Conflicts of Interest

The Depositary is part of an international group of companies and businesses that, in the ordinary course of their business, act simultaneously for a large number of clients, as well as for their own account, which may result in actual or potential conflicts. Conflicts of interest arise where the Depositary or its affiliates engage in activities under the depositary agreement or under separate contractual or other arrangements. Such activities may include:

- (i) providing nominee, administration, registrar and transfer agency, research, agent securities lending, investment management, financial advice and/or other advisory services to the Company or a Fund;
- (ii) engaging in banking, sales and trading transactions including foreign exchange, derivative, principal lending, broking, market making or other financial transactions with the Company or a Fund either as principal and in the interests of itself, or as an agent for other clients.

In connection with the above activities the Depositary and/or its affiliates:

- (i) will seek to profit from such activities and are entitled to receive and retain any profits or compensation in any form and except as required by law, the Depositary is not bound to disclose to, the Fund or its Shareholders any such profits or compensation in any form earned by affiliates of the Depositary or the Depositary when acting in any other capacity;
- (ii) may buy, sell, issue, deal with or hold, securities or other financial products or instruments either as principal acting in its own interests, or as an agent acting in the interests of its affiliates or for its other clients;
- (iii) may trade in the same or opposite direction to the transactions undertaken including, based upon information in its possession that is not available to the Fund or the ACD;
- (iv) may provide the same or similar services to other clients including competitors of the Fund and the fee arrangements it has in place will vary;
- (v) may be granted creditors' and other rights by the Fund, e.g. indemnification, which it may exercise in its own interest. In exercising such rights the Depositary or its affiliates may have the advantage of an increased knowledge about the affairs of the Fund relative to third party creditors thus improving its ability to enforce and may exercise such rights in a way that may conflict with the Fund's strategy.

The Fund or the ACD on behalf of the Fund may use an affiliate of the Depositary to execute foreign exchange, spot or swap transactions for the account of the Fund. In such instances the affiliate shall be acting in a principal capacity and not as a broker, agent or fiduciary of the Fund. The affiliate will seek to profit from these transactions and is entitled to retain and not disclose any profit to the Fund or its Shareholders. The affiliate shall enter into such transactions on the terms and conditions agreed with the Fund or the ACD on behalf of the Fund. The Depositary will not, except as required by law, disclose any profit made by such affiliates.

Where cash belonging to the Fund is deposited with an affiliate being a bank, cash is not segregated from its own assets and a conflict arises in relation to the interest (if any) which the affiliate may pay or charge to such account and the fees or other benefits which it may derive from holding such cash as banker and not as trustee. The ACD may also be a client or counterparty of the Depositary or its affiliates.

The ACD may also be a client or counterparty of the Depositary or its affiliates and a conflict may arise where the Depositary refuses to act if the ACD directs or otherwise instructs the Depositary to take certain actions that might be in direct conflict with the interests of the investors in a Fund.

The types and levels of risk that the Depositary is willing to accept may conflict with the preferred investment policy and strategy.

Potential conflicts that may arise in the Depositary's use of sub-custodians include the following broad categories:

- (1) our global custodian and sub-custodians seek to make a profit as part of or in addition to their custody services. Examples include profit through the fees and other charges for the services, profit from deposit taking activities, revenue from sweeps and repo arrangements, foreign exchange transactions, contractual settlement, error correction (where consistent with applicable law) and commissions for sale of fractional shares;

- (2) the Depositary will typically only provide depositary services where global custody is delegated to an affiliate of the Depositary. Our global custodian in turn appoints a network of affiliated and non-affiliated sub-custodians. Multiple factors influence the determination of our global custodian to engage a particular sub-custodian or allocate assets to them, including their expertise and capabilities, financial condition, service platforms and commitment to the custody business as well as the negotiated fee structure (which may include terms that result in fee reductions or rebates to the global custodian), significant business relationships and competitive considerations;
- (3) sub-custodians, both affiliated and non-affiliated, act for other clients and in their own proprietary interest, which might conflict with clients' interests and the fee arrangements they have in place will vary;
- (4) sub-custodians, both affiliated and non-affiliated, have only indirect relationships with clients and look to the Depositary as its counterparty, which might create incentive for the Depositary to act in its self-interest, or other clients' interests to the detriment of clients; and
- (5) sub-custodians may have creditors' rights against client assets and other rights that they have an interest in enforcing.

In carrying out its duties the Depositary shall act honestly, fairly, professionally, independently and solely in the interests of the Fund or a Company and its Shareholders.

The Depositary has functionally and hierarchically separated the performance of its depositary tasks from its other potentially conflicting tasks. The system of internal controls, the different reporting lines, the allocation of tasks and the management reporting allow potential conflicts of interest to be properly identified, managed and monitored. Additionally, in the context of the Depositary's use of sub-custodians, the Depositary imposes contractual restrictions to address some of the potential conflicts and maintains due diligence and oversight of sub-custodians. The Depositary makes available frequent reporting on clients' activity and holdings, with the underlying sub-custodians subject to internal and external control audits. Finally, the Depositary separates the Fund's assets from its proprietary assets and follows a Standard of Conduct that requires employees to act ethically, fairly and transparently with clients.

Global Conflicts of Interest policy

State Street has implemented a global policy laying down the standards required for identifying, assessing, recording and managing all conflicts of interest which may arise in the course of business. Each State Street business unit, including the Depositary, is responsible for establishing and maintaining a Conflicts of Interest Program for the purpose of identifying and managing organizational conflicts of interest that may arise within the business unit in connection with providing services to its Clients or in delivering its functional responsibilities.

Up-to-date information on the Depositary, its duties, any conflicts that may arise, the safe-keeping functions delegated by the depositary, the list of delegates and sub-delegates and any conflicts of interest that may arise from such a delegation will be made available to Shareholders on request.

The Auditor

KPMG LLP is the auditor for the Company. It is a private company incorporated in England and Wales under the Companies Act 1985 on 2 October 1995 and is a member of KPMG International.

The registered office of the Auditor is 8 Salisbury Square, London EC4Y 3BB and its head office (and the address which should be used for correspondence) is 15 Canada Square, London E14 5GL.

The auditor is responsible for auditing the Financial Statements of the Company for April and October each year, which comprise the Statements of Total Return, the Statements of Change in Net Assets Attributable to Shareholders, the Balance Sheets together with the Related Notes and the Distribution Tables. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The auditor's reports are made solely to the Company's Shareholders, as a body, in accordance with FCA Rules, issued by the FCA under the OEIC Regulations. The auditor undertakes this work so that they might state to the Company's Shareholders those matters that they are required to state to them in an Auditor's Report and for no other purpose. To the fullest extent permitted by law, the auditors will not accept or assume responsibility to anyone other than the Company and the Company's Shareholders as a body for their audit work, for their reports, or for the opinions they have formed.

The auditor's fee is taken out of the property of the Funds, as set out in Fees and Expenses section on page 49 of this prospectus.

The Legal Adviser

The Company appoints legal advisers from time to time to advise on legal matters. No independent legal advisers have been retained to represent Shareholders of the Company.

Investment Management

The ACD has appointed HSBC Global Asset Management (UK) Limited as the discretionary investment manager of the Funds under an agreement dated 29 July 2024 with full power to manage each of the Funds within the investment objective and any restrictions set out in the Instrument of Incorporation and Prospectus.

Such discretionary powers include the aggregation of the transactions with those of other clients; written consent of the Depositary is required before bona-fide orders of each Fund are matched with other clients.

From time to time HSBC Global Asset Management (UK) Limited may receive investment advice from an associate of the ACD, which it may or may not choose to act upon in its capacity as discretionary investment manager of the Funds.

If the ACD wishes to change the investment objective and/or policy of any Fund, Shareholders will be given due notice of such proposal prior to its implementation in accordance with the FCA Rules. Prior to making any change, the ACD and Depositary shall determine whether the change shall be 'fundamental' or 'significant', as defined in the FCA Rules. A significant change will require the ACD to contact the Shareholders on the Register a minimum of 60 days prior to making the change, whereas a fundamental change will require the prior approval of Shareholders at a General Meeting.

For changes not deemed by the ACD or Depositary to be 'fundamental' or 'significant' the Shareholders will be notified of the changes either by a direct mailing or the ACD will publish details of the changes in the important notes section of the Company Report & Accounts, at the ACDs discretion.

The ACD may appoint managers to manage part or parts of the Fund.

Best Execution Policy

To view our Best Execution Policy, please go to www.assetmanagement.hsbc.com and choose "United Kingdom" then "Individual Investors" or "Financial intermediary" then "About Us" and then "Governance".

Administrator and Registrar

The Company has appointed the ACD to provide administration services and to act as registrar. The ACD has delegated these functions to Northern Trust Global Services SE. The ACD will have supervision and oversight of Northern Trust Global SE for these functions.

Register of Shareholders

The register of Shareholders is maintained at 50 Bank Street, Canary Wharf, London E14 5NT and may be inspected at that address during normal business hours by any Shareholder or any Shareholder's duly authorised agent.

Other delegated functions

The ACD has delegated fund administration services, including valuation of the Funds to HSBC Bank plc.

The ACD has appointed HSBC Global Asset Management (UK) Limited as a distributor for the Funds pursuant to a distribution agreement (the Distribution Agreement) entered into between the ACD and HSBC Global Asset Management (UK) Limited dated 29 July 2024. Under the terms of this appointment, HSBC Global Asset Management (UK) Limited may in turn appoint sub-distributors of the Funds.

HSBC Group Conflicts of Interest Procedure

The HSBC Group ("HSBC") is a worldwide financial organisation, offering a wide range of services to clients. As such, it, or a company with whom it has an association, may from time to time have interests which conflict with its clients' interests or with the duties that it owes to its clients. These include conflicts arising between the interests of HSBC, its associates and employees on the one hand and the interests of its clients on the other and also conflicts between clients themselves (including the Company and its Funds). Such conflicts may

result in a restriction in trading certain securities due to relationships in other parts of HSBC or due to sensitive information to which the ACD becomes party.

HSBC has established procedures which are designed to identify and manage such conflicts. These include organisational and administrative arrangements to safeguard the interests of clients. A key element of this policy is that persons engaged in different business activities involving a conflict of interest must carry on those activities independently of one another.

Where necessary, HSBC maintains arrangements which restrict the flow of information to certain employees in order to protect its clients' interests and to prevent improper access to client information.

HSBC may also deal as Principal for its own investment account and may be matching transactions with another client. Procedures are in place in order to protect the client's interest in this instance.

In some cases, HSBC's procedures and controls may not be sufficient to ensure that a potential conflict of interest does not damage a client's interests.

In these circumstances, HSBC may consider it appropriate to disclose the potential conflict to the client and obtain the client's formal consent to proceed. However, HSBC may decline to act in any circumstance where there is residual risk of damage to the interests of any client.

In managing conflicts, account is taken of the potential for the ACD or its associates to be in a position where:

- HSBC benefits financially, at the expense of the Funds or the Company
- HSBC has an interest in the outcome of a service, activity or transaction (provided to the Funds or the Company or another client) which is distinct from the Funds or the Company's interest in that outcome
- HSBC has an incentive to favour the interests of another client over the interests of the Funds or the Company
- HSBC carries on the same activities for the Funds or the Company and for another client
- HSBC receives (from a person other than the Funds or the Company) an inducement in relation to management activities provided to the Funds or the Company, other than the standard commission or fee for that service.

In particular, the ACD and other companies within HSBC may, from time to time, act as investment manager or adviser to other funds or sub-funds; the interests of these funds may not always be aligned with those of the Funds or the Company. It is therefore possible that the ACD may in the course of its business have potential conflicts of interest with the Company or a particular Fund. The ACD will, however, have regard in such event to its obligations and fiduciary responsibilities under the ACD Agreement and, in particular, to its obligation to act at all times in the best interests of the Company or the Fund and its investors, so far as is practicable having regard to its obligations to other clients. The ACD will ensure that investors are treated fairly and that such transactions are effected on terms which are not less favourable to the Fund than if the potential conflict had not existed.

You may have further questions which relate to the underlying procedures within HSBC. In such cases you should contact HSBC and your query will be directed accordingly.

The ACD's Conflicts of Interest Policy

In addition to HSBC Group's procedures the ACD has its own Conflicts of Interest Committee that is ultimately responsible for its Conflicts of Interest Policy.

The scope and nature of HSBC Group's services may mean that, on occasion the ACD is restricted from trading certain securities which can be due to relationships in other parts of the HSBC Group, or sensitive information to which we become party. The restrictions on our ability to act, or refrain to act, as a result of such information may have an adverse effect on your portfolio, but is ultimately designed to manage the conflict presented by HSBC Group activity and our regulatory obligations.

The ACD operates a range of collective investment schemes. The majority of such funds are UK UCITS and EEA UCITS. The Funds registered in the UK that are non UCITS retail schemes ('NURS') adhere to the UK Alternative Investment Fund Managers regime. The Funds in this Prospectus are all UK UCITS.

The ACD makes no distinction between the two fund types in terms of how a Fund is treated with respect to conflicts. Accordingly, it has a conflict management process that applies equally to all funds under its management.

In the course of business the ACD has identified that conflicts may exist between the following parties:

- (a) **the ACD and the Fund operated by the ACD or the Shareholders in that Fund** – for example where the ACD's interests compete with the interests of the Fund or its Shareholders;
- (b) **the Fund or the Shareholders in that Fund and another fund or the shareholders in that fund** – for example where there is potential for one fund to be favoured over another (either in its investment decisions or the terms of its transactions) to the detriment of one shareholder over another;
- (c) **the Fund or the Shareholders in that Fund and another client of the ACD** – for example where there is a potential conflict between Shareholders in a Fund and other clients of ACD;
- (d) **the Fund or the Shareholders in that Fund and another UCITS or NURS operated by the ACD or the shareholders in that UCITS or NURS** – for example where there is potential for one to be favoured over the other (either in its investment decisions or the terms of its transactions);
- (e) **two clients of the ACD** – for example where the interests of one ACD client compete with the interest of another ACD client;

The ACD's Conflicts of Interest Committee is ultimately responsible for the Conflicts of Interest Policy. The Committee meets quarterly and is responsible for updating the Policy, in addition to managing conflicts presented within the business.

The ACD has established procedures which are designed to identify and manage conflicts. These include organisational and administrative arrangements to safeguard the interests of its clients. A key element of this policy is that persons engaged in different business activities involving a conflict of interest must carry on those activities independently of one another.

Additionally, where the Fund invests in another UCITS or NURS managed by the HSBC Group, the Fund will, wherever possible, invest in a share class which has an annual management charge of 0% to limit the effect of 'double-charging'.

In some cases, these procedures and controls may not be sufficient to ensure that a potential conflict of interest does not damage a client's interests. In these circumstances, the ACD may consider it appropriate to disclose the potential conflict to the client and obtain the client's formal consent to proceed. However, the ACD may decline to act in any circumstance where there is residual risk of damage to the interests of any client.

The ACD maintains a record of the circumstances in which a conflict of interest entailing material risk of damage to clients may arise (or has arisen) as a result of the activities carried out by the HSBC Group. A register of the circumstances which cannot be managed using the ACD's existing policies and procedures is maintained. This identifies any specific cases where an exceptional conflict of interest has arisen or, in the case of an ongoing service or activity, may arise and records those instances where the ACD has made a relevant disclosure to the client.

On occasion, an entity in the HSBC Group may provide a Fund with seed capital (i.e. an initial investment in a Fund to support the operations of a Fund in its early existence prior to material external investment).

As the size of a Fund increases, the relevant HSBC Group entity may withdraw all or some of its seed capital in accordance with a seed policy (the purpose of which is to manage the timing of any withdrawal in the best interests of the remaining Shareholders). Any such withdrawal of seed capital shall be effected in accordance with the provision of this Prospectus (see "Dealing in Shares" section on page 18).

While the seed capital is in a Fund, the seeding entity of HSBC may choose to hedge its seed capital position in a Fund to ensure the seed capital remains at a consistent level. In order to hedge the seed capital position efficiently, the seeding entity may have access to underlying portfolio data.

The ACD may release portfolio holdings to affiliates of the HSBC Group for the limited purposes of hedging seed capital, risk management, and for regulatory reporting purposes applicable.

Bank Holding Company Act

The investments made by each Fund may be restricted by rules and regulations applicable to the HSBC Group. These may include but not be limited to; the US Bank Holding Company Act (see further details below), and other banking acts applicable to the UK and Hong Kong. These may restrict the Fund's ability to purchase or hold certain investments, for example HSBC Holdings plc shares. Any such actions will be executed in compliance with applicable law and in a manner consistent with the best interests of the Shareholders of each Fund. Shareholders should also refer to the "Conflicts of Interest" section above. There can be no assurance that the bank regulatory requirements applicable to HSBC Holdings plc and/or the Company, will not change, or that any such change will not have a material adverse effect on the investments and/or investment performance of the Funds. Subject to applicable law, HSBC Holdings plc and the ACD may in the future, undertake such actions as they deem reasonably necessary (consistent with ensuring any actions remain in the best interests of the Shareholders of the Funds) in order to reduce or eliminate the impact or applicability of any bank regulatory restrictions on the Company and the Funds.

HSBC Holdings plc is the parent company of a number of associates involved in the management, investment management and distribution of the Funds. HSBC Holdings plc is regulated by the Federal Reserve in the United States as a Financial Holding Company ("FHC") under the US Bank Holding Company Act (and its associated rules and regulations) (the "BHCA"). As an FHC, the activities of HSBC Holdings plc and its affiliates are subject to certain restrictions imposed by the BHCA. Although HSBC Holdings plc does not own a majority of the Shares of the Company, its relationship with the Company through the ACD means HSBC Holdings plc may be deemed to "control" the Company within the meaning of the BHCA. Investors should note that the operations of the Company, including its investments and transactions, may be restricted in order to comply with the BHCA.

For example to comply with the BHCA a Fund may be:

- (i) restricted in its ability to make certain investments;
- (ii) restricted in the size of certain investments;
- (iii) subject to a maximum holding period on some or all of its investments; and/or
- (iv) required to liquidate certain investments.

In addition, transactions made between the Company, the ACD, the investment manager, HSBC Holdings plc and their affiliates may be restricted.

Fees and Expenses

Initial Charge

The ACD is permitted to make an initial charge, upon a sale of Shares. However, currently the ACD is not applying an initial charge to its Funds.

Remuneration of ACD

The ACD is entitled under its agreement with the Company to take an annual fee out of each Fund, which is a percentage per annum of the Net Asset Value of the Fund (plus VAT, if any), calculated on a mid-market basis, in payment for carrying out its duties and responsibilities, including registration services, this is known as the Annual Management Charge (the “AMC”). The AMCs, shown in the table below, accrue daily and are payable monthly in arrears.

The Ongoing Charges Figure (OCF) shown in the table below is based on actual expenses for the relevant accounting period, or an estimate of expenses where, for example, a change has been made to the charging structure during an accounting year. It covers most aspects of operating the Fund during the year, including fees paid for investment management, the services of the Depositary, custody of the scheme property, the services of the Administrator/Registrar and other administration and the independent oversight functions. Where the Fund invests in other funds, the figure includes the impact of the charges made in those other funds. The OCF does not include portfolio transaction costs and payments Shareholders may make to a financial adviser or any other firm through which they invest; Shareholders will pay for these services directly. The OCF is calculated and reported bi-annually in May and November and is accurate as of the date of publication.

