HSBC UCITS COMMON CONTRACTUAL FUND - ISLAMIC GLOBAL EQUITY INDEX FUND

a sub-fund of HSBC UCITS Common Contractual Fund, (the "UCITS");
 managed by Carne Global Fund Managers (Ireland) Limited

Class:Z3CGBP
 ISIN:IE00004LS4G1

Objectives and Investment Policy

Investment Objective:

The Fund aims to achieve capital growth over the long term.

Investment Policy:

The Fund aims to track as closely as possible the performance of the Dow Jones Islamic Market Titans 100 Index (the Index). The Fund will invest in, or gain exposure to shares of companies which make up the Index.

The Index is designed to measure the performance of the largest 100 companies traded globally that pass rule-based screens for adherence to Shariah Principles. The Index Universe comprises all constituent companies of the Dow Jones Islamic Market World Index. The Index excludes shares of companies that generate more than 5% of income or revenue from the business activities such as: alcohol, tobacco, pork-related products, conventional financial services, weapons and defences, certain entertainment.

The Fund will be passively managed and will aim to invest in the shares of the companies in generally the same proportion as in the Index.

There may be circumstances when it is not possible for the Fund to invest in all constituents of the Index. If the Fund cannot invest directly in the companies that constitute the Index, it may gain exposure by using other investments such as Shariah compliant ADRs and GDRs.

The Fund will only invest in shares of companies that meet Shariah compliance principles as interpreted or approved by the Shariah Committee.

The Shariah committee monitors the Fund throughout the year and issues an annual Shariah certificate on the Fund's compliance with Shariah principles. This certificate is included in the annual report of the Fund as a confirmation of the Shariah compliance for that year. Before investing, please do check that this Fund meets your Shariah requirements, and if in any doubt please consult an adviser. The shares are selected by filtering the Index universe through screens for business activities and financial ratios to remove companies that are not Shariah compliant.

The Fund may invest up to 10% of its assets in other funds, and may hold cash and Shariah compliant cash equivalents. The Fund will not invest in funds that are themselves tax transparent vehicles, such as common contractual funds in Ireland or their equivalent in other jurisdictions.

The Fund may use Shariah compliant foreign exchange forwards for hedging purposes.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 6 because its price or simulated data has shown high fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- ◆ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.

- ◆ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ◆ **Index Tracking Risk** To the extent that the Fund seeks to replicate index performance by holding individual securities, there is no guarantee that its composition or performance will exactly match that of the target index at any given time ("tracking error").
- ◆ **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ◆ **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ◆ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.