Table of Charges

The current AMCs and the OCFs for Share Classes offered in the Funds are:

† Except for the fees and expenses payable to the ACD, the dilution adjustment, expenses incurred in acquiring and disposing of investments, the costs of registering investments and taxation and duties payable by the Company where these are allocated to specific Share Classes, no other fees will be allocated to the Accumulation T Share Class of the Developed World Lower Carbon ESG Tilt Equity Index Fund. Instead all such other fees attributable solely to the Accumulation T Share Class of the Developed World Lower Carbon ESG Tilt Equity Index Fund will be borne by the ACD.

- 1 The OCF is estimated as the Fund launched on 3 October 2024. For a period after launch, the ACD may contribute to paying any fees and expenses that would otherwise be fully paid for by the Fund. Any such contribution is reflected in the estimated OCF.
- 2 The costs that the Fund incurs relating to investments in underlying closed ended investments (such as investment trusts) are no longer included in the OCF. These costs vary and are approximately 0.25% for the FTSE 250 Index Fund and 0.05% for the FTSE All-Share Index Fund.
- 3 The OCF is estimated, due to the exclusion from the calculation of a one-off adjustment made to custody fees relating to previous accounting periods.
- 4 The OCF is estimated as this Share Class launched on 22 November 2024.
- 5 The OCF is estimated as this Fund launched on 8 April 2025. For a period after launch, the ACD may contribute to paying any fees and expenses that would otherwise be fully paid for by the Fund. Any such contribution is reflected in the estimated OCF.
- 6 The OCF is estimated as this Share Class launched on 8 April 2025. For a period after launch, the ACD may contribute to paying any fees and expenses that would otherwise be fully paid for by the Fund. Any such contribution is reflected in the estimated OCF.
- 7 The OCF is estimated with effect from 14 May 2025. From this date, the AMC has decreased for this Share Class and the ACD may contribute to paying any fees and expenses that would otherwise be fully paid for by the Fund. Any such contribution is reflected in the estimated OCF.
- 8 The OCF is estimated with effect from 14 May 2025. From this date, the ACD may contribute to paying any fees and expenses that would otherwise be fully paid for by the Fund. Any such contribution is reflected in the estimated OCF.
- 9 The OCF is estimated as this Share Class launched on 2 July 2025. The ACD may contribute to paying any fees and expenses that would otherwise be fully paid for by the Fund. Any such contribution is reflected in the estimated OCF.
- 10 With effect from 2 July 2025, the ACD may contribute to paying any fees and expenses that would otherwise be fully paid for by the Fund. Any such contribution is reflected in the estimated OCF.

If the expenses of a Share Class in any period exceed its attributable income, the ACD may take that excess from the capital property attributable to that Share Class. This may have the effect of limiting capital growth or eroding capital if there is insufficient growth.

The initial charge, AMC and other expenses payable to the ACD and its associates may only be increased in accordance with the FCA Rules, which require a minimum of 60 days' advanced notice and only after the ACD has made available the Prospectus showing the new rate of charge and the date of its commencement.

Administration Charges Switching Fee

If a Shareholder switches Shares in one Fund for Shares in another Fund (whether of the same or a different Share Class) the ACD may impose a switching fee. This will not exceed an amount equal to the then prevailing initial charge for the Fund or Share Class into which the Shares are being switched. The switch may incur a dilution adjustment on one or both parts of the switch transaction. Dilution adjustment is explained further below.

Other Charges and Expenses Redemption Charge

No charge will currently be made on a cancellation or redemption of Shares, apart from a dilution adjustment to the price of a Share (as explained below) or a charge sufficient to cover the ACD's potential liability to stamp duty or stamp duty reserve tax (if applicable). Should a redemption charge be introduced in the future such a charge would only apply to Shares issued after the introduction of such a charge. In such circumstances the ACD may only introduce a redemption charge in accordance with the FCA Rules after it has made available a revised Prospectus to reflect the introduction of the charge and the date of its commencement. There are currently no plans to introduce such a charge.

Dilution

The basis of valuation of the Company's investments for the purpose of calculating the issue and redemption price of Shares, as stipulated in the FCA Rules and the Instrument of Incorporation, is summarised on page 28.

When the Company buys or sells a Fund's investments it will usually incur a cost in the form of dealing charges and any spread between the buying and selling prices of the investment. This cost will not be reflected in the sale or purchase price paid by the Shareholder. In some circumstances (for example, deals that are large relative to the size of a Fund) this may have an adverse effect on the interests of Shareholders in the Fund. This effect is referred to as "Dilution". So as to prevent this, the ACD has the power to make a "dilution adjustment" to the price of a Share on the purchase and/or sale of Shares.

Dilution Adjustment

A dilution adjustment may be made if on any Dealing Day the aggregate transactions in a Share Class in a Fund results in a net increase or decrease of Shares which exceed a threshold we set for that Fund, (relating to the cost of market dealing for that Fund).

Estimated dilution adjustment rates as at 17 June 2025. More recent information may be available by contacting us.

Fund	Estimate Dilution Adjustment rates %
American Index Fund	0.07
Developed World Lower Carbon ESG Tilt Equity Index Fund	0.10 – 0.14
European Index Fund	0.11 – 0.20
FTSE All-Share Index Fund	0.06 – 0.53
FTSE All-World Index Fund	0.13 – 0.15
FTSE 100 Index Fund	0.05 – 0.53
FTSE 250 Index Fund	0.12 – 0.56
Japan Index Fund	0.15
MSCI Emerging Markets Equity Index Fund	0.28 – 0.36
MSCI Emerging Markets ex China Equity Index Fund	0.29 – 0.40
Pacific Index Fund	0.42 – 0.29
S&P 500 Equal Weight Equity Index Fund	0.07
Sterling Corporate Bond Index Fund	0.19
UK Gilt Index Fund	0.02
USA Lower Carbon ESG Tilt Equity Index Fund	0.07

In all cases where the threshold is exceeded the Share price of the relevant Fund may be adjusted by an amount which shall reflect both the estimated fiscal charges and dealing costs that may be incurred by the Fund and the estimated bid/offer spread of the assets into which the Fund invests. The calculated dilution adjustment amount will be an addition when the net movement results in an increase of all Shares of the Fund and a deduction when it results in a decrease. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows and for net outflows.

Furthermore, the ACD shall have discretion to apply a dilution adjustment in any other case where it considers that the imposition of a dilution adjustment shall be in the interest of Shareholders.

As dilution adjustment is directly related to the inflows and outflows of monies from a Fund, it is not possible to predict accurately whether dilution adjustment will occur at a future point in time. However, the ACD expects to make a dilution adjustment on all occasions when the threshold is exceeded.

ACD Expenses

The ACD is entitled to all reasonable, properly incurred expenses in the performance of its duties. This includes expenses incurred by the ACD in relation to the operation and oversight of securities lending, which will be paid from any revenue generated through securities lending.

Depositary's Remuneration and Expenses

The Depositary is entitled to receive out of the property of the Fund, by way of remuneration, a periodic charge, which will accrue daily and will be paid monthly in arrears. The rate of the Depositary's periodic charge in respect of each Fund will be such rate or rates as agreed from time to time between the Company and the Depositary.

The rate of periodic charge for each Fund is currently 0.009% per annum of the Net Asset Value of the Fund, on the first £200,000,000, 0.006% per annum of the Net Asset Value of the Fund on the next £1,800,000,000 and 0.00475% per annum on the balance above £2,000,000,000.

The charge will be calculated, pro-rata each month, based on the value of the assets held on the last Business Day monthly. Value Added Tax on the amount of the periodic charge will be paid out of each Fund in addition.

The Depositary Agreement between the Company and the Depositary provides that in addition to a periodic charge the Depositary may also be paid by way of remuneration custody fees where it acts as custodian and other transaction and bank charges. At present the Depositary does not itself act as custodian.

In addition to the remuneration referred to above, the Depositary is entitled to receive reimbursement for expenses properly incurred by it in the discharge of its duties or exercising any powers conferred upon it in relation to the Company and each Fund. Such expenses include, but are not restricted to:

- (a) the charges and expenses payable to HSBC Bank plc ("HSBC Bank plc") to whom the Depositary has delegated the function of custody of the scheme property, such charges being the subject of agreement between the Depositary, the Company and HSBC Bank plc (subject to the FCA Rules) from time to time. The remuneration for acting as custodian is calculated at such rates and/or amounts as the ACD, the Depositary and the Custodian may from time to time agree.

In addition the custodian makes a transaction charge determined by the territory, or country in which the transaction is effected.

The cost of custody generally depends upon the market value of the stock involved and currently in respect of each Fund ranges from 0.0015% per annum and 0.62% per annum of such market value. The current range of transaction charges is between £4.40 and £100 per transaction.

- (b) all charges imposed by, and any expenses of, any agents appointed by the Depositary to assist in the discharge of its duties;
- (c) all charges and expenses incurred in connection with collection and distribution of income;
- (d) all charges and expenses incurred in relation to the preparation of the Depositary's annual report to Shareholders;
- (e) all charges and expenses incurred in relation to securities lending or other transactions; and
- (f) fees and expenses payable to any professional adviser advising or assisting the Depositary.

Investment Manager's Fee

Where the ACD appoints an associate or other party to act as investment manager for a Fund, the investment manager may receive a proportion of any Annual Management Charges for that Fund, as agreed between the ACD and the investment manager.

Auditor's Fee

The Auditor performs an annual audit of the Company, for which it is entitled to receive a payment out of the property of the Funds. The Auditor's fee is inclusive of VAT and for each Fund is determined in relation to the complexity of auditing such Fund. The fee will be accrued on a daily basis in the relevant Fund's NAV and will be paid out of the Fund annually.

The ACD will carry out an annual fee review to satisfy itself that the fee is reasonable for the tasks performed.

Legal Adviser's Fee

The Company may use legal advisers from time to time, whose fees are paid out of the property of the Funds. The legal adviser's fee is inclusive of VAT and is agreed by the ACD prior to work being undertaken. The legal adviser performs many duties during the course of their advice and is only engaged by the ACD where necessary.

Administrator's Fee and Electronic Instruction Routing Service Fee

Currently, for all Funds, the fees payable for the provision of Administrator (that is also the Registrar) and Electronic Instruction Routing services, which include processing subscription, redemption, switch and conversion instructions from Shareholders, maintaining the register of Shareholders, paying distributions of income, issuing statements to Shareholders and other administrative functions, are paid out of the scheme property. The fees apply to all Share Classes of the Funds, unless otherwise stated in this Prospectus. The rate of the fees will be such rate or rates as agreed from time to time by the ACD. The fees that apply to each Fund and Share Class are based on various criteria including but not limited to the number of transactions, number of Shareholder accounts and number of distributions processed during a charging period. However, the combined Administrator/Registrar and Electronic Instruction Routing services fees applied to each Share

Class of a Fund will be limited to 0.00124% per month (approximately equivalent to 0.0149% per annum) based on the NAV of the Share Class on the last business day of each month. The anticipated fees will accrue daily and will be paid monthly in arrears.

Any Value Added Tax on the amount of the fees that are applied to each Fund and Share Class will also be paid out of the scheme property of each Fund.

Any fees payable for the provision of these services in excess of the limiting percentage described above will be paid by the ACD out of the Annual Management Charge payable to the ACD.

Index Licence Fees

The sub-funds require a licence agreement in order to use FTSE, Markit, MSCI and S&P trademarks. These licence agreements enable FTSE, Markit, MSCI and S&P to receive an annual fee. This fee will be calculated as a percentage per annum of the Net Asset Value (plus VAT, if any) of each Fund and payable out of the scheme property of the relevant Fund. An accrual will be made each day for the cost of the licence based on the Fund's Net Asset Value and these fees will be deducted periodically.

Duplicate Statement Fee

Individual statements of Shareholders' (or in the case of joint holdings, the first named) Shares will also be issued at any time on request by the registered holder(s). The right is reserved to make a charge for duplicate copies of statements. Such charge will not exceed our then prevailing costs for producing and posting such document.

Payments out of the Scheme Property of the Company

So far as the FCA Rules allow, the Company or Fund as the case may be is responsible for all its other expenses including the following:

- (a) the fees and expenses payable to the ACD (which will include the fees of the ACD, including fees and expenses relating to the oversight of securities lending and related functions and any third party appointed to carry out administration functions, including fees and expenses in respect of establishing and maintaining the register of Shareholders and related functions) or any other director;
- (b) the fees and expenses payable to the Depositary;
- (c) expenses incurred in distributing income to Shareholders;
- (d) fees in respect of the publication and circulation of details of the Net Asset Value;
- (e) the fees and expenses of the auditors, tax, legal and other professional advisers of the Company;
- (f) the costs of convening and holding Shareholder meetings (including meetings of Shareholders in any particular Fund or any particular Share Class within a Fund);
- (g) the costs of printing and distributing reports, accounts and Prospectuses (excluding the Key Investor Information Documents), publishing prices, any costs incurred as a result of periodic updates of any Prospectus, any costs incurred in amending the Instrument of Incorporation and any other administrative expenses;
- (h) taxation and duties payable by the Company;
- (i) interest on any charges incurred on borrowings;
- (j) any amount payable by the Company under any indemnity provisions contained in the Instrument of Incorporation or any agreement with any functionary of the Company;
- (k) fees of the FCA under Schedule I Part 11(17) of the Act and the corresponding periodic fees of any regulatory authority in any country or territory outside the United Kingdom in which Shares are or may be marketed;
- (l) fees of any paying agent or other third party the appointment of which is required to facilitate the marketing of Shares outside the United Kingdom;
- (m) safe custody charges;
- (n) expenses incurred in acquiring and disposing of investments and the costs of registering investments;
- (o) royalty fees, licence or other fees levied by owners, calculation agents or other entities in the calculation or provision of indices or similar;

- (p) certain liabilities on amalgamation or reconstruction arising after transfer of property to the Company in consideration for the issue of Shares in accordance with the FCA Rules;
- (q) directors' remuneration in the event that the Company has directors in addition to the ACD;
- (r) the fees and expenses incurred in establishing any new Share Class and/or Funds;
- (s) any value added or similar tax payable on these fees, charges or expenses;
- (t) the fees and expenses of any securities lending agent appointed in respect of the Funds;
- (u) in respect of Currency Share Classes, any fees charged by the Administrator (or other party) for arranging foreign exchange transactions in relation to payments of subscriptions and redemptions. Such fees will be charged to the relevant Currency Share Class.

In so far as any of these charges (except for (a), (h) and (n) above) would otherwise be attributable to Shares in the Accumulation T Share Class of the Developed World Lower Carbon ESG Tilt Equity Index Fund, the expenses will not be allocated to that Fund for payment, but will be met by the ACD.

It is not currently proposed to seek a listing for the Shares on any stock exchange, but if a listing is sought in the future the fees connected with the listing (including those of professional advisors) will be payable by the Company. Expenses are allocated between capital and income in accordance with the FCA Rules.

The fees and expenses applicable to securities lending activity are described in Part G of Appendix 3 on page 123 of this Prospectus.

Allocation of Fees and Expenses between Funds

All the above fees, duties and charges (other than those borne by the ACD) will be charged to the Fund in respect of which they were incurred but where an expense is not considered to be attributable to any one Fund, the expenses will be allocated by the ACD in a manner which is fair to Shareholders. They will normally be allocated to all Funds pro rata to the Net Asset Value of the relevant Funds.

Expenses specific to a Share Class will be allocated to that Share Class. They will otherwise be allocated in the manner described on page 49 of this Prospectus.

Any expenses for any Share Class or Fund in excess of the income properly attributable to such Share Class or Fund shall be deemed to be capital in nature and may be taken from the capital property attributable to that Share Class or Fund. In so far as expenses (except for (a), (h) and (n) in the section above) are attributable whether by way of a notional specific allocation or a notional pro rata allocation to Shares in Accumulation T Share Class of the Developed World Lower Carbon ESG Tilt Equity Index Fund, they will be met by the ACD and not incurred by that Fund.

The Annual Management Charge will be attributed to the Share Class of Shares in respect of which it is imposed.

Taxation

General

The information given in this section is based on current UK legislation and HM Revenue & Customs ("HMRC") practice in force at the time of printing and does not constitute legal or tax advice and applies only to UK Shareholders holding Shares as investments (and not to dealers in securities). Prospective Shareholders should consult their own professional advisers as to the implications of subscribing for, purchasing, holding, converting, switching or disposing of Shares under the laws of the jurisdiction in which they may be subject to tax.

The Company

Each of the Funds comprised in the Company is liable to corporation tax at a rate equivalent to the basic rate of income tax, currently 20%. Each of the Funds is treated as an open-ended investment company, such that the capital gains or losses realised by the Company are exempt from tax subject to the comments in the following paragraphs.

Dividends received by the Funds are generally exempt from corporation tax. Income other than dividends received by the Funds is liable to corporation tax after deducting allowable expenses of management. Where taxable overseas income is received by a Fund after deduction of foreign tax, it may be possible for the Fund to offset such tax against corporation tax liabilities on that income by way of double tax relief.

Where a Fund holds an investment in any other onshore or offshore fund that during the Fund's accounting period is broadly greater than 60% invested, directly or indirectly (through similar funds or derivatives) in cash, bonds or derivatives linked to similar assets, any amounts accounted for as income will be taxable income of the Fund for the period concerned. In addition, any dividends paid by such funds will be taxed as interest income for the period concerned. Also where a Fund holds an interest in a collective investment scheme constituted outside of the United Kingdom ("an offshore fund") which has not been certified by HM Revenue & Customs as a "reporting" offshore fund for the entire time that the Fund held it, the Fund will be liable to tax on the gain realised on disposal as income rather than an exempt capital gain.

It is the intention of the Company to remain in the position where no more than 50% of the assets of any Fund by value are invested in offshore funds that are non-reporting funds for UK tax purposes.

Taxation of Shareholders

A Shareholder should consider his or her liability to taxation both in relation to income and any capital gains relating to his or her Shares. The general position in relation to different types of Shareholder is considered below, although the position of Shareholders who hold their Shares as part of a trade is not considered. The discussion below considers the position of Shareholders who have beneficial ownership of the Shares concerned. The position for trustees, nominees and other fiscal agents is not discussed.

Generally, a Shareholder may receive two types of income in respect of his Shares. Gilt or bond funds (broadly those with over 60% invested for the whole of the accounting period in bonds, cash or derivatives linked to similar assets and UK funds which qualify) usually make "Interest Distributions" to Shareholders. Most other types of Funds make "Dividend Distributions" to Shareholders. Details of the types and frequencies of distribution for each of the Funds can be found in the General Information section.

A distribution statement, in respect of the first distribution for Shares which were issued in the same accounting period as that distribution, will indicate that an amount of the distribution represents income equalisation. This amount is not taxable as income, as under current HM Revenue & Customs practice it is treated as a return of capital, but must be deducted from the acquisition cost of Income Shares for the purposes of calculating any capital gains/loss on disposal of those Shares. In the case of Accumulation Shares, no adjustment needs to be made to the cost of the Shares for the purposes of determining any capital gain or loss on eventual disposal of the Shares.

UK Resident Individual Shareholders

Interest Distributions

Interest Distributions are paid without a deduction of income tax at source.

A Personal Saving Allowance exempts from tax the first £1,000 (in tax year 2025/2026) of savings income for basic rate taxpayers and the first £500 (in tax year 2025/2026) for higher rate taxpayers.

This allowance is not available for additional rate taxpayers. All UK taxpayers (including basic rate taxpayers) will therefore be liable to pay UK tax on an interest distribution made or treated as made by the Company, subject to the Personal Savings Allowance and, where applicable, the starting savings rate for savings.

Where a UK resident individual Shareholder holds Shares in an ISA the Shareholder will be exempt from income tax on Interest Distributions paid in respect of such Shares.

Dividend Distributions

A dividend allowance applies for UK resident individual Shareholders which charges the first £500 (in tax year 2025/2026) of dividends received in the tax year at 0%. A UK resident individual Shareholder will have to pay income tax at the applicable basic, higher or additional rate (depending on the Shareholder's individual tax position) on dividend income in excess of the £500 allowance. Note that dividend income within the £500 allowance will still count towards basic, higher and additional rate bands and may therefore affect the rate of income tax that a Shareholder pays on dividends they receive in excess of the £500 allowance.

Where a UK resident individual Shareholder holds Shares in an ISA the Shareholder will be exempt from income tax on Dividend Distributions paid in respect of such Shares.

Capital Gains Tax

Shareholders disposing of Shares in the Funds may be liable to capital gains tax on the gain realised from that disposal if their capital gains from all sources in the tax year exceeds the annual exempt amount and any available relief for losses. Capital gains tax is charged at the capital gains tax rate applicable for the tax year in which the gains are realised.

An exchange of Shares between different Funds is regarded as a disposal for capital gains tax purposes.

Where Shares are converted between Share Classes of the same Fund, a capital gain will not arise until the time of disposal of the New Shares.

A UK resident individual Shareholder holding Shares in an ISA will be exempt from capital gains tax on the disposal of such Shares.

Accumulation/Reinvestment Option

Where a distribution is accumulated or reinvested, the distribution is treated as if it was actually received by the Shareholder on the distribution date. Where a distribution is reinvested the Shareholder will acquire further Shares which have an acquisition cost equal to the value of the distribution. Where income is accumulated in relation to Accumulation Shares the amount of notional distribution (excluding equalisation) increases the allowable expenditure on the Shares for the purposes of capital gains tax.

UK Resident Corporate Shareholders

Interest Distributions

Interest Distributions will be paid without the deduction of tax. Such Shareholders will be subject to corporation tax on the gross amount of the distribution or accumulation.

Dividend Distributions

Where a corporate Shareholder receives a Dividend Distribution from a Fund, such a Shareholder should apportion the amount of the distribution (by way of a formula) between that part representing the Fund's income subject to corporation tax and that part representing the Fund's other income. Only that part which represents the income subject to corporation tax in the Fund will be liable to corporation tax (in the hands of the corporate Shareholder) and will be treated as an annual payment received after deduction of income tax at the basic rate. That deemed income tax will be available to offset against the corporation tax liability of the Shareholder or may be repaid subject to certain restrictions.

Capital Gains Tax

Corporate Shareholders within the charge to corporation tax will be liable to corporation tax subject to indexation allowance*, on any gain arising on the disposal or deemed disposal of holdings in the Funds, except where such Funds are gilt or bond funds.

If UK corporate Shareholders hold Shares in gilt or bond funds (broadly those Funds that are over 60% invested directly or indirectly (through similar funds or derivatives) in cash, bonds or derivatives linked to similar assets) the Shareholders must treat the shareholdings as if they are a loan relationship for corporation tax purposes. Profits and losses must be brought into account annually on a "mark to market" basis.

The result is that corporate Shareholders in such Funds will have the capital growth on their holdings charged to corporation tax on an annual basis.

An exchange of Shares between different Funds is regarded as a disposal for capital gains tax purposes.

Where Shares are converted between Share Classes of the same Fund, a capital gain will not arise until the time of disposal of the New Shares.

* From 1 January 2018 the capital gains Indexation Allowance has been frozen. When a company makes a capital gain on or after 1 January 2018, the Indexation Allowance that is applied in order to determine the amount of the chargeable gain is calculated up to December 2017.

Non UK Resident Shareholders

Interest Distributions will be paid without the deduction of tax to non-UK resident Shareholders.

Tax may or may not be payable in respect of Interest Distributions and Dividend Distributions depending on the Shareholder's tax position and the provisions of any relevant double tax treaty with the United Kingdom.

Foreign Account Tax Compliance Act (FATCA)

Under FATCA the Company is required to collect and report certain information on accounts held by specific US Persons, as defined on page 8 of this Prospectus. The Company may also be required to report certain information on Shareholders who do not provide us with the required documentation.

FATCA imposes a 30% withholding tax on certain payments to a foreign financial institution ("FFI") if that FFI is not compliant with FATCA. The Company is a FFI and thus, subject to FATCA.

This withholding tax applies to payments to the Company that constitute interest, dividends and other types of income from US sources (such as dividends paid by a US corporation) and beginning on 1 January 2019, this withholding tax was extended to the proceeds received from the sale or disposition of assets that give rise to US source dividend or interest payments.

The UK has entered into an Intergovernmental Agreement ("IGA") with the US to facilitate FATCA compliance and reporting of the required information to HMRC. Such information will be onward reported by HMRC to the US Internal Revenue Service. The Company intends to comply with the terms of the IGA and relevant UK implementing Legislation. Therefore, the Company expects to be treated as a compliant financial institution and does not expect any FATCA withholding to apply on payments made to it.

If a Shareholder fails to provide the Company, its agents or authorised representatives with any correct, complete and accurate information to enable the Company to comply with the UK IGA, this may result in the compulsory redemption of Shares (for more details please refer to the "Compulsory Transfer and Redemption" section on page 25). Furthermore, the Company may at its discretion take appropriate action without the consent of Shareholders to provide for any measures that the Company deems appropriate or necessary to comply with the UK IGA.

Shareholders in the Company should consult their own tax advisors regarding FATCA with respect to their own particular circumstances. In particular, Shareholders who hold their Shares through intermediaries should check the intermediaries' intention to comply with FATCA.

The Common Reporting Standard (CRS)

The CRS is similar to FATCA and is the standard developed by the OECD that requires financial institutions to collect and report similar information about an account holder's tax residency outside of the US.

Under the CRS and the International Tax Compliance Regulations 2015, the tax residency of a Shareholder will need to be determined. In order to do so, a Shareholder may be asked to complete the appropriate self-certification form and return it to the ACD. Completing this form will ensure that accurate and up to date information about the tax residency of a Shareholder is being held.

The CRS does not impose a withholding tax obligation.

Shareholders in the Company should consult their own tax advisers regarding the application of information exchange between governments to their particular circumstances. More information on the CRS can be found at www.crs.hsbc.com.

The Company reserves the right to refuse any application for Shares if the information provided or not provided does not satisfy the requirements under the CRS Law.

Individual Savings Accounts (ISAs)

The Shares are qualifying investments for inclusion in an ISA.

Disclaimer

The above statements are based on the ACD's understanding of current UK law and HM Revenue & Customs practice at the time of printing which may be subject to retrospective change. The future basis and rates of taxation may change without warning.

Although the ACD has endeavoured to provide accurate information on tax law and practice in the forgoing text, it cannot guarantee that such information is a correct interpretation of the legislation concerned. Shareholders are recommended to consult their professional advisers if they are in any doubt as to their individual tax position.

Instrument of Incorporation

The Instrument of Incorporation of the Company (which is available for inspection at the ACD's offices) contains provisions to the following effect:

Object

The object of the Company is to invest the scheme property in transferable securities with the aim of spreading investment risk and giving its Shareholders the benefit of the results of the management of that property.

Shares and Share Classes

- (a) The Company may from time to time issue new Share Classes in respect of a Fund and the directors may by resolution from time to time create additional Share Classes in respect of a Fund (whether or not falling within one of the Share Classes in existence on incorporation).
- (b) The directors may by a resolution from time to time create additional Funds with such investment objectives and such restrictions as to investment or otherwise and denominated in such currencies, as the directors shall from time to time determine.

Transfer of Shares

- (a) All transfers of registered Shares must be effected by transfer in writing in any usual or common form or in any other form as may be approved by the directors. Any signature on an instrument of transfer may be affixed manually or electronically and be an actual signature or a facsimile signature or any form of signature or personal identification approved by the directors. The directors shall not be bound to enquire as to the genuineness of any signature.
- (b) No instrument of transfer may be given in respect of more than one Share Class.
- (c) In the case of a transfer to joint holders, the number of joint holders to whom a Share is to be transferred may not exceed four.
- (d) Unless the ACD in its discretion decides otherwise, no transfer may result in either the transferor or the transferee holding fewer Shares of the Share Class concerned or Shares having a lesser aggregate value than any number or value as is stated in the Prospectus as the minimum which may be held.

Income

The income available for distribution or accumulation in relation to a Fund is determined in accordance with the FCA Rules. In essence it comprises all sums deemed by the Company, after consultation with the auditor, to be in the nature of income received or receivable for the account of the Company and attributable to the Fund in respect of the accounting period concerned, after deducting charges and expenses paid or payable out of such income and after making such adjustments as the ACD considers appropriate, after consulting the auditors in accordance with the FCA Rules, in relation to taxation and other matters.

Income relating to a Fund is allocated among Share Classes in that Fund as it accrues or is received in accordance with the respective proportionate interest in the property of the Fund represented by the Shares in issue at the valuation point in question.

The following provisions shall apply to Shares in issue in respect of the Funds:

- (a) An allocation of income (whether annual, interim or otherwise) to be made in respect of each Share to which this provision applies issued by the Company or sold by the ACD during the accounting period in respect of which that income allocation is made shall be of the same amount as the allocation to be made in respect of the other Shares of the same Share Class in issue in respect of the same Fund but shall include a capital sum ("income equalisation") representing the ACD's best estimate of the amount of income included in the price of that Share.
- (b) The amount of income equalisation in respect of any Share shall be either:
 - (i) The actual amount of income included in the issue price of that Share; or
 - (ii) an amount arrived at by taking the aggregate of the amounts of income included in the price in respect of Shares of that Share Class issued or sold in the annual or interim accounting period in question and dividing that aggregate amount by the number of such Shares and applying the resultant average to each of the Shares in question.

Each allocation of income made in respect of any Fund at a time when more than one Share Class is in issue in respect of that Fund shall be made by reference to the Shareholders' proportionate interests in the scheme property of the Fund in question.

The proportionate interest of each Share Class in the assets and income of the Fund shall be calculated as follows:

- (a) A notional account will be maintained for each Share Class. Each account will be referred to as a "Proportion Account". The word "proportion" in the following paragraphs means the proportion which the balance on a Proportion Account at the relevant time directly relates to the balance on all the Proportion Accounts of a Fund at that time.
- (b) There will be credited to a Proportion Account:
 - (i) the subscription money (excluding any initial charges or dilution adjustment to the price of a Share) for the issue of Shares of the relevant Share Class;
 - (ii) that Share Class' proportion of the amount by which the Net Asset Value of the Fund exceeds the total subscription money for all Shares in the Fund;
 - (iii) that Share Class' proportion of the Fund's income received and receivable; and
 - (iv) any notional tax benefit as referred to in (d) below.
- (c) There will be debited to a Proportion Account:
 - (i) the redemption payment for the cancellation of Shares of the relevant Share Class;
 - (ii) that Share Class' proportion of the amount by which the Net Asset Value of the Fund falls short of the total subscription money for all Shares in the Fund;
 - (iii) all distributions of income (including income equalisation) made to Shareholders of that Share Class;
 - (iv) all costs, charges and expenses incurred solely in respect of that Share Class;
 - (v) that Share Class' share of the costs, charges and expenses incurred in respect of that Share Class and one or more other Share Classes in the Fund, but not in respect of the Fund as a whole;
 - (vi) that Share Class' proportion of the costs, charges and expenses incurred in respect of or attributable to the Fund as a whole; and
 - (vii) any notional tax liability as referred to in (d) below.
- (d) Any tax liability in respect of the Fund and any tax benefit received or receivable in respect of the Fund will be allocated between Share Classes in order to achieve, so far as possible, the same result as would have been achieved if each Share Class were itself a Fund so as not materially to prejudice any Share Class. The allocation will be carried out by the ACD after consultation with the auditors.
- (e) Where a Share Class is denominated in a currency which is not the base currency, the balance on the Proportion Account shall be converted into the base currency in order to ascertain the proportions of all Share Classes. Conversions between currencies shall be at a rate of exchange decided by the ACD as being a rate that is not likely to result in any material prejudice to the interests of Shareholders or potential Shareholders.
- (f) The Proportion Accounts are notional accounts maintained for the purpose of calculating proportionate interests. They do not represent debts from the Company to Shareholders or the other way round.

Each credit and debit to a Proportion Account shall be allocated to that account on the basis of that Share Class' proportion immediately before the allocation. All such adjustments shall be made as are necessary to ensure that on no occasion on which the proportions are ascertained is any amount counted more than once.

The proportionate interest of a Share Class in the assets and income of a Fund is its "proportion".

When Shares are issued thereafter, each such Share shall represent the same proportionate interest in the property of the relevant Fund as each other Share of the same category and Share Class then in issue in respect of that Fund.

The Company may adopt a method of calculating the amount of income to be allocated between the Shares in issue in respect of any Fund which is different to the method set out above if the ACD is satisfied that such method is fair to Shareholders and that it is reasonable to adopt such method in the given circumstances.

If a distribution of income remains unclaimed for three consecutive distributions then the ACD may convert the holding to Accumulation Shares, and will purchase additional Shares with the unclaimed income.

Subject to the preceding paragraph, any distribution remaining unclaimed after a period of six years shall become part of the capital property of the relevant Fund.

Number of Directors

Unless otherwise determined by an extraordinary resolution of Shareholders the Company shall only have one director.

Removal of ACD

The Company may by ordinary resolution remove the ACD before the expiration of its period of office, notwithstanding anything in the Instrument of Incorporation or in any agreement between the Company and the ACD, but the removal will not take effect until the FCA have approved it and a new authorised corporate director approved by the FCA has been appointed.

Proceedings at General Meetings

The Instrument of Incorporation contains provisions relating to general meetings and the proceedings at such meetings. Such provisions shall also apply to Share Class meetings and Fund meetings in the same way as they apply to general meetings.

Instrument of Incorporation

- (a) The Instrument of Incorporation may be amended by resolution of the ACD to the extent permitted by the FCA Rules.
- (b) In the event of any conflict arising between any provision of the Instrument of Incorporation and either the OEIC Regulations or the FCA Rules, the FCA Rules will prevail.

Indemnity

The Instrument of Incorporation contains provisions indemnifying every director, other officer, auditor and Depositary against liability (amongst other things) in defending any proceedings for negligence, default, breach of duty or breach of trust in which judgement is given in their favour.

Meetings and Voting Rights

Annual General Meeting

The Company will not hold an annual general meeting. Copies of the contracts of service between the Company and its directors, including the ACD, will be provided to a Shareholder on request.

The ACD or the Shareholders may requisition a general meeting of Shareholders at any time. A requisition by Shareholders must state the objects of the meeting, be dated, be signed by Shareholders who, at the date of requisition, are registered as the holders of Shares representing not less than one-tenth in value of all Shares then in issue and the requisition must be deposited at the head office of the Company. The ACD must convene a general meeting for a date no later than eight weeks after receipt of such requisition.

Notice and Quorum

Shareholders will receive at least 14 days' written notice of a Shareholders' meeting. No business may be transacted at a general meeting unless a quorum is present. The quorum for a meeting is two Shareholders present in person or by proxy. If a quorum is not present within 15 minutes after the time fixed for the start of the meeting, the meeting will stand adjourned.

If at an adjourned meeting a quorum is not present within 15 minutes after the time fixed for the start of the meeting, one person entitled to be counted in a quorum shall constitute the quorum and if there is no such person the meeting is dissolved.

Notices of meetings and adjourned meetings will be sent to Shareholders at their registered addresses.

Voting Rights

Generally, Shareholders are entitled to receive notice of a meeting and to vote at a meeting if they were holders of Shares in the Company on the date seven days before the notice is deemed served. This will not, however, include those who are known to the ACD not to be holders at the date of the meeting.

At a meeting of Shareholders, on a show of hands every Shareholder who (being an individual) is present in person or (being a corporation) is present by its properly authorised representative is entitled to one vote.

On a poll vote, a Shareholder may vote either in person or by proxy. The voting rights attaching to each Share in such a case are such proportion of the voting rights attached to all the Shares in issue as the price of the Share bears to the aggregate price(s) of all the Shares in issue at the date seven days before the notice of meeting is deemed to have been served.

An instrument appointing a proxy shall be in writing in any usual or common form, or any other form approved by the ACD. The person appointed to act as a proxy need not be a Shareholder. A Shareholder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.

The ACD is entitled to attend any meeting but, except in relation to third party Shares, may not vote or be counted in the quorum for a meeting and any Shares it holds are treated as not being in issue for the purposes of the meeting. An associate (as defined in the FCA Rules) of the ACD is entitled to attend any meeting of the Company and may be counted in the quorum, but may not vote except in relation to "third party Shares". For these purposes third party Shares are any Shares which the ACD or associate holds on behalf of or jointly with a person who, if the registered Shareholder would be entitled to vote and from whom the ACD or associate has received voting instructions.

Powers of a Shareholders' Meeting

The Instrument of Incorporation and the FCA Rules empower Shareholders in general meeting to approve various matters including:

- (a) removal of the ACD;
- (b) changes to some of the matters contained in the Instrument of Incorporation and this Prospectus; and
- (c) a Scheme of Arrangement.

In accordance with the FCA Rules, other provisions may be changed by the ACD without the approval of Shareholders in general meeting.

For certain other matters the FCA Rules or the Instrument of Incorporation require an extraordinary resolution (which needs 75% of the votes cast at the meeting to be in favour if the resolution is to be passed).

Share Class and Fund Meetings

The above provisions, unless the context otherwise requires, apply to Share Class meetings and meetings of Funds as they apply to general meetings of Shareholders but by reference to Share Class or Fund concerned and the Shareholders and prices of such Shares.

Variation of Share Class Rights

The rights attached to a Share Class or Fund may only be varied with the sanction of a resolution passed at a meeting of Shareholders of that Share Class or Fund by a 75% majority of those votes validly cast for and against such resolution.

Proceedings at General Meetings

Prior to each general meeting, a director other than the ACD or an associate shall nominate a chairman or, if no such nomination is made, the Depositary shall nominate an individual to act as chairman. If the representative is not present within 15 minutes after the time fixed for the start of the meeting or is not willing or able to act, the Shareholders present shall choose one of their number to be chairman of the meeting.

The chairman of any quorate meeting may with the consent of the meeting (and shall if so directed by the meeting) adjourn the meeting from time to time (or for an indefinite period) and from place to place. No business shall be transacted at any adjourned meeting except business which might lawfully have been transacted at the meeting from which the adjournment took place.

A resolution put to the vote of a general meeting or Share Class meeting must be decided on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded by:-

- (a) the chairman of the meeting;
- (b) not less than two Shareholders; or
- (c) the Depositary.

Unless a poll is required, a declaration by the chairman of the meeting that a resolution has been carried, or carried unanimously, or by a particular majority, or lost, and an entry to that effect in the minute book or other record of proceedings, shall be conclusive evidence of that fact without proof of the number or proportion of the votes recorded for or against such resolution. If a poll is required, it shall be taken in such a manner (including the use of ballot papers or electronic or computer voting systems) as the chairman may direct.

The chairman of a general meeting may take any action he considers appropriate for, for example, the safety of people attending a general meeting, the proper and orderly conduct of the general meeting or in order to reflect the wishes of the majority.

Corporations Acting by Representatives

Any corporation which is a Shareholder of the Company may by resolution of the directors or other governing body of such corporation and in respect of any Share or Shares in the Company of which it is the holder authorise such individual as it thinks fit to act as its representative at any general meeting of the Shareholders or of any Share Class meeting or Fund meeting. The individual so authorised shall be entitled to exercise the same powers on behalf of such corporation as the corporation could exercise in respect of such Share or Shares if it were an individual Shareholder of the Company and such corporation shall be deemed to be present in person at any such meeting if an individual so authorised is so present.

Winding up of the Company and Winding up or Termination of Funds

The Company may be wound up under the FCA Rules or as an unregistered company under Part V of the Insolvency Act 1986. A Fund may be terminated under the FCA Rules or wound up as an unregistered company under Part V of the Insolvency Act 1986 (as amended).

Winding up or termination under the FCA Rules may be commenced following approval by the FCA. The FCA may only give such approval if the ACD provides a statement (following a full enquiry into the affairs of the Company or the Fund) either that the Company or the Fund will be able to meet its liabilities (including contingent and prospective) within 12 months of the date of the statement or that the Company or the Fund will be unable to do so. The Company or the Fund may not be wound up or terminated under the FCA Rules if there is a vacancy in the position of authorised corporate director at the relevant time.

Subject to the above, the Company may be wound up or a Fund wound up or terminated under the FCA Rules:

- (a) if an extraordinary resolution to that effect is passed by Shareholders; or
- (b) if the share capital of the Company is below its prescribed minimum or (in relation to any Fund) the Net Asset Value of the Fund is less than £1 million, or if a change in the laws or regulations of any country means that, in the ACD's opinion, it is desirable to terminate the Fund; or
- (c) if the FCA agrees to a request by the ACD for the revocation of the authorisation order in respect of the Company or the relevant Fund.

Following the occurrence of any of the above:

- (a) The provisions in Chapters 5 (Investment and Borrowing Powers), 6.2 (Dealing) and 6.3 (Valuation and Pricing) of the FCA's Collective Investment Scheme rules will cease to apply to the Company or to the Shares and scheme property in the case of a Fund;
- (b) The Company will cease to issue and cancel Shares in the Company or the particular Fund;
- (c) The ACD will cease to sell or redeem Shares or arrange for the Company to issue or cancel them for the Company or the particular Fund;
- (d) No transfer of a Share will be registered and no other change to the Register will be made without the sanction of the ACD;
- (e) Where the Company is being wound up, the Company will cease to carry on its business except in so far as it is beneficial for the winding up of the Company;
- (f) The corporate status and powers of the Company and, subject to the provisions of (a) and (e) above, the powers of the ACD will remain until the Company is dissolved; and
- (g) As soon as practicable after winding up or termination has commenced the ACD must, if it has not previously notified Shareholders of the proposal to wind up the Company or to wind up or terminate the Fund, give written notice of the commencement of the winding up or termination to the Shareholders.

Winding up a Company or winding up or terminating a Fund under the FCA Rules is carried out by the ACD. The ACD will, as soon as practicable after the Company or the Fund falls to be wound up or terminated, realise the assets and meet the liabilities of the Company or the Fund and, after paying or making adequate provision for the cost of winding up or termination and for all liabilities properly payable, may arrange for the Depositary to make one or more interim distributions to Shareholders proportionately to their rights to participate in the scheme property of the Company or the Fund.

When the ACD has caused all of the scheme property to be realised and all of the liabilities of the Company or the particular Fund known to the ACD to be realised, the ACD will arrange for the Depositary to make a final distribution to Shareholders on or prior to the date on which the final account is sent to Shareholders of any balance remaining (net of a provision for any future expenses of the Company or the Fund) in proportion to their holdings in the Company or the particular Fund.

The winding up of the Company or the winding up or termination of the Fund is subject to the terms of any 'Scheme of Arrangement' sanctioned by an extraordinary resolution passed on or before the commencement of the winding up or termination.

On completion of a winding up of the Company or a winding up or termination of a Fund, the Company or Fund will be dissolved or terminated and any money (including unclaimed distributions and other unclaimed proceeds) standing to the account of the Company, will be paid into court within one month of dissolution or termination.

As soon as reasonably practicable after the completion of the winding up of the Company or the winding up or termination of any particular Fund, the Depositary shall notify the FCA that the winding up or termination has been completed.

Following the completion of a winding up of the Company or a winding up or termination of a Fund, the ACD must prepare a final account showing how the winding up or termination was conducted and how the scheme property was distributed. The Company's auditors will make a report in respect of the final account stating their opinion as to whether the final account has been properly prepared. Within four months of the date of completion of the winding up of the Company or the winding up or termination of the Fund, this final account and the auditors' report must be sent to the FCA and to each Shareholder (or in the case of joint holders the first named).

As the Company is an umbrella company, any liabilities attributable or allocated to a particular Fund under the FCA Rules will be met out of the scheme property attributable or allocated to that particular Fund.

The assets of a Fund of the Company belong exclusively to that Fund and shall not be used to discharge directly or indirectly the liabilities of, or claims against, any other person or body, including the Company, or any other Fund of the Company, and shall not be available for any such purpose.

General Information

Accounting Periods

The annual accounting period of the Company ends each year on 15 May (the accounting reference date) and the interim accounting period ends each year on 15 November.

Annual Reports and Distributions

Annual Report and Accounts (each a 'Report') of the Company will be published within four months of the end of each annual accounting period. Half-yearly Reports will be published within two months of the end of each interim accounting period.

Reports containing the full financial statements are available on the HSBC Global Asset Management (UK) Limited website or on request from the ACD.

Distributions will be made within two months of the annual accounting period and where applicable, within two months of the interim accounting period.

The frequency of income distribution and dates for each Fund are shown below. It is the ACD's policy to distribute all available income received into the Fund on the relevant distribution dates.

Fund	Income Frequency	Distribution Dates	Distribution Type
American Index Fund	Annual	15/07	Dividend
Developed World Lower Carbon ESG Tilt Equity Index Fund	Annual	15/07	Dividend
European Index Fund	Annual	15/07	Dividend
FTSE All-Share Index Fund	Half-yearly	15/01, 15/07	Dividend
FTSE All-World Index Fund	Annual	15/07	Dividend
FTSE 100 Index Fund	Half-yearly	15/01, 15/07	Dividend
FTSE 250 Index Fund	Annual	15/07	Dividend
Japan Index Fund	Annual	15/07	Dividend
MSCI Emerging Markets Equity Index Fund	Annual	15/07	Dividend
MSCI Emerging Markets ex China Equity Index Fund	Annual	15/07	Dividend
Pacific Index Fund	Annual	15/07	Dividend
S&P 500 Equal Weight Equity Index Fund	Annual	15/07	Dividend
Sterling Corporate Bond Index Fund	Quarterly	15/01, 15/04, 15/07, 15/10	Interest
UK Gilt Index Fund	Quarterly	15/01, 15/04, 15/07, 15/10	Interest
USA Lower Carbon ESG Tilt Equity Index Fund	Annual	15/07	Dividend

Half yearly statements

Half yearly statements will be sent to Shareholders as at 30 April and 31 October each year. These statements will include details of Shares held in Funds of the Company as well as shares held in other OEICs managed by the ACD.

Documents of the Company

The following documents may be inspected free of charge between 9.00am and 5.00pm on every Business Day at the ACD's office:

- (a) the most recent annual and half-yearly reports of the Company;
- (b) the Instrument of Incorporation (and any amending Instrument of Incorporation); and
- (c) the ACD Agreement.

Shareholders and potential shareholders may obtain copies of these documents from the ACD, HSBC Asset Management (Fund Services UK) Limited, 8 Canada Square, London E14 5HQ. The ACD reserves the right to make a charge at its discretion for copies of the documents listed at (b) and (c) above.

Material Contracts

The following contracts, not being contracts entered into in the ordinary course of business, have been entered into by the Company and the ACD:

- (a) The ACD Agreement between the Company and the ACD;
- (b) The Depositary Agreement between the Company and the Depositary;
- (c) The discretionary investment management agreement between the ACD and HSBC Global Asset Management (UK) Limited in respect of the Funds; and
- (d) The Distribution Agreement between the ACD and HSBC Global Asset Management (UK) Limited.

Details of the above contracts are given in the earlier Section "Management and Administration" on page 41.

Exemption from liability to account for profits

The Company, ACD, Depositary, Custodian, Registrar and Administrator are not liable to account to each other or to Shareholders for any profits or benefits made or received that are made or received from or in connection with:

- (a) dealings in the Shares;
- (b) any transaction in the scheme property; or
- (c) the supply of services to the Fund/Company.

Professional Indemnity

The ACD has professional indemnity insurance and maintains an amount of its own funds in order to protect Shareholders where there is professional negligence and to satisfy the requirements laid down in the FCA rules.

Remuneration Policy

The ACD has established a remuneration policy for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the ACD, the Company or the Funds. The remuneration policy is consistent with and promotes sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profiles of the Company and the Funds or the Instrument. The ACD's remuneration policy is intended to be consistent with the obligation of the ACD to act in the best interest of the Company and the Funds.

The up-to-date remuneration policy of the ACD, including, but not limited to, a description of how remuneration and benefits are determined and the governance arrangements for determining remuneration and benefits is available at www.assetmanagement.hsbc.com and choose "United Kingdom" then "Individual Investors" or "Financial intermediary" then "About Us" and then "Governance". A paper copy is available from the ACD free of charge upon request.

Property

There is no intention for the Company to have an interest in any immovable property.

Transactions with connected persons

As regards transactions with connected persons ("**connected person**" being as defined in the Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission in Hong Kong):

- (a) although all property of the Company (other than tangible moveable property) of the Company is in practice placed with the Depositary, which has in turn appointed the Custodian to hold all of such property, money forming part of the property of the Company may be placed on deposit with the Depositary, the Custodian, the ACD, any appointed investment delegate or any connected person of any such person if such person holding such deposit is an institution licensed to accept deposits and if such deposit is maintained in a manner that is in the best interests of the Shareholders, having regard to the prevailing commercial rate for a deposit of similar type, size and term negotiated at arm's length in accordance with ordinary and normal course of business;
- (b) money can be borrowed by the Company from the Depositary, the Custodian, the ACD, any appointed investment delegate or any connected person of any such person if (1) such person lending such money is a bank and (2) that bank charges interest on such loan at no higher rate, and any fee for arranging or terminating such loan is of no greater amount, than is, in accordance with its normal banking practice, the commercial rate for a loan of the size and nature of the loan in question negotiated at arm's length;
- (c) any transaction between the Company and, acting as principal, the ACD, any appointed investment delegate, any director of the Company or any connected person of any such person may be entered into only with the prior written consent of the Depositary or the Custodian;
- (d) every transaction carried out by or on behalf of the Company must be at arm's length and executed on the best available terms; and

Stewardship

In summary, stewardship is the responsible allocation, management and oversight of investors' capital and seeks to enhance long-term value for investors and mitigate risks. It has the potential to contribute to wider benefits for the economy, the environment and society.

The Funds are stewards of the assets in which they invest, for example equities and bonds issued by companies. The ACD has an approach to undertaking stewardship of the assets, which includes activities such as engagement with companies and voting at company meetings.

Engagement, whether through direct discussion with companies or collaborative engagement with other investors, is important for providing valuable insights for more informed investment decision making and encouraging appropriate corporate practices, through voting at company meetings.

The extent to which the ACD undertakes stewardship activity will vary by Fund and by asset classes and geographies.

Further information about the ACD's approach to stewardship, including information about the voting undertaken at previous company meetings is available on the HSBC Global Asset Management (UK) Limited website at www.assetmanagement.hsbc.com, select "About Us", "Responsible investing", click on the "Stewardship and Engagement" tab and then select "Stewardship".

Complaints

Complaints may be referred to the ACD at HSBC Asset Management (Fund Services UK) Limited, Sunderland SR43 4BF. If the complaint has not been resolved to the satisfaction of the complainant within two months, the ACD must report to the FCA.

A complainant also has the right to address a complaint directly to the Financial Ombudsman Service whose address is Exchange Tower, Harbour Exchange Square, London E14 9SR. Telephone free from a landline on 0800 023 4 567; from a mobile on 0300 123 9 123 (charges are same rate as 01 and 02 numbers on mobile tariffs) and overseas +44 20 7964 0500. Email: complaint.info@financial-ombudsman.org.uk. Further details may be obtained from the Compliance Officer at the above address.

The importance of keeping contact details updated

Shareholders must ensure that they provide the Administrator with any changes to their personal details (including postal address, telephone numbers or any other personal contact details) so the Administrator can keep in contact with Shareholders.

If Shareholders do not keep the Administrator informed of any changes and it is unable to contact a Shareholder, the Administrator may not be able to carry out the Shareholder's instructions, manage their account and it could mean the Shareholder ultimately loses contact with their money.

Further Information

References to time in this Prospectus are to London time unless otherwise stated.

Appendix 1

Individual Fund Information

The definitions for the words in ***bold italic*** text in the individual fund information tables below can be found on pages 4 to 9 of this Prospectus.

Fund Name	American Index Fund**
Investment Objective	The Fund aims to track the performance of the S&P 500 Index (the "Index") before the deduction of charges and tax.
Investment Policy	<p>To achieve its investment objective, the Fund will invest directly in shares (<i>equities</i>) of companies that make up the S&P 500 Index.♦</p> <p>The Fund may also invest in the following assets which are not part of the Index:</p> <ul style="list-style-type: none"> • cash to manage day-to-day cash flow requirements; • units or shares of <i>collective investment schemes</i>, including <i>collective investment schemes</i> managed or operated by the <i>HSBC Group</i> in order to manage day-to day cash flows; • <i>equity</i> related securities such as American <i>Depositary Receipts</i> and Global <i>Depositary Receipts</i> (which are certificates typically issued by a bank or trust company evidencing ownership of shares of a non-US issuer) in order to achieve exposure to a stock instead of using a physical security. <p>The Fund may invest in <i>derivatives</i> for <i>efficient portfolio management</i>, including <i>hedging</i>, which means investment techniques that aim to reduce risks, reduce costs or generate <i>growth</i> and <i>income</i>. The Fund does not intend to use <i>derivatives</i> extensively and their use will be consistent with the risk profile of the Fund.</p> <p>The Fund may sometimes not invest in all of the companies that make up the Index. This is determined by the ACD in situations of poor <i>liquidity</i>, excessive cost to the Fund or where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound.</p>
Investment Strategy	<p>Use of benchmark</p> <p>The Fund will seek to invest in all of the companies that make up the S&P 500 Index (the "Index") and in the same or very similar proportions in which they are included in the Index.</p> <p>However, from time to time, the Fund may not hold all of the companies that make up the Index in order to:</p> <ul style="list-style-type: none"> • manage the Fund's transaction costs; • maintain the Fund's characteristics during different market environments and differing levels of asset availability (i.e. poor <i>liquidity</i>); or • where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section. <p>The Fund's performance is measured against the Index, because the Fund intends to track the performance of the Index.</p> <p>The Fund uses a <i>tracking error</i> to measure the consistency between the Fund's performance and the performance of the Index. In general, the lower the <i>tracking error</i>, the more consistent the Fund's performance is relative to the Index, and vice-versa.</p> <p>The anticipated <i>tracking error</i> for the Fund is expected to be up to 0.10%.</p> <p>The anticipated <i>tracking error</i> for the Fund is not a guide to future performance. The difference in timing between the Fund Valuation (12 noon UK time) and the Index calculation (close of business) can impact on the <i>tracking error</i>.</p> <p>Use of Derivatives</p> <p>The Fund may invest in <i>exchange traded</i> and <i>over-the-counter derivatives</i> in accordance with Part C and Part D of Appendix 3. In particular, <i>exchange traded futures</i> maybe used with the aim of generating <i>returns</i> that are consistent with the Index in respect of dividends and cash flowing into the Fund.</p>

About the Index	<p>The S&P 500 is a market capitalisation-weighted index of the 500 largest US publicly traded companies. The Index captures approximately 80% coverage of available market capitalisation.</p> <p>The Index rebalances quarterly on the third Friday of September, December, March and June.</p> <p>Investors may obtain a brief description of the Index rules and the latest available information on closing levels and constituents from the website of the Index provider as follows: https://www.spindices.com/indices/equity/sp-500/?geographicalRegion=europe&complianceLevel=esma&cvmlanguage=1&_ga=2.94622492.1653670218.1573058733-77154142.1571155881 and complete “Your Details” in the pop up box then choose the information you require.</p>

Fund Name	Developed World Lower Carbon ESG Tilt Equity Index Fund*
Investment Objective	The Fund aims to track the performance of the FTSE Developed ESG Low Carbon Select Index (the "Index") before the deduction of charges.
Investment Policy	<p>To achieve its investment objective, the Fund will invest directly in shares (equities) of companies that make up the FTSE Developed ESG Low Carbon Select Index. ♦</p> <p>The Fund may also invest in the following assets which are not part of the Index:</p> <ul style="list-style-type: none"> • cash to manage day-to-day cash flow requirements; • units or shares of collective investment schemes, including collective investment schemes managed or operated by the HSBC Group in order to manage day-to-day cash flow requirements; • equity related securities such as American Depositary Receipts and Global Depositary Receipts (which are certificates typically issued by a bank or trust company evidencing ownership of shares of a non-US issuer) in order to achieve exposure to a stock instead of using a physical security. <p>The Fund may use derivatives for efficient portfolio management including hedging, which means investment techniques that aim to reduce risks, reduce costs or generate growth and income. The Fund does not intend to use derivatives extensively and their use will be consistent with the risk profile of the Fund.</p> <p>The Fund may sometimes not invest in all of the companies that make up the Index in circumstances where the ACD determines that this is appropriate for reasons of poor liquidity, excessive cost to the Fund or where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound.</p>
Investment Strategy	<p>The Fund will invest in all of the companies that make up the FTSE Developed ESG Low Carbon Select Index and in the same or very similar proportions in which they are included in the Index.</p> <p>However, from time to time, the Fund may not hold all of the companies that make up the Index in order to:</p> <ul style="list-style-type: none"> • manage the Fund's transaction costs; • maintain the Fund's characteristics during different market environments and differing levels of asset availability (i.e. poor liquidity); or • where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section. <p>The collective investment schemes that the Fund is permitted to invest into may have different characteristics to those of the Index.</p> <p>The Fund's performance is measured against the Index, because the Fund intends to track the performance of the Index.</p> <p>The Fund uses a tracking error to measure the consistency between the Fund's performance and the performance of the Index. In general, the lower the tracking error, the more consistent the Fund's performance is relative to the Index, and vice-versa.</p> <p>The anticipated tracking error for the Fund is expected to be up to 0.20%.</p> <p>The anticipated tracking error for the Fund is not a guide to future performance. The difference in timing between the Fund Valuation (12 noon UK time) and the Index calculation (close of business) can impact on the tracking error.</p> <p>Use of derivatives</p> <p>The Fund may invest in exchange traded and over-the-counter derivatives in accordance with Part C and Part D of Appendix 3. In particular, exchange traded futures may be used to increase or reduce exposure to companies that make up the Index. Contracts for differences may be used to gain exposure to companies that make up the Index. The Fund may invest up to 10% of its assets in contracts for differences, however such investments are not generally expected to exceed 5% of its assets. The derivatives that the Fund is permitted to invest into may have different characteristics to those of the Index.</p>
About the Index	The FTSE Developed ESG Low Carbon Select Index is comprised of mid and large cap stocks from developed markets. The Index seeks to achieve a reduction in carbon emissions and fossil fuel reserves exposure and an improvement of the FTSE Russell ESG rating against that of the FTSE Developed Index (the 'Parent Index').

	<p>The Index achieves this in the following ways:</p> <ol style="list-style-type: none"> 3. on an annual basis in September, stocks are removed based on sustainability exclusionary criteria. The following types of companies are removed from the Index on an annual basis due to the sustainability exclusionary criteria. For some of the criteria companies are excluded if they have any involvement in the excluded activity, whereas for some of the criteria a threshold applies, for example companies are excluded if over 10% of their revenues are generated from the excluded activity: <ol style="list-style-type: none"> a. companies identified as involved in providing core weapons systems, or components/services that are considered tailor-made and essential for banned and controversial weapons (including anti-personnel mines, nuclear weapons, cluster weapons, biological and chemical weapons, depleted uranium, and white phosphorus munitions); b. companies identified as involved in providing tailor-made products and/or services that support military weapons or companies manufacturing military weapon systems and/or integral, tailor-made components for conventional military weapons; c. companies identified as involved in the manufacturing of tobacco products; d. companies identified as involved in the distribution or retail sales of tobacco products; e. companies identified as involved in producing adult entertainment and/or owning/operating adult entertainment establishments; f. companies identified as involved in distributing adult entertainment materials; g. companies identified as involved in owning and/or operating a gambling establishment; h. companies identified as involved in manufacturing specialized equipment used exclusively for gambling; i. companies identified as involved in providing supporting products/services to gambling operations; j. companies identified as involved with thermal coal extraction; k. companies identified as involved with electricity generation from thermal coal; l. companies identified as involved with electricity generation from nuclear power; and m. companies identified as involved in controversies related to the United Nations Global Compact (UNGC) principles. The principles are classified into four categories: human rights, labour, environment and anti-corruption; 4. on an annual basis in September, the remaining companies within the Parent Index have their weightings tilted according to carbon emissions intensity¹, fossil fuel reserves intensity and FTSE Russell ESG ratings² based criteria. Tilting is the process of changing constituent weightings to increase or decrease their size in the Index. FTSE Russell ESG ratings are a measure of the overall quality of a company's management of issues associated with three ESG pillars, being environmental, social, and governance, whereby each pillar has several themes against which companies are assessed. These themes range from climate change to health and safety and tax transparency. A number of underlying indicators are used to determine the overall FTSE Russell ESG rating. The Index also aims to maintain country neutrality and to limit industry divergence against the Parent Index and to maintain maximum stock weights of 10% and minimum stock weights of 0.5 bps³; and 5. on a quarterly basis, removing companies considered to be non-compliant with one or more of the UNGC principles. <p>Due to the rating criteria and exclusions referred to above, the Index will have a smaller number of constituents compared to the Parent Index and therefore, is likely to exhibit a different performance and risk profile. Furthermore, as some of the exclusions are applied after the annual rebalance, the Index is unlikely to maintain the industry divergence, stock weight limitations and country neutrality described above and the level of FTSE Russell ESG rating improvement, carbon intensity reduction and fossil fuel reserves exposure may change from the levels initially set. All of the aforementioned</p>
--	---

¹ Carbon emissions are measured as Greenhouse Gas (GHG) Protocol Scope 1 and 2 emissions and intensity is calculated as operational carbon emissions in metric tons per million dollars revenue. GHG Protocol Scope 3 emissions are not considered in the calculation. Whilst it is recognised that Scope 3 emissions are important for a full understanding of climate change related risks, Scope 3 emissions data is not currently widely available, has poor data quality, and low overall data comparability across companies.

² Each company in the Index is assigned an ESG rating using the FTSE Russell ESG ratings. Companies with higher ESG ratings will have their weights increased, while companies with lower ESG ratings will have their weights decreased.

³ Industry (and stock) weight positions will change versus the Parent Index due to the application of the exclusion criteria and also stock price movements.

	<p>levels will also vary between annual rebalances when the sustainability aims are implemented. This is due to stock price movements and therefore changes to the weighting of companies in the Index.</p> <p>The Index will be rebalanced on a quarterly basis (i.e. in March, June, September and December) in order to account for the UNGC exclusions criteria described above along with changes to the Parent Index. Each company's carbon footprint, fossil fuel reserves exposure and FTSE Russell ESG rating is assessed on an annual basis.</p> <p>The Index is net of tax that applies to sub-funds of UK domiciled open-ended investment companies. The Index uses declared dividends adjusted by the withholding tax rates applicable to dividends received by such sub-funds.</p> <p>The information above is a summary of the Index methodology. Investors may obtain a description of the Index rules and the latest available information on closing levels and constituents from the website of the Index provider as follows:</p> <p>Closing levels: www.ftserussell.com and choose Indexes / Resources / Historic Index Values and then choose FTSE Developed ESG Low Carbon Select Index.</p> <p>Constituents: www.ftserussell.com and choose Indexes / Resources / Constituents and Weights then choose FTSE Developed ESG Low Carbon Select Index.</p>
<p>Sustainability-related Pre-contractual Disclosures</p>	<p>This Fund does not have a UK sustainable investment label, as defined by the FCA's Sustainability Disclosure Requirements ('SDR'), although it has some sustainability characteristics further described below.</p> <p>Sustainable investment labels help investors find products that have a specific sustainability goal. The use of sustainability labels is voluntary and requires funds to meet specific requirements set out by the FCA. The Fund does not have a UK sustainable investment label since the Index it tracks has not been designed to meet the FCA's specific label requirements.</p> <p>While the Fund does not pursue specific sustainability goals as defined by SDR, it does consider several sustainability characteristics as part of its investment approach, as further described here and in the 'About the Index' section above.</p> <p>Sustainability characteristics</p> <p>By investing in all of the companies that make up Index in the same, or very similar, proportions in which they are included in the Index, the Fund promotes the following sustainability characteristics:</p> <ul style="list-style-type: none"> • At the point of the annual rebalance, it aims to achieve an overall reduction in carbon emissions intensity and fossil fuel reserves being 50% less than average carbon emissions and fossil fuel reserves of the assets represented by the Parent Index; and • At the point of the annual rebalance, it aims to achieve an overall improvement in the average FTSE Russell ESG rating being 20% higher than the average of the assets represented by the Parent Index. <p>Individual companies held may have a larger or smaller reduction in carbon emission intensity and fossil fuel reserves, or improvement in FTSE Russell ESG rating, than the overall aims detailed above. At each annual rebalance the ACD will review the Index to ensure the sustainability characteristics of the Index have been met. The limitations on industry divergence, stock weightings and country neutrality, further described in the 'About the Index' section, may prevent the Index from tilting constituent weighting to the extent required to fully meet its carbon emissions intensity, fossil fuel reserves and ESG ratings aims outlined above. In addition, the aforementioned levels will also vary over time between annual rebalances when the sustainability aims are implemented, due to stock price and therefore weighting movements in the Index.</p> <p>Sustainability metrics</p> <p>To demonstrate the outcome of the Fund's sustainability characteristics, the following metrics will be published in the Fund's annual SDR product report and the consumer facing disclosure document:</p> <ul style="list-style-type: none"> • weighted average carbon intensity of the Fund relative to the weighted average carbon intensity of the Parent Index; • weighted average fossil fuel reserves of the Fund relative to the weighted average fossil fuel reserves of the Parent Index; and • weighted average FTSE Russell ESG Score of the Fund relative to the weighted average FTSE Russell ESG Score of the Parent Index.

	As weighted average figures, these metrics sum the relevant data of each holding, weighted by the allocation to those holdings, across the Fund or the Parent Index, as the case may be. The calculation excludes any assets for which data is unavailable. Reported metrics are dependent on the chosen vendor's data quality and availability of metrics as at the reporting date. Full details regarding data coverage will be disclosed in the ACD's regular reporting.

Fund Name	European Index Fund*
Investment Objective	The Fund aims to track the performance of the FTSE Developed Europe excluding UK Index (the "Index") before the deduction of charges and tax.
Investment Policy	<p>To achieve its investment objective, the Fund will invest directly in shares (equities) of companies that make up the FTSE Developed Europe excluding UK Index. ♦</p> <p>The Fund may also invest in the following assets which are not part of the Index:</p> <ul style="list-style-type: none"> • cash to manage day-to-day cash flow requirements; • units or shares of collective investment schemes, including collective investment schemes managed or operated by the HSBC Group in order to manage day-to-day cash flow requirements; • equity related securities such as American Depositary Receipts and Global Depositary Receipts (which are certificates typically issued by a bank or trust company evidencing ownership of shares of a non-US issuer) in order to achieve exposure to a stock instead of using a physical security. <p>The Fund may invest in derivatives for efficient portfolio management, including hedging, which means investment techniques that aim to reduce risks, reduce costs or generate growth and income. The Fund does not intend to use derivatives extensively and their use will be consistent with the risk profile of the Fund.</p> <p>The Fund may sometimes not invest in all of the companies that make up the Index. This is determined by the Investment Manager in situations of poor liquidity, excessive cost to the Fund or where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound.</p>
Investment Strategy	<p>Use of benchmark</p> <p>The Fund will invest in all of the companies that make up the FTSE Developed Europe excluding UK Index and in the same or very similar proportions in which they are included in the Index.</p> <p>However, from time to time, the Fund may not hold all of the companies that make up the Index in order to:</p> <ul style="list-style-type: none"> • manage the Fund's transaction costs; • maintain the Fund's characteristics during different market environments and differing levels of asset availability (i.e. poor liquidity); or • where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section. <p>The Fund's performance is measured against the Index, because the Fund intends to track the performance of the Index.</p> <p>The Fund uses a tracking error to measure the consistency between the Fund's performance and the performance of the Index. In general, the lower the tracking error, the more consistent the Fund's performance is relative to the Index, and vice-versa.</p> <p>The anticipated tracking error for the Fund is expected to be up to 0.10%.</p> <p>The anticipated tracking error for the Fund is not a guide to future performance. The difference in timing between the Fund Valuation (12 noon UK time) and the Index calculation (close of business) can impact on the tracking error.</p> <p>Use of Derivatives</p> <p>The Fund may invest in exchange traded and over-the-counter derivatives in accordance with Part C and Part D of Appendix 3. In particular, exchange traded futures maybe used with the aim of generating returns that are consistent with the Index in respect of dividends and cash flowing into the Fund.</p>
About the Index	<p>The FTSE Developed Europe excluding UK Index is part of a range of indices designed to help European investors benchmark their international investments. The Index comprises large and mid-cap stocks providing coverage of the developed markets in Europe excluding the UK. The Index is derived from the FTSE Global Equity Index Series (GEIS), which covers around 98% of the world's investable market capitalisation.</p> <p>The Index rebalances quarterly on the third Friday of September, December, March and June.</p> <p>Investors may obtain a brief description of the Index rules and the latest available information on closing levels and constituents from the website of the Index provider as follows:</p>

	Closing levels: www.ftserussell.com and choose Indexes / Equity / Global Equity Index Series inc All-World, Emerging (GEIS) and then choose FTSE Developed Europe ex UK. Constituents: www.ftserussell.com and choose Indexes / Resources / Constituents and Weights / FTSE Global Equity Index Series and then choose FTSE Developed Europe ex UK.

Fund Name	MSCI Emerging Markets Equity Index Fund****
Investment Objective	The Fund aims to track the performance of the MSCI <i>Emerging Markets</i> Thermal Coal Screened Select Index (the "Index") before the deduction of charges.
Investment Policy	<p>To achieve its investment objective, the Fund will invest directly in shares (<i>equities</i>) of companies that make up the Index. ♦</p> <p>The Fund may also invest in the following assets which are not part of the Index:</p> <ul style="list-style-type: none"> • cash to manage day-to-day cash flow requirements; • units or shares of <i>collective investment schemes</i>, including <i>collective investment schemes</i> managed or operated by the <i>HSBC Group</i> in order to manage day-to-day cash flow requirements; • <i>equity</i> related securities such as American <i>Depositary Receipts</i> and Global <i>Depositary Receipts</i> (which are certificates typically issued by a bank or trust company evidencing ownership of shares of a non-US issuer) in order to achieve exposure to a stock instead of using a physical security. <p>The Fund may use <i>derivatives</i> for <i>efficient portfolio management</i> including <i>hedging</i>, which means investment techniques that aim to reduce risks, reduce costs or generate growth and <i>income</i>. The Fund's use of <i>derivatives</i> will be consistent with the risk profile of the Fund.</p> <p>The Fund may sometimes not invest in all of the companies that make up the Index in circumstances where the ACD determines that this is appropriate for reasons of poor <i>liquidity</i>, excessive cost to the Fund or where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound.</p>
Investment Strategy	<p>Use of benchmark</p> <p>The Fund will invest in all of the companies that make up the Index and in the same or very similar proportions in which they are included in the Index.</p> <p>However, from time to time, the Fund may not hold all of the companies that make up the Index in order to:</p> <ul style="list-style-type: none"> • manage the Fund's transaction costs; • maintain the Fund's characteristics during different market environments and differing levels of asset availability (i.e. poor <i>liquidity</i>); or • maintain the Fund's characteristics when the Fund is not able to invest directly in companies based in certain countries that make up the Index; or • where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section. <p>The <i>collective investment schemes</i> that the Fund is permitted to invest into may have different characteristics to those of the Index.</p> <p>The Fund's performance is measured against the Index, because the Fund intends to track the performance of the Index.</p> <p>The Fund uses a <i>tracking error</i> to measure the consistency between the Fund's performance and the performance of the Index. In general, the lower the <i>tracking error</i>, the more consistent the Fund's performance is relative to the Index, and vice-versa.</p> <p>The anticipated <i>tracking error</i> for the Fund is expected to be up to 0.40%.</p> <p>The anticipated <i>tracking error</i> for the Fund is not a guide to future performance. The difference in timing between the Fund Valuation (12 noon UK time) and the Index calculation (close of business) can impact on the <i>tracking error</i>.</p> <p>Use of derivatives</p> <p>The Fund may invest in <i>exchange traded</i> and <i>over-the-counter derivatives</i> in accordance with Part C and Part D of Appendix 3. In particular, <i>exchange traded futures</i> may be used to increase or reduce exposure to companies that make up the Index. <i>Contracts for differences</i> may be used to gain exposure to companies that make up the Index. The Fund may invest up to 10% of its assets in <i>contracts for differences</i>, however such investments are not generally expected to exceed 5% of its assets. The <i>derivatives</i> that the Fund is permitted to invest into may have different characteristics to those of the Index.</p>

About the Index	<p>The Index is comprised of shares (equities) of the large and medium sized publicly traded companies across emerging market countries. The Index includes all the constituents of the MSCI Emerging Markets Index (the 'Parent Index') but excludes shares in companies that have 2.5% or more of their revenue generated from thermal coal mining or thermal coal-based power generation. Companies that are constituents of the Parent Index will also be excluded from the Index where data is unavailable to assess the revenue that such companies generate from thermal coal mining or thermal coal-based power generation.</p> <p>Due to the exclusions criteria referred to above, the Index will have a smaller number of constituents compared to the Parent Index and therefore, is likely to exhibit a different performance and risk profile.</p> <p>The Index is weighted based on the market capitalisation of constituents and rebalances on a quarterly basis, in March, June, September and November.</p> <p>The Index is net of tax that applies to non-resident institutional investors that do not benefit from double taxation treaties, this may differ from the actual rate of tax that sub-funds of UK domiciled open-ended investment companies may be subject to, and they may receive beneficial rates. The Index incorporates declared dividends adjusted by the withholding tax rates applicable to dividends received by such sub-funds.</p> <p>The information above is a summary of the Index methodology. Investors may obtain a description of the Index rules and the latest available information on closing levels and constituents from the website of the Index provider as follows:</p> <p>https://www.msci.com/index-methodology</p> <p>https://www.msci.com/constituents</p>

Fund Name	S&P 500 Equal Weight Equity Index Fund**
Investment Objective	The Fund aims to track the performance of the S&P 500 Equal Weight Thermal Coal Screened Index (the "Index") before the deduction of charges.
Investment Policy	<p>To achieve its investment objective, the Fund will invest directly in shares (equities) of companies that make up the S&P 500 Equal Weight Thermal Coal Screened Index. ♦</p> <p>The Fund may also invest in the following assets which are not part of the Index:</p> <ul style="list-style-type: none"> • cash to manage day-to-day cash flow requirements; • units or shares of collective investment schemes, including collective investment schemes managed or operated by the HSBC Group in order to manage day-to-day cash flow requirements; • equity related securities such as American Depositary Receipts and Global Depositary Receipts (which are certificates typically issued by a bank or trust company evidencing ownership of shares of a non-US issuer) in order to achieve exposure to a stock instead of using a physical security. <p>The Fund may use derivatives for efficient portfolio management including hedging, which means investment techniques that aim to reduce risks, reduce costs or generate growth and income. The Fund does not intend to use derivatives extensively and their use will be consistent with the risk profile of the Fund.</p> <p>The Fund may sometimes not invest in all of the companies that make up the Index in circumstances where the ACD determines that this is appropriate for reasons of poor liquidity, excessive cost to the Fund or where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section.</p>
Investment Strategy	<p>Use of benchmark</p> <p>The Fund will invest in all of the companies that make up the Index and in the same or very similar proportions in which they are included in the Index.</p> <p>However, from time to time, the Fund may not hold all of the companies that make up the Index in order to:</p> <ul style="list-style-type: none"> • manage the Fund's transaction costs; • maintain the Fund's characteristics during different market environments and differing levels of asset availability (i.e. poor liquidity); or • where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section. <p>The collective investment schemes that the Fund is permitted to invest into may have different characteristics to those of the Index.</p> <p>The Fund's performance is measured against the Index, because the Fund intends to track the performance of the Index.</p> <p>The Fund uses a tracking error to measure the consistency between the Fund's performance and the performance of the Index. In general, the lower the tracking error, the more consistent the Fund's performance is relative to the Index, and vice-versa.</p> <p>The anticipated tracking error for the Fund is expected to be up to 0.10%.</p> <p>The anticipated tracking error for the Fund is not a guide to future performance. The difference in timing between the Fund Valuation (12 noon UK time) and the Index calculation (close of business) can impact on the tracking error.</p> <p>Use of derivatives</p> <p>The Fund may invest in exchange traded and over-the-counter derivatives in accordance with Part C and Part D of Appendix 3. In particular, exchange traded futures may be used to increase or reduce exposure to companies that make up the Index. Contracts for differences may be used to gain exposure to companies that make up the Index. The Fund may invest up to 10% of its assets in contracts for differences, however such investments are not generally expected to exceed 5% of its assets. The derivatives that the Fund is permitted to invest into may have different characteristics to those of the Index.</p>

About the Index	<p>The Index is comprised of shares (equities) of the largest sized publicly traded companies from US markets. The Index includes all the constituents of the S&P 500 Index (the 'Parent Index') but excludes shares in companies that have more than minimal exposure to thermal coal mining or thermal coal electricity generation activities. Companies that are constituents of the Parent Index will also be excluded from the Index where data is unavailable to assess the revenue that such companies generate from thermal coal mining or thermal coal electricity generation.</p> <p>At each rebalance date, all Index constituents are weighted equally. This differs from the Parent Index for which index constituents are weighted by market capitalisation. Between index rebalances, constituent weightings will fluctuate due to price movements of the shares of the companies.</p> <p>Due to the exclusions referred to above, the Index will have a smaller number of constituents compared to the Parent Index and therefore, is likely to exhibit a different performance and risk profile.</p> <p>The Index rebalances on a quarterly basis, on the third Friday of the month in March, June, September and December.</p> <p>The Index is net of tax that applies to sub-funds of UK domiciled open-ended investment companies. The Index incorporates declared dividends adjusted by the withholding tax rates applicable to dividends received by such sub-funds.</p> <p>The information above is a summary of the Index methodology. Fund Name	Sterling Corporate Bond Index Fund***
Investment Objective	The Fund aims to track the performance of the Markit iBoxx GBP Non-Gilts Index (the "Index") before the deduction of charges and tax.
Investment Policy	<p>To achieve its investment objective, the Fund will invest in a representative sample of the sterling denominated bonds that make up the Markit iBoxx GBP Non-Gilts Index. ♦</p> <p>The bonds that make up the Index are investment grade and issued by public and private corporations, non-United Kingdom Government and government-backed entities. Certain covered bonds and other collateralised bonds are also included in the Index.</p> <p>The Fund may also invest in the following assets which are not part of the Index:</p> <p>cash to manage day-to-day cash flow requirements;</p> <ul style="list-style-type: none"> • units or shares of collective investment schemes, including collective investment schemes managed or operated by the HSBC Group in order to manage day-to-day cash flow requirements; • sterling denominated bonds that are no longer or not yet part of the Markit iBoxx GBP Non-Gilts Index, as well as bonds issued by the government of the United Kingdom. The Fund does not intend to use bonds that are not part of the Index extensively and their use will be consistent with the risk profile of the Fund. <p>The Fund may use derivatives for efficient portfolio management, including hedging, which means investment techniques that aim to reduce risks, reduce costs or generate growth and income. The Fund does not intend to use derivatives extensively and their use will be consistent with the risk profile of the Fund.</p>
Investment Strategy	<p>Use of benchmark</p> <p>The Fund will invest in a representative sample of the constituents of the Markit iBoxx GBP Non-Gilts Index and possibly of some securities that are not included in the Index that are designed to help the Fund track the performance of the Index. This is known as optimised replication approach.</p> <p>This approach aims to construct a portfolio that closely matches the characteristics of the Index but which:</p> <ul style="list-style-type: none"> • provides flexibility to manage the Fund's transaction costs; • provides flexibility to maintain the Fund's characteristics during different market environments and differing levels of asset availability (i.e. poor liquidity); or • where there are investment restrictions due to regulations, the ACD's banned weapons policy or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section. <p>The Fund's performance is measured against the Index, because the Fund intends to track the performance of the Index.</p> <p>The Fund uses a tracking error to measure the consistency between the Fund's performance and the performance of the Index. In general, the lower the tracking error, the more consistent the Fund's performance is relative to the Index, and vice-versa.</p> <p>The anticipated tracking error for the Fund is expected to be up to 0.50%.</p> <p>The anticipated tracking error for the Fund is not a guide to future performance. The difference in timing between the Fund Valuation (12 noon UK time) and the Index calculation (close of business) can impact on the tracking error.</p> <p>Use of derivatives</p> <p>The Fund may invest in exchange traded and over-the-counter derivatives in accordance with Part C and Part D of Appendix 3. In particular, exchange traded futures maybe used with the aim of generating returns that are consistent with the Index in respect of cash flowing into the Fund or for hedging against market movements.</p>

About the Index	<p>The Markit iBoxx GBP Index Series is designed to reflect the performance of sterling denominated investment grade bonds. The Index rules aim to offer a broad coverage of the sterling bond market whilst upholding minimum standards of investability and liquidity. The indices are an integral part of the global Markit iBoxx Index Series, which provide the market place with accurate and objective benchmarks by which to assess the performance of bond markets and investments.</p> <p>The Markit iBoxx GBP Non-Gilts Index comprises fixed rate sterling denominated bonds from all over the world with all outstanding terms greater than one year. The bonds that make up the Index are issued by public and private corporations, entities that have government backing, including supranationals and municipal governments and national governments, other than the government of the United Kingdom. Certain covered bonds and other collateralised bonds are also included in the Index.</p> <p>The Index is rebalanced monthly on the last business day of the month after the close of business.</p> <p>Investors may obtain a brief description of the Index rules and the latest available information on closing levels and constituents from the website of the Index provider as follows: https://www.markit.com/Documentation/Product/IBoxx and then choose iBoxx Indices - UCITS Funds to see the rules and the closing levels. Select iBoxx £ Non-Gilts from the list to access its latest constituents.</p>

Fund Name	UK Gilt Index Fund*
Investment Objective	The Fund aims to track the performance of the FTSE Actuaries UK Conventional Gilts All Stocks Index (the "Index") before the deduction of charges and tax.
Investment Policy	<p>To achieve its investment objective, the Fund will invest in gilts that make up the FTSE Actuaries UK Conventional Gilts All Stocks Index. ♦</p> <p>The Fund may also invest in the following assets which are not part of the Index:</p> <ul style="list-style-type: none"> • cash to manage day-to-day cash flow requirements; and • units or shares of collective investment schemes, including collective investment schemes managed or operated by the HSBC Group in order to manage day-to-day cash flow requirements. <p>The Fund may invest in derivatives for efficient portfolio management, including hedging, which means investment techniques that aim to reduce risks, reduce costs or generate growth and income. The Fund does not intend to use derivatives instrument extensively and their use will be consistent with the risk profile of the Fund.</p> <p>From time to time, the Fund may not invest in all of the securities in the Index.</p>
Investment Strategy	<p>Use of benchmark</p> <p>The Fund will invest in all of the gilts that make up the FTSE Actuaries UK Conventional Gilts All Stocks index in the same or very similar proportions in which they are included in the Index.</p> <p>However, from time to time, the Fund may not hold all of the securities that make up the Index in order to:</p> <ul style="list-style-type: none"> • manage the Fund's transaction costs; • maintain the Fund's characteristics during different market environments and differing levels of asset availability (i.e. poor liquidity); or • where there are investment restrictions due to regulations or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section. <p>The Fund's performance is measured against the Index, because the Fund intends to track the performance of the Index.</p> <p>The Fund uses a tracking error to measure the consistency between the Fund's performance and the performance of the Index. In general, the lower the tracking error, the more consistent the Fund's performance is relative to the Index, and vice-versa.</p> <p>The anticipated tracking error for the Fund is expected to be up to 0.10%.</p> <p>The anticipated tracking error for the Fund is not a guide to future performance. The difference in timing between the Fund Valuation (12 noon UK time) and the Index calculation (close of business) can impact on the tracking error.</p> <p>Use of derivatives</p> <p>The Fund may invest in exchange traded and over-the-counter derivatives in accordance with Part C and Part D of Appendix 3. In particular, exchange traded futures maybe used with the aim of generating returns that are consistent with the Index in respect of income and cash flowing into the Fund.</p>
About the Index	<p>The FTSE Actuaries UK Gilts indices are among the industry's most widely-used performance benchmarks for the UK government bond market. They are sanctioned by the UK Actuaries and used for benchmarking pension benefits and obligations and mutual funds. Over £50 billion in fixed income assets are benchmarked to the FTSE Actuaries UK Gilts Index Series. FTSE provides index series for conventional gilts and index-linked gilts and summary tables are published daily in the Financial Times.</p> <p>The Index comprises gilts with all outstanding terms. The Index is one of 13 sub-indices within the conventional gilts series.</p> <p>The Index does not have a regular rebalance schedule. The end of month constituent weights will be published by FTSE one month in arrears.</p>

	<p>Investors may obtain a brief description of the Index rules and the latest available information on closing levels and constituents from the website of the Index provider as follows:</p> <p>Closing levels: www.ftserussell.com and choose Indexes / Equity / FTSE Actuaries UK Gilts Index Series and then choose FTSE Actuaries UK Conventional Gilts All Stocks Index.</p> <p>Constituents: www.ftserussell.com and choose Indexes / Resources / Constituents and Weights / Fixed Income and then choose the FTSE Actuaries UK Conventional Gilts All Stocks Index.</p>

Fund Name	USA Lower Carbon ESG Tilt Equity Index Fund*
Investment Objective	The Fund aims to track the performance of the FTSE USA ESG Low Carbon Select Index (the "Index") before the deduction of charges.
Investment Policy	<p>To achieve its investment objective, the Fund will invest directly in shares (equities) of companies that make up the FTSE USA ESG Low Carbon Select Index. ♦</p> <p>The Fund may also invest in the following assets which are not part of the Index:</p> <ul style="list-style-type: none"> •cash to manage day-to-day cash flow requirements; •units or shares of collective investment schemes, including collective investment schemes managed or operated by the HSBC Group in order to manage day-to-day cash flow requirements; •equity related securities such as American Depository Receipts and Global Depository Receipts (which are certificates typically issued by a bank or trust company evidencing ownership of shares of a non-US issuer) in order to achieve exposure to a stock instead of using a physical security. <p>The Fund may use derivatives for efficient portfolio management including hedging, which means investment techniques that aim to reduce risks, reduce costs or generate growth and income. The Fund does not intend to use derivatives extensively and their use will be consistent with the risk profile of the Fund.</p> <p>The Fund may sometimes not invest in all of the companies that make up the Index in circumstances where the ACD determines that this is appropriate for reasons of poor liquidity, excessive cost to the Fund or where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound.</p>
Investment Strategy	<p>Use of benchmark</p> <p>The Fund will invest in all of the companies that make up the FTSE USA ESG Low Carbon Select Index and in the same or very similar proportions in which they are included in the Index.</p> <p>However, from time to time, the Fund may not hold all of the companies that make up the Index in order to:</p> <ul style="list-style-type: none"> •manage the Fund's transaction costs; •maintain the Fund's characteristics during different market environments and differing levels of asset availability (i.e. poor liquidity); or •where there are investment restrictions due to regulations or the ACD's banned weapons policy or other investment restrictions to which the ACD is bound. The investment restrictions are detailed in Part B of the Investment Powers and Restrictions section. <p>The collective investment schemes that the Fund is permitted to invest into may have different characteristics to those of the Index.</p> <p>The Fund's performance is measured against the Index, because the Fund intends to track the performance of the Index.</p> <p>The Fund uses a tracking error to measure the consistency between the Fund's performance and the performance of the Index. In general, the lower the tracking error, the more consistent the Fund's performance is relative to the Index, and vice-versa.</p> <p>The anticipated tracking error for the Fund is expected to be up to 0.10%.</p> <p>The anticipated tracking error for the Fund is not a guide to future performance. The difference in timing between the Fund Valuation (12 noon UK time) and the Index calculation (close of business) can impact on the tracking error.</p> <p>Use of derivatives</p> <p>The Fund may invest in exchange traded and over-the-counter derivatives in accordance with Part C and Part D of Appendix 3. In particular, exchange traded futures may be used to increase or reduce exposure to companies that make up the Index. Contracts for differences may be used to gain exposure to companies that make up the Index. The Fund may invest up to 10% of its assets in contracts for differences, however such investments are not generally expected to exceed 5% of its assets. The derivatives that the Fund is permitted to invest into may have different characteristics to those of the Index.</p>
About the Index	The FTSE USA ESG Low Carbon Select Index is comprised of mid and large cap stocks from US markets. The Index seeks to achieve a reduction in carbon emissions and fossil fuel reserves

	<p>exposure and an improvement of the FTSE Russell ESG rating against that of the FTSE USA Index (the 'Parent Index').</p> <p>The Index achieves this in the following ways:</p> <ol style="list-style-type: none"> on an annual basis in September, stocks are removed based on sustainability exclusionary criteria. The following types of companies are removed from the Index on an annual basis due to the sustainability exclusionary criteria. For some of the criteria companies are excluded if they have any involvement in the excluded activity, whereas for some of the criteria a threshold applies, for example companies are excluded if over 10% of their revenues are generated from the excluded activity: <ol style="list-style-type: none"> companies identified as involved in providing core weapons systems, or components/services that are considered tailor-made and essential for banned and controversial weapons (including anti-personnel mines, nuclear weapons, cluster weapons, biological and chemical weapons, depleted uranium, and white phosphorus munitions); companies identified as involved in providing tailor-made products and/or services that support military weapons or companies manufacturing military weapon systems and/or integral, tailor-made components for conventional military weapons; companies identified as involved in the manufacturing of tobacco products; companies identified as involved in the distribution or retail sales of tobacco products; companies identified as involved in producing adult entertainment and/or owning/operating adult entertainment establishments; companies identified as involved in distributing adult entertainment materials; companies identified as involved in owning and/or operating a gambling establishment; companies identified as involved in manufacturing specialized equipment used exclusively for gambling; companies identified as involved in providing supporting products/services to gambling operations; companies identified as involved with thermal coal extraction; companies identified as involved with electricity generation from thermal coal; companies identified as involved with electricity generation from nuclear power; and companies identified as involved in controversies related to the United Nations Global Compact (UNGC) principles. The principles are classified into four categories: human rights, labour, environment and anti-corruption; on an annual basis in September, the remaining companies in the Parent Index have their weightings tilted according to carbon emissions intensity⁴, fossil fuel reserves intensity and FTSE Russell ESG ratings⁵ based criteria. Tilting is the process of changing constituent weightings to increase or decrease their size in the Index. FTSE Russell ESG ratings are a measure of the overall quality of a company's management of issues associated with three ESG pillars, being environmental, social, and governance, whereby each pillar has several themes against which companies are assessed. These themes range from climate change to health and safety and tax transparency. A number of underlying indicators are used to determine the overall FTSE Russell ESG rating. The Index also aims to limit industry divergence against the Parent Index and to maintain maximum stock weights of 10% and minimum stock weights of 0.5 bps⁶; and on a quarterly basis, removing companies considered to be non-compliant with one or more of the UNGC principles. <p>Due to the rating criteria and exclusions referred to above, the Index will have a smaller number of constituents compared to the Parent Index and therefore, is likely to exhibit a different performance and risk profile. Furthermore, as some of the exclusions are applied after the annual rebalance, the Index is unlikely to maintain the industry divergence, and stock weight limitations described above and the level of FTSE Russell ESG rating improvement, carbon intensity reduction and fossil fuel</p>
--	--

⁴ Carbon emissions are measured as Greenhouse Gas (GHG) Protocol Scope 1 and 2 emissions and intensity is calculated as operational carbon emissions in metric tons per million dollars revenue. GHG Protocol Scope 3 emissions are not considered in the calculation. Whilst it is recognised that Scope 3 emissions are important for a full understanding of climate change related risks, Scope 3 emissions data is not currently widely available, has poor data quality, and low overall data comparability across companies.

⁵ Each company in the Index is assigned an ESG rating using the FTSE Russell ESG ratings. Companies with higher ESG ratings will have their weights increased, while companies with lower ESG ratings will have their weights decreased.

⁶ Industry (and stock) weight positions will change versus the Parent Index due to the application of the exclusion criteria and also stock price movements.

	<p>reserves exposure may change from the levels initially set. All of the aforementioned levels will also vary between annual rebalances when the sustainability aims are implemented. This is due to stock price movements and therefore changes to the weighting of companies in the Index.</p> <p>The Index will be rebalanced on a quarterly basis (i.e. in March, June, September and December) in order to account for the UNGC exclusions criteria described above along with changes to the Parent Index. Each company's carbon footprint, fossil fuel reserves exposure and FTSE Russell ESG rating is assessed on an annual basis.</p> <p>The Index is net of tax that applies to sub-funds of UK domiciled open-ended investment companies. The Index incorporates declared dividends adjusted by the withholding tax rates applicable to dividends received by such sub-funds.</p> <p>The information above is a summary of the Index methodology. Investors may obtain a description of the Index rules and the latest available information on closing levels and constituents from the website of the Index provider as follows:</p> <p>Closing levels: www.ftserussell.com and choose Indexes / Resources / Historic Index Values and then choose FTSE USA ESG Low Carbon Select Index.</p> <p>Constituents: www.ftserussell.com and choose Indexes / Resources / Constituents and Weights then choose FTSE USA ESG Low Carbon Select Index.</p>
<u>Sustainability-related Pre-contractual Disclosures</u>	<p>This Fund does not have a UK sustainable investment label, as defined by the FCA's Sustainability Disclosure Requirements ('SDR'), although it has some sustainability characteristics further described below.</p> <p>Sustainable investment labels help investors find products that have a specific sustainability goal. The use of sustainability labels is voluntary and requires funds to meet specific requirements set out by the FCA. The Fund does not have a UK sustainable investment label since the Index it tracks has not been designed to meet the FCA's specific label requirements.</p> <p>While the Fund does not pursue specific sustainability goals as defined by SDR, it does consider several sustainability characteristics as part of its investment approach, as further described here and in the 'About the Index' section above.</p> <p>Sustainability characteristics</p> <p>By investing in all of the companies that make up Index in the same, or very similar, proportions in which they are included in the Index, the Fund promotes the following sustainability characteristics:</p> <ul style="list-style-type: none"> • At the point of the annual rebalance, it aims to achieve an overall reduction in carbon emissions intensity and fossil fuel reserves being 50% less than average carbon emissions and fossil fuel reserves of the assets represented by the Parent Index; and • At the point of the annual rebalance, it aims to achieve an overall improvement in the average FTSE Russell ESG rating being 20% higher than the average of the assets represented by the Parent Index. <p>Individual companies held may have a larger or smaller reduction in carbon emission intensity and fossil fuel reserves, or improvement in FTSE Russell ESG rating, than the overall aims detailed above.</p> <p>At each annual rebalance the ACD will review the Index to ensure the sustainability characteristics of the Index have been met. The limitations on industry divergence and stock weightings, further described in the 'About the Index' section, may prevent the Index from tilting constituent weighting to the extent required to fully meet its carbon emissions intensity, fossil fuel reserves and ESG ratings aims outlined above. In addition, the aforementioned levels will also vary over time between annual rebalances when the sustainability aims are implemented, due to stock price and therefore weighting movements in the Index.</p> <p>Sustainability metrics</p> <p>To demonstrate the outcome of the Fund's sustainability characteristics, the following metrics will be published in the Fund's annual SDR product report and the consumer facing disclosure document.</p> <ul style="list-style-type: none"> • weighted average carbon intensity of the Fund relative to the weighted average carbon intensity of the Parent Index; • weighted average fossil fuel reserves of the Fund relative to the weighted average fossil fuel reserves of the Parent Index; and

	<ul style="list-style-type: none"> weighted average FTSE Russell ESG Score of the Fund relative to the weighted average FTSE Russell ESG Score of the Parent Index. <p>As weighted average figures, these metrics sum the relevant data of each holding, weighted by the allocation to those holdings, across the Fund or the Parent Index, as the case may be. The calculation excludes any assets for which data is unavailable. Reported metrics are dependent on the chosen vendor's data quality and availability of metrics as at the reporting date. Full details regarding data coverage will be disclosed in the ACD's regular reporting.</p>

MSCI or its affiliates are the licensors of certain trademarks, service marks and trade names and of the MSCI indexes which are determined, composed and calculated by MSCI without regard to this Fund or the issuer or owners of this Fund or any other person or entity. None of the MSCI Parties has any obligation to take the needs of the issuer or owners of this Fund or any other person or entity into consideration in determining, composing or calculating the MSCI indexes. None of the MSCI Parties is responsible for or has participated in the determination of the timing of, prices at, or quantities of this Fund to be issued or in the determination or calculation of the equation by or the consideration into which this Fund is redeemable. Further, none of the MSCI Parties has any obligation or liability to the issuer or owners of this Fund or any other person or entity in connection with the administration, marketing or offering of this Fund. Although MSCI shall obtain information for inclusion in or for use in the calculation of the MSCI indices from sources that MSCI considers reliable, none of the MSCI Parties warrants or guarantees the originality, accuracy and/or the completeness of any MSCI index or any data included therein. None of the MSCI Parties makes any warranty, express or implied, as to results to be obtained by the issuer of the Fund, owners of the Fund, or any other person or entity, from the use of any MSCI index or any data included therein. None of the MSCI Parties shall have any liability for any errors, omissions or interruptions of or in connection with any MSCI index or any data included therein. Further, none of the MSCI Parties makes any express or implied warranties of any kind, and the MSCI Parties hereby expressly disclaim all warranties of merchantability and fitness for a particular purpose, with respect to each MSCI index and any data included therein. Without limiting any of the foregoing, in no event shall any of the MSCI Parties have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages. No purchaser, seller or holder of this security, product or fund, or any other person or entity, should use or refer to any MSCI trade name, trademark or service mark to sponsor, endorse, market or promote this security without first contacting MSCI to determine whether MSCI's permission is required. Under no circumstances may any person or entity claim any affiliation with MSCI without the prior written permission of MSCI.

SRRI Rating

- † The SRRI rating is based on price volatility over the last five years and is an indicator of absolute risk. An SRRI is scored on a scale of 1 to 7. A Fund that scores an SRRI at the lower end of the scale would typically mean lower risk and lower returns, whereas a Fund that scores an SRRI at the higher end of the scale would typically mean a higher risk and higher returns. Historical data may not be a reliable indication for the future.

The SRRI of the above Funds may change as a result of changes to the Fund's investment objective, investment policy or its investment strategy. Prior to making any change to the investment objective or investment policy the ACD and Depositary shall determine whether the change is 'fundamental' or 'significant', as defined in the FCA Rules. In the event of a change to the investment objective or the investment policy the ACD is required to give Shareholders due notice of such proposal prior to its implementation in accordance with the FCA Rules.

A change that is to be treated as a significant change will require the ACD to contact the Shareholders on the Register a minimum of 60 days prior to making the change, whereas a fundamental change will require the prior approval of Shareholders at a General Meeting.

The ACD is not, however, required to give prior notice to Shareholders of any change to the investment strategy of a Fund, which it may implement from time to time as market conditions change, provided that any such change is, and remains, consistent with the investment objective and the investment policy of the Fund. In the event that the ACD does not provide prior notification to Shareholders, it will publish details of any such change in the half yearly report and accounts.

Where the SRRI of the Fund changes as a result of activity outside of the investment manager or ACD's control, for example through movement in market volatility, this will have some effect on the SRRI of a Fund. In this circumstance the ACD will publish details of such change in the Company's Report and Accounts.

- (1) The Retail Income Share Class for these Funds is only open for investment in an Individual Savings Account (ISA) through an HSBC ISA Account Manager or otherwise at the discretion of the ACD.

♦ The European Benchmarks Regulation

The Benchmark Regulation ('BMR') was published in the Official Journal of the EU on 29 June 2016 and entered into force on 30 June 2016. It is directly applicable law across the EU. The majority of its provisions applied from 1 January 2018.

The BMR applies principally to administrators and also, in some respects, to contributors and certain users of benchmarks which in certain circumstances can include investment funds such as the sub-funds of the Company.

For a Benchmark to be used by an EU/EEA supervised entity which until 31 December 2020 included sub-funds of the Company, the BMR will among other things:

- (i) require UK-based benchmark administrators to be authorised or registered by the FCA or, if located outside the UK in a Member State by the Member-State relevant competent authority.
- (ii) require benchmark administrators not located in a Member-State, to be approved via recognition or endorsement by the FCA or another Member-State competent authority, unless an equivalence decision has been made by the European Commission on the jurisdictions where the benchmark administrators are located. Indeed, the European Commission can declare the regulatory and supervisory frameworks in certain jurisdictions equivalent under Article 30 of the BMR. Third country benchmark administrators and benchmarks falling in scope of those equivalence decisions are not required to seek further approval to a Member-State competent authority. Administrators must submit their application by 31 December 2021.

The BMR will make significant changes to the way in which benchmarks falling within its scope are governed (including reforms of governance and control arrangements, obligations in relation to input data, certain transparency and record-keeping requirements and detailed codes of conduct for contributors); and (ii) prevent certain uses of benchmarks provided by unauthorised administrators by supervised entities in the UK.

Potential effects of BMR include (among other things): an index which is a benchmark could not be used by a UK Fund in certain ways if such index's administrator does not obtain relevant authorisation or, the administrator is not otherwise recognised as equivalent; and the methodology or other terms of the benchmark could be changed in order to comply with the terms of the BMR, and such changes could (among other things) have the effect of reducing or increasing the rate or level, or affecting the volatility, of the published rate or level of the benchmark.

If any proposed changes change the way in which the benchmarks are calculated or a benchmark is discontinued or is not otherwise permitted to be used by the sub-funds of the Company, this could adversely affect a sub-fund and its Net Asset Value.

The European Securities and Markets Authority (ESMA) maintains two official registers of approved benchmark administrators and approved third country benchmarks under BMR, however benchmark administrators may be taking advantage of transitional arrangements. The FCA also lists on its register the benchmark administrators it has authorised or registered.

• Status of the Benchmarks used by the Funds

At the date of this prospectus no third country benchmark administrators and benchmarks used by the sub-funds of the Company can benefit from an equivalence decision made by the European Commission. In addition:

- (i) The following Benchmark Administrators are located in the UK and authorised or registered by the FCA. They appear on the ESMA and FCA registers: *FTSE International Limited, HIS Markit Benchmark Administration Limited*
- (ii) The following Benchmark Administrators are not domiciled in a Member-State and have been approved by endorsement or recognition by the FCA or another Member-State competent authority and are on the ESMA register of approved benchmark administrators. The benchmarks they administer also appear on the ESMA register of approved third country benchmarks: *S&P Dow Jones Indices LLC, MSCI Limited*

A plan has been adopted by the ACD to address the contingency of a benchmark changing materially or ceasing to be provided in accordance with the BMR.

- Impact of Brexit on the rolling out of BMR in the UK

The FCA has confirmed equivalence which means any EEA benchmark administrators will be able to access UK markets and UK supervised entities can continue to use their benchmarks on that basis. The UK Government has extended the current transitional period for all third country benchmarks set out in UK BMR from the end of 2022 to the end of 2025, which means UK supervised entities are permitted to use all third country benchmarks until the end 2025 without further action from the EEA benchmark administrator.

Appendix 2

Historical Fund Performance

The table below shows Fund performance and benchmark performance, where applicable, for complete 12-month periods for the last five years ending on 31 May 2025. More recent performance information may be available in the Fund Factsheets issued by the ACD.

These figures refer to the past. Past performance is not a reliable indicator of future returns. The fund performance is based on single priced Accumulation C Shares, allowing for net income accumulated. This information has been taken from Morningstar, an independent data source.

FTSE USA ESG Low Carbon Select Index	4.5	18.1	2.8	N/A	N/A

* There is only four years of historic performance available for the Developed World Lower Carbon ESG Tilt Equity Index Fund as it launched on 10 December 2020.

** There is only three years of historic performance available for the USA Lower Carbon ESG Tilt Equity Index Fund as it launched on 23 March 2022.

*** There is no historic performance information available for the S&P 500 Equal Weight Equity Index Fund as it launched on 3 October 2024.

**** There is no historic performance information available for the MSCI Emerging Markets Equity Index Fund or the MSCI Emerging Markets ex China Equity Index Fund as these Funds launched on 8 April 2025.

Appendix 3

Investment Powers and Restrictions

Part A

Investment Powers

The range of investments that may generally be held within the individual Fund of the Company is set out below. The Company may exercise restricted powers in respect of each Fund under Chapter 5 of the FCA's Collective Investment Schemes Sourcebook for an ICVC belonging to the UK UCITS scheme type.

The property of each Fund will be invested with the aim of providing a prudent spread of risk and achieving the investment objective and policy of that Fund but subject to the limits set out in the FCA Rules.

Generally each Fund will invest in approved securities. An approved security is a transferable security:

- (a) admitted to or dealt in on an eligible securities market which is a regulated market; or
- (b) dealt in on a market in the United Kingdom or a state of the European Economic Area ('EEA') which is regulated, operates regularly and is open to the public; or
- (c) admitted to or dealt in on any market which the ACD, after consultation with and notification to the Depositary, decides is appropriate.

An eligible securities market is:

- (a) a regulated market;
- (b) a market in the United Kingdom or an EEA State which is regulated, operates regularly and is open to the public; or
- (c) a securities market listed in Appendix 4.

New eligible securities markets may be added to the existing list in accordance with the FCA Rules.

The investment policy of a Fund may mean that, at times, it is not appropriate to be fully invested but to hold cash or 'near cash'. This will only be the case where the ACD reasonably regards it as necessary to enable Shares to be redeemed or for the efficient management of the Fund in accordance with its investment objectives or for other purposes which may reasonably be regarded as ancillary to the investment objectives of the Fund.

Investment Restrictions

The following restrictions apply:

1. The scheme property of a Fund must, except where otherwise provided in Chapter 5 of the FCA's Collective Investment Schemes Sourcebook consist solely of any or all of:-
 - (i) transferable securities
 - (ii) units or shares in collective investment schemes; and
 - (iii) derivatives and forward transactions
2. Transferable securities held within a Fund must:-
 - (a) be admitted to or dealt in on an eligible market which is a regulated market; or
 - (b) be dealt in on an eligible market being a market in the United Kingdom or an EEA State which is regulated, operates regularly and is open to the public; or
 - (c) be admitted to or dealt in on an eligible market which the ACD, after consultation with and notification to the Depositary decides that market is appropriate for investment of, or dealing in, the scheme property provided that:-
 - (i) the market is included in a list in the prospectus; and

- (ii) the Depositary has taken reasonable care to determine that adequate custody arrangements can be provided for the investment dealt in on that market and all reasonable steps have been taken by the ACD in deciding whether that market is eligible.
- (d) be recently issued transferable securities provided that:-
 - (i) the terms of issue include an undertaking that application will be made to be admitted to an eligible market; and
 - (ii) such admission is secured within a year of issue.

However, not more than 10% in value of the scheme property may consist of transferable securities not referred to above.

3. Each Fund may invest up to 5% of the scheme property in units or shares of other collective investment schemes ('second scheme') including those managed or operated by the ACD or an associate of the ACD provided the second scheme is:-
 - (i) a UCITS scheme or a scheme which satisfies the conditions necessary for it to enjoy the rights conferred by the UCITS Directive; or
 - (ii) a recognised scheme that is authorised by the supervisory authorities of Guernsey, Jersey or the Isle of Man, provided the requirements laid down in Chapter 5 of the FCA's Collective Investment Schemes Sourcebook (COLL 5.2.13AR) are met; or
 - (iii) authorised as a non-UCITS retail scheme, provided the requirements in Chapter 5 of the FCA's Collective Investment Schemes rules (COLL 5.2.13AR(1), (3) and (4)) are met; or
 - (iv) authorised in an EEA member state provided the requirements in Chapter 5 of the FCA's Collective Investment Schemes rules (COLL 5.2.13AR) are met; or
 - (v) authorised by the competent authority of an Organisation for Economic Co-operation and Development ('OECD') member country (other than an EEA state) which has:-
 - (i) signed the International Organization of Securities Commissions Multilateral Memorandum of Understanding; and
 - (ii) approved the scheme's management company, rules and depositary/custody arrangements.

and provided the requirements in Chapter 5 of the FCA's Collective Investment Schemes Sourcebook (COLL 5.2.13AR) are met.

Such schemes must have terms which prohibit investment of more than 10% of the scheme property into other collective investment schemes. Investment can only be made in another collective investment scheme managed by the HSBC Group provided that the FCA Rules relating to investment in other group schemes is/are complied with.

4. Except in respect of the Funds noted in Part B below, up to 35% of the value of the property of a Fund may be invested in transferable securities or approved money-market instruments issued or guaranteed by a single state, local authority or public international body, in which case there is no limit on the amount which may be invested in such securities or in any one issue.
5. More than 35% of the value of the property of a Fund can be invested in transferable securities or approved money-market instruments issued or guaranteed by a single state, local authority or public international body provided that:
 - (a) the ACD has, before any such investment is made, consulted with the Depositary and as a result considers that the issue of such securities is one which is appropriate in accordance with the investment objectives of the Fund;
 - (b) no more than 30% of the value of the property of that Fund consists of such securities of any one issue;
 - (c) the scheme property of that Fund includes such securities issued or guaranteed by that or another issuer of at least six different issues; and
 - (d) certain details have been disclosed in the Instrument of Incorporation and this Prospectus.

6. The Funds to which 5 above applies and the names of the single states, local authorities or public international bodies issuing or guaranteeing transferable securities or approved money market instruments in which each such Fund may invest over 35% of its assets (if any) are noted in Part B below.
7. Up to 5% of the value of the property of the Fund can be invested in warrants.
8. Where the investment policy of a Fund is to replicate the composition of a relevant index, the Fund may invest up to 20% of the value of the property of the Fund in shares and debentures which are issued by the same body. In some exceptional market conditions, including but not limited to circumstances in regulated markets where certain transferable securities or money market instruments are highly dominant or a merger between two large companies that are components of an index, the Fund may invest up to 35% in one single constituent of the relevant index. A relevant index must be a representative benchmark for the market and the index must be published in an appropriate manner. This applies to the American Index Fund, Developed World Lower Carbon ESG Tilt Equity Index Fund, European Index Fund, FTSE 100 Index Fund, FTSE 250 Index Fund, FTSE All-Share Index Fund, FTSE All-World Index Fund, Japan Index Fund, MSCI Emerging Markets Equity Index Fund, MSCI Emerging Markets ex China Equity Index Fund, Pacific Index Fund, S&P 500 Equal Weight Equity Index Fund, Sterling Corporate Bond Index Fund, UK Gilt Index Fund and the USA Lower Carbon ESG Tilt Equity Index Fund.
9. Not more than 5% of the value of the property of the Fund may consist of transferable securities issued by any single body, but this limit may be increased to 10% of such value, provided that the total value of all those investments exceeding the 5% limit does not exceed 40% of the value of the property of the Fund.

However, in applying this limit certificates representing certain securities are treated as the equivalent to the underlying security however, covered bonds* need not be taken into account for the purposes of applying the limit of 40%.

10. The limit of 5% in 9 above is raised to 25% of the value of the property of the Fund in respect of covered bonds, provided that when a Fund invests more than 5% in covered bonds issued by a single body, the total value of covered bonds held must not exceed 80% of the value of the property of a Fund.

*** With the exception of the Sterling Corporate Bond Index Fund no Fund of the Company may invest in covered bonds as at the date of this Prospectus.**

11. Transferable securities on which any sum is unpaid may be held only if it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the relevant Fund at the time when the payment is required without contravening the rules in Chapter 5 of the FCA's Collective Investment Scheme rules.
12. In applying the limit in 9, and subject to 10, not more than 20% of the value of the property of a Fund is to consist of transferable securities (including covered bonds) issued by a single body. Furthermore, notwithstanding 15 below and subject to 5 and 6 above, in applying this 20% limit, with respect to a single body, transferable securities or approved money-market instruments issued or guaranteed by a single state, local authority or public international body shall be taken into account.
13. Not more than 20% in value of the property of a Fund is to consist of transferable securities issued by the same group.
14. The limits in 9 - 13 do not apply to transferable securities or approved money-market instruments issued or guaranteed by a single state, local authority or public international body.
15. In applying the limits in 9 - 13 companies included in the same group for the purposes of consolidated accounts as defined in accordance with the section 399 of Companies Act 2006, Directive 2013/34/EU or, in the same group in accordance with international accounting standards, are regarded as a single body.
16. Except in the case of the American Index Fund, Developed World Lower Carbon ESG Tilt Equity Index Fund, European Index Fund, FTSE All-Share Index Fund, FTSE All-World Index Fund, FTSE 100 Index Fund, FTSE 250 Index Fund, Japan Index Fund, MSCI Emerging Markets Equity Index Fund, MSCI Emerging Markets ex China Equity Index Fund, Pacific Index Fund, S&P 500 Equal Weight Equity Index Fund, Sterling Corporate Bond Index Fund, UK Gilt Index Fund and USA Lower Carbon ESG Tilt Equity

Index Fund, a Fund may invest in or dispose of Shares in another Fund provided that the second Fund does not hold Shares in any other Fund of the Company.

Where investment is made in another Fund or another collective investment scheme managed or operated by the HSBC Group, such investment can only be made provided that the FCA Rules relating to investment in other group schemes are complied with.

17. Where it is not possible under the FCA Rules to invest in a stock such that the amount held is consistent with that stock's weighting within the Index, then additional exposure to the stock will be sought by investing in transferable securities (which may or may not be constituents of the Index) which themselves aim to closely replicate the performance of the stock or which it is expected will perform in a similar way to that stock, subject to any restrictions that may be provided by the FCA Rules. There is a risk that the stocks selected will not accurately replicate the capital performance of the Index.

Concentration

There are some limits which apply to the Company as a whole. The Company may not hold more than:

- (a) transferable securities (other than debt securities) which do not carry a right to vote on any matter at a general meeting of the body corporate that issued them and which represent more than 10% of those securities issued by that body corporate; or
- (b) more than 10% of the debt securities issued by any single body; or
- (c) more than 10% of the units or shares in a collective investment scheme

but need not comply with those limits in b) and c) above if, at the time of acquisition, the net amount in issue of the relevant investment cannot be calculated.

The Company may only acquire transferable securities issued by a body corporate carrying rights to vote at a general meeting of that body corporate if the aggregate number of such securities held by the Company does not give the Company power significantly to influence the conduct of business of the body corporate immediately before the acquisition and the acquisition will not give the Company such power. The power significantly to influence is assumed if such securities allow the Company to exercise or control the exercise of 20% or more of the voting rights in that body corporate.

What would otherwise be a breach of any of the above limits will not be treated as such where it arises from the exercise of a right attributable to an investment acquired by a Fund in certain circumstances. In that event, and in the event of any breach of any of the above investment limits which was beyond the control of the ACD and the Depositary, the ACD must restore compliance with the relevant investment limits as soon as is reasonably practicable having regard to the interests of Shareholders in the relevant Fund and, in any event, within a period of six months (or in the case of a derivatives or a forward transaction within five Business Days unless such period can be extended pursuant to the FCA Rules) after the date of discovery of the relevant circumstance.

Part B

As well as the restrictions outlined in Part A, the following Funds are subject to additional restrictions:-

American Index Fund, Developed World Lower Carbon ESG Tilt Equity Index Fund, European Index Fund, FTSE All-Share Index Fund, FTSE All-World Index Fund, FTSE 100 Index Fund, FTSE 250 Index Fund, Japan Index Fund, MSCI Emerging Markets Equity Index Fund, MSCI Emerging Markets ex China Equity Index Fund, S&P 500 Equal Weight Equity Index Fund and USA Lower Carbon ESG Tilt Equity Index Fund

The ACD has determined that the Fund will not invest in securities issued by companies that the ACD considers, after reasonable enquiries, to be involved in the use, development, manufacturing, stockpiling, transfer or trade of controversial weapons (i.e. those banned by international convention), including but not limited to cluster munitions and/or anti-personnel mines and/or biological weapons and/or blinding laser weapons, and/or chemical weapons and/or non-detectable fragments. The ACD's Annual Report and Accounts for the Fund will provide further information. A full specification of the ACD's Banned Weapons Policy is available from the ACD upon request.

On occasion, an entity in the HSBC Group may provide a Fund with seed capital (i.e. an initial investment in a Fund to support the operations of a Fund in its early existence prior to material external investment). Companies that are constituents of the Index which a Fund seeks to track may place restrictions on the ownership of their shares by banks and their affiliates, meaning that the Fund may not be able to hold shares in those companies while HSBC Group seed capital makes up the majority of the Fund's ownership.

Pacific Index Fund

- (a) More than 35% in value of the Fund may be invested in transferable securities or approved money-market instruments issued or guaranteed by or on behalf of any one single state, local authority or public international body. In the case of issuers set out in (i) - (ii) below, such securities shall be guaranteed by:
 - (i) The Government of the United Kingdom; or
 - (ii) The Government of any of the countries listed below:
 - (a) Australia
 - (b) Austria
 - (c) Belgium
 - (d) Canada
 - (e) Denmark
 - (f) Finland
 - (g) France
 - (h) Germany
 - (i) Greece
 - (j) Ireland
 - (k) Italy
 - (l) Japan
 - (m) Luxembourg
 - (n) The Netherlands
 - (o) New Zealand
 - (p) Portugal
 - (q) Spain
 - (r) Sweden
 - (s) Switzerland
 - (t) United States of America

Provided that if more than 35% in value of the Fund is so invested, the securities of at least six different issues shall be held and no holding of a single issue shall represent more than 30% of the value of the Fund.

- (b) The ACD has determined that the Fund will not invest in securities issued by companies that the ACD considers, after reasonable enquiries, to be involved in the use, development, manufacturing, stockpiling, transfer or trade of controversial weapons (i.e. those banned by international convention), including but not limited to cluster munitions and/or anti-personnel mines and/or biological weapons and/or blinding laser weapons, and/or chemical weapons and/or non-detectable fragments. The ACD's Annual Report and Accounts for the Fund will provide further information. A full specification of the ACD's Banned Weapons Policy is available from the ACD upon request.
- (c) On occasion, an entity in the HSBC Group may provide a Fund with seed capital (i.e. an initial investment in a Fund to support the operations of a Fund in its early existence prior to material external investment). Companies that are constituents of the Index which a Fund seeks to track may place restrictions on the ownership of their shares by banks and their affiliates, meaning that the Fund may not be able to hold shares in those companies while HSBC Group seed capital makes up the majority of the Fund's ownership.

Sterling Corporate Bond Index Fund

- (a) The investments of the Fund will be limited to investments on which any income is taxable as a non-trade loan relationship credit only, and which are neither chargeable to ad valorem stamp duty on transfer nor are chargeable securities as defined for Stamp Duty Reserve Tax.
- (b) More than 35% in value of the Fund may be invested in transferable securities or approved money-market instruments issued or guaranteed by or on behalf of any one single state, local authority or public international body. In the case of issuers set out in (i) - (ii) below, such securities shall be guaranteed by:
 - (i) The Government of the United Kingdom; or

(ii) The Government of any of the countries listed below:

- (a) Australia
- (b) Austria
- (c) Belgium
- (d) Canada
- (e) Denmark
- (f) Finland
- (g) France
- (h) Germany
- (i) Greece
- (j) Ireland
- (k) Italy
- (l) Japan
- (m) Luxembourg
- (n) The Netherlands
- (o) New Zealand
- (p) Portugal
- (q) Spain
- (r) Sweden
- (s) Switzerland
- (t) United States of America

Provided that if more than 35% in value of the Fund is so invested, the securities of at least six different issues shall be held and no holding of a single issue shall represent more than 30% of the value of the Fund.

- (c) The ACD has determined that the Fund will not invest in securities issued by companies that the ACD considers, after reasonable enquiries, to be involved in the use, development, manufacturing, stockpiling, transfer or trade of controversial weapons (i.e. those banned by international convention), including but not limited to cluster munitions and/or anti-personnel mines and/or biological weapons and/or blinding laser weapons, and/or chemical weapons and/or non-detectable fragments. The ACD's Annual Report and Accounts for the Fund will provide further information. A full specification of the ACD's Banned Weapons Policy is available from the ACD upon request.
- (d) On occasion, an entity in the HSBC Group may provide a Fund with seed capital (i.e. an initial investment in a Fund to support the operations of a Fund in its early existence prior to material external investment). Companies that are constituents of the Index which a Fund seeks to track may place restrictions on the ownership of their shares by banks and their affiliates, meaning that the Fund may not be able to hold shares in those companies while HSBC Group seed capital makes up the majority of the Fund's ownership.

UK Gilt Index Fund

- (a) The investments of the Fund will be limited to investments on which any income is taxable as a non-trade loan relationship credit only, and which are neither chargeable to ad valorem stamp duty on transfer nor are chargeable securities as defined for Stamp Duty Reserve Tax.
- (b) More than 35% in value of the Fund may be invested in transferable securities or approved money-market instruments guaranteed or issued by or on behalf of the Government of the United Kingdom provided that if more than 35% of the value of the Fund is so invested, the securities of at least six different issues shall be held and no holding of a single issue shall represent more than 30% in value of the Fund. The Fund currently invests more than 35% of its total value in UK Government securities.
- (c) The ACD has determined that the Fund will not invest in securities issued by companies that the ACD considers, after reasonable enquiries, to be involved in the use, development, manufacturing, stockpiling, transfer or trade of controversial weapons (i.e. those banned by international convention), including but not limited to cluster munitions and/or anti-personnel mines and/or biological weapons and/or blinding laser weapons, and/or chemical weapons and/or non-detectable fragments. The ACD's Annual Report and Accounts for the Fund will provide further information. A full specification of the ACD's Banned Weapons Policy is available from the ACD upon request.

- (d) On occasion, an entity in the HSBC Group may provide a Fund with seed capital (i.e. an initial investment in a Fund to support the operations of a Fund in its early existence prior to material external investment). Companies that are constituents of the Index which a Fund seeks to track may place restrictions on the ownership of their shares by banks and their affiliates, meaning that the Fund may not be able to hold shares in those companies while HSBC Group seed capital makes up the majority of the Fund's ownership.

Part C

Efficient Portfolio Management (EPM)

Use of derivatives for the efficient portfolio management of the Funds

Each of the Funds may use financial derivative instruments for the purposes of EPM including hedging.

For the purposes of financial derivative instruments, hedging refers to:

- hedging the portfolio from foreign exchange risks; and
- hedging portfolios against falls in asset prices.

For the purposes of financial derivative instruments, EPM refers to techniques and instruments which relate to transferable securities and which fulfil the following criteria:

- (a) they are economically appropriate in that they are realised in a cost effective way;
- (b) they are entered into for one or more of the following specific aims:
- (i) reduction of risk;
 - (ii) reduction of cost;
 - (iii) generation of additional capital or income, with a level of risk that is consistent with the risk profile of the Fund.

Permitted transactions for those purposes (excluding securities lending transactions) are forward currency transactions with Approved Counterparties and transactions in:

- (a) approved derivatives (that is options, futures or contracts for differences which are dealt in or traded on an eligible derivatives market);
- (b) off-exchange derivatives (that is futures, options or contract for differences resembling options with a counterparty falling within certain specified categories and meeting certain other criteria); or
- (c) synthetic futures (that is derivatives transactions in the nature of composite derivatives created out of two options bought and written on the same eligible derivatives market and having certain characteristics in common).

The ACD will conduct appropriate due diligence in the selection of counterparties, including but not limited to consideration of the legal status, country of origin, credit rating and minimum credit rating (where relevant), noting the requirements applicable to the Funds in respect of eligibility criteria for counterparties. From time to time, a Fund may engage counterparties that are related parties to the Depositary of the Company. Such engagement may on occasion cause a conflict of interest with the role of the Depositary in respect of the Company. Please refer to section entitled "Conflicts of Interest" of page 43 for further details on the conditions applicable to any such related party transactions.

The revenue generated by derivatives, less any fees payable to counterparties, brokers or other agents that are involved in the arrangement or settlement of derivatives contracts, will be paid to the relevant Fund. No revenue generated by derivatives will be paid to the ACD, however the counterparties, brokers or other agents to which fees may be paid may be an associate of the ACD.

The initial eligible derivatives markets for each Fund are listed in Appendix 5 and a new eligible derivatives market may be added in accordance with the FCA Rules.

A derivatives or forward transaction which would or could lead to the delivery of property to the Depositary or to the Company may be entered into only if such property can be held by the Company and the ACD has taken reasonable care to determine that delivery of the property pursuant to the transaction will not lead to a breach of the FCA Rules.

There is no limit on the amount of the scheme property of any Fund which may be used for transactions for the purposes of EPM.

The global exposure of each Fund relating to derivative instruments may not exceed the assets of the relevant Fund.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions.

The use of these EPM instruments/techniques does not change the objective of the Funds or add substantial risks in comparison to the original risk policy of the Fund.

Part D

Leverage

Leverage may occur as a result of transactions carried out for the purposes of EPM. Leverage will also occur where money is borrowed on behalf of the Funds as set out below under the heading of 'Borrowing Powers'. The only types and sources of leverage permitted are derivatives and bank borrowings.

At all times when the Fund is leveraged a leverage calculation will be performed daily. The calculation will make an allowance for any borrowings as well as net short positions in either currency forward contracts or futures positions that arise in the context of EPM carried out for the Fund. All underlying instrument asset classes are grouped together and valued in the base currency of the Fund. The total value for all equity and equity futures positions, bond and bond futures positions must not exceed 100% of the net assets of each Fund. All relevant limits are calculated on the basis of the position valuation provided by the Administrator and the notional value of the derivatives. This includes a check that all derivative positions are appropriately margined and that the total derivatives exposure does not exceed base currency values of the net assets held.

The total amount of any leverage employed by each Fund in an accounting period will be published in the Report and Accounts.

Part E

Underwriting

The Funds may enter into agreements and understandings with regard to the underwriting and sub-underwriting of securities or the acceptance of placing commitments subject to the provisions set out in the FCA Rules.

Borrowing Powers

The Company may borrow money from an Eligible Institution or an approved bank for the use of any Fund on terms that the borrowing is to be repayable out of the Fund property. The ACD must ensure that any such borrowings comply with the FCA Rules.

The ACD must ensure that borrowing is of a temporary nature and it must not exceed a period of three months without the prior consent of the Depositary. The Depositary's consent may only be given on conditions which appear appropriate to the Depositary to ensure that the borrowing remains on a temporary basis. The ACD must ensure that borrowing does not exceed 10% of the value of the property of the Fund on any one Business Day.

These restrictions do not apply to "back to back" borrowing for currency hedging purposes (that is borrowing permitted so as to reduce or eliminate risk arising by reason of fluctuations in exchange rates).

Supplementary Information

The ACD must, upon the request of a holder in a UCITS, provide information supplementary to the Prospectus relating to:

- (a) the quantitative limits applying in the risk management of that scheme;
- (b) the methods used in relation to (a); and
- (c) any recent development of the risk and yields of the main categories of investment.

Cover for transactions in derivatives and forward transactions

The maximum exposure (in terms of principal or notional principal created by the transaction to which the scheme is or may be committed by another person) created by each transaction must be covered globally which means that there must be adequate cover from within the scheme property available to meet the Fund's total exposure taking into account the value of the underlying assets, any reasonably foreseeable market movement, counterparty risk and the time available to liquidate any positions. Cash not yet received into the scheme property but due to be received within one month is available for cover as is scheme property which is subject to securities lending transaction where the ACD has taken reasonable care to determine that such property is obtainable in time to meet the obligation for which cover is required.

Cover and Borrowing

Cash obtained from borrowing, and borrowing which the ACD reasonably regards as an Eligible Institution or an approved bank to be committed to provide, is not available for cover except where the Company borrows an amount of currency from an Eligible Institution or an approved bank and keeps an amount in another currency, at least equal to the borrowing, on deposit with the lender (or his agent or nominee) in which case Chapter 5.3 of the FCA's Collective Investment Scheme Rules applies as if the borrowed currency, and not the deposited currency, were part of the scheme property.

The ACD must as frequently as is necessary, recalculate the amount of cover required in respect of derivatives and forward positions already in existence and derivative and rights under forward transactions may be retained in the scheme property provided they remain covered globally.

Part F

Collateral

Collateral received, other than cash, will be highly liquid and traded on a regulated market or a multilateral trading facility with transparent pricing, will be of a high quality and valued on at least a daily basis in accordance with the valuation methodology set out in the Valuation section. Assets that exhibit high price volatility will not be accepted as collateral unless there is in place a suitably conservative haircut in relation to that asset (i.e. a reduction applied to the value of an asset to cover the risk of not being able to sell the asset at its current value).

When accepting collateral, such collateral will be sufficiently diversified in terms of country, markets and issuers. The collateral received by a Fund must equal or exceed, in value, an amount allowing the net exposure to counterparty risk to remain below the limit of 10% of the Fund's NAV and it will be valued on at least a daily basis.

The collateral must be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty. Where there is a title transfer, the collateral received should be held by the Depositary for the benefit of the underlying Fund and all collateral is transferred to the Depositary or its agent.

For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision and which is unrelated to the provider of the collateral. The collateral must be held at the credit risk of the counterparty and must be immediately available to the relevant Fund without recourse to the counterparty in the event of a default by that entity.

Collateral may be in the form of cash or non-cash assets such as equities and government securities where these are of sufficient quality.

Non-cash collateral cannot be sold or pledged, will be marked to market daily, and will be issued by an entity independent of the counterparty. Securities received as collateral by a Fund will be diversified such that the exposure to securities of any one issuer will not be more than 20% of the value of the property of the Fund. In the event that a Fund is fully collateralised in different transferable securities or approved money-market instruments issued or guaranteed by a single state, local authority or public international body, the Fund will receive securities from at least six different issues, but securities from any single issue will not account for more than 30% of the Fund's value. The credit quality of the non-cash collateral will be consistent with the investment objectives and policies of the relevant Fund.

Cash collateral may only be:

- placed on deposit with entities prescribed in the FCA Rules;

- invested in money market funds as defined in the FCA rules.

Reinvested cash collateral must be diversified in accordance with the diversification requirements applicable to non-cash collateral (i.e. it should be sufficiently diversified in terms of country, markets and issuers). Collateral may represent initial and variation margin in respect of applicable transactions.

Part G

Securities Lending

The Funds may undertake securities lending transactions, which is a type of Securities Financing Transaction.

A securities lending transaction is a transaction by which one party transfers securities to the other party subject to a commitment that the other party will return equivalent securities on a future date or when requested to do so by the party transferring the securities, that transaction being considered as securities lending for the party transferring the securities and being considered as securities borrowing for the party to which they are transferred. Any such transaction must comply with the requirements of the Taxation of Chargeable Gains Act 1992.

Securities lending transactions may be entered into for efficient portfolio management purposes. The Funds have maximum flexibility with respect to the types of assets that can be subject to securities lending transactions in accordance with the investment objective and investment policy set out in Appendix 1 in relation to each Fund and subject to the investment restrictions set out in the Prospectus.

As at the date of the Prospectus, the ACD has appointed HSBC Bank plc as the securities lending agent. The securities lending agent has discretion to lend securities to Approved Counterparties and carry out related functions including the management of collateral, subject to the terms and restrictions specified in the Prospectus and in the agreement entered into between the ACD and the securities lending agent. The ACD may appoint other securities lending agents subject to the Prospectus being updated.

Direct and indirect operational costs and fees arising from securities lending transactions may be deducted from the revenue delivered to the relevant Fund (for example, as a result of revenue sharing arrangements). In general, any returns or losses generated by securities lending transactions will be for the account of the relevant Fund, subject to the terms agreed with the relevant counterparty or broker which may provide for deductions for taxes and any fees, costs and expenses of the counterparty or broker, any custodian or third parties securities lending agent. These parties may be an associate of the ACD. More specifically, in respect of securities lending transactions, the securities lending agent is entitled to retain 15% of gross revenue in respect of its fees for the provision of its services and the ACD is entitled to receive up to 10% of gross revenue. This amount is used to pay for the additional oversight required for the operation and oversight of securities lending. The ACD shall provide services to ensure oversight and monitoring of securities lending activities, including ensuring loaned securities are re-called on a timely basis and does not impact fund performance and/or investor returns, managing third party borrowers in terms of meeting the necessary credit criteria, monitoring the risks involved and reporting to the Directors as may be appropriate.

This means that each Fund that enters into securities lending transactions will be entitled to receive at least 75% of the gross revenue generated (in respect of that Fund's securities lending transactions). More information regarding fee disclosure and the relevant entities will be published in the annual reports and accounts. This information will be captured annually in respect of the last financial year.

Maximum and expected proportion of assets which can be subject to Securities Lending Transactions

Subject to the investment restrictions and limits on exposure as set out in Appendix 3, and, in respect of a Fund, the investment restrictions set out in the investment objectives and policies for that Fund in Appendix 1, each Fund can enter into securities lending transactions up to 29% of the value of its property, however this is not expected to exceed 25%.

The expected exposure levels above are only estimates and depending on market conditions and the investment strategies employed, the actual proportion of a Fund's assets subject to these transactions may be higher (up to the maximum stated) or lower. The percentage of a Fund's assets for the respective use of the above mentioned transactions is no indication of the true risk level of the Fund because it does not reflect the exposure of such transactions.

Collateral and asset re-use arrangements

A Fund may from time to time be required to deliver collateral to, or may be entitled to receive collateral from, its trading counterparties and/or brokers. There are restrictions on the re-use of collateral or other assets by the Funds or by trading counterparties and brokers, and a Fund, and the ACD on its behalf, seeks to establish such protections for the assets as are appropriate and negotiable according to the circumstances of each counterparty relationship.

The types of collateral that the Funds may receive vary according to the type of transaction and the counterparty to the relevant transaction. Collateral received by a Fund may include cash and non-cash assets. Collateral received by a Fund will be subject to such restrictions as to quality, maturity, liquidity and other factors as may be agreed between a Fund and the relevant counterparty.

Details of acceptable collateral and the collateral valuation methodology used and its rationale are set out under Part F of this Appendix 3.

Criteria used to select counterparties

When selecting trading counterparties (including with respect to securities lending transactions), a Fund may take into account such criteria as it determines to be appropriate, including but not limited to legal status, country of origin and credit rating. The Funds shall only enter into transactions with counterparties that are Approved Counterparties and that have a sufficient credit rating as determined on a basis agreed between the ACD and securities lending agent and documented in the securities lending agreement. In addition, counterparties to securities lending transactions must be specialised in such transactions. There are no further restrictions with regard to legal status or country of origin of the counterparty.

Appendix 4

Eligible Securities Markets and Eligible Derivatives Markets

To protect the assets of the Funds, the market upon which securities and derivatives are traded must meet the criteria of Eligible Markets, at time of acquisition and until it is sold or expires/matures. Those criteria are laid down in Chapter 5 of the FCA's Collective Investment Schemes rules:

- (i) Eligible Markets include a regulated market as defined in the FCA rules and any regulated market or exchange established in a member state of the European Union or the European Economic Area on which transferable securities admitted to official listing in the member state are dealt in or traded.
- (ii) An overseas market not falling within the above definition is eligible if the ACD, after consultation with the Depositary, is satisfied that it is regulated, operates regularly, is recognised by its relevant home state regulatory authority and is open to the public. Furthermore the Depositary should take reasonable care to determine that adequate custody arrangements can be provided for the investment dealt in on that market, and all reasonable steps have been taken by the ACD in deciding whether that market is eligible.

Pursuant of the above, the ACD has decided that, in accordance with the respective investment policies of the Funds, the following securities markets established outside the UK in non-Member-States are Eligible Markets:

1. Securities Markets

<i>Country</i>	<i>Exchanges/Markets</i>
Argentina	Buenos Aires Stock Exchange
	Cordoba Stock Exchange
	La Plata Stock Exchange
	Mendoza Stock Exchange
	Mercado Abierto Electronico
	Rosario Stock Exchange
