

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## HSBC BLOOMBERG EUR SUSTAINABLE CORPORATE BOND UCITS ETF

a sub-fund of HSBC ETFs PLC, (the "UCITS");  
 managed by HSBC Investment Funds (Luxembourg) S.A.

Class:EUR  
 ISIN:IE00BKY81B71

## Objectives and Investment Policy

### Investment Objective:

The Fund aims to track as closely as possible the returns of the Bloomberg MSCI Euro Corporate SRI Carbon ESG-Weighted (EUR Unhedged) (the "Index"). The Fund will invest in, or gain exposure to bonds issued by corporates which make up the Index.

### Investment Policy:

The Index is a subset of the Bloomberg EURO Aggregate Corporate Index (the Parent Index), and is made up of fixed-rate, investment grade bonds issued by corporate issuers, as defined by the index provider. The Index seeks to achieve a reduction in carbon emissions and an improvement of the MSCI ESG rating against that of the Parent Index.

The Index construction methodology identifies securities based on sustainability exclusionary criteria. These criteria include the MSCI ESG Rating, business involvement screens and MSCI ESG Controversy Scores. Each company in the Index is assigned an ESG rating. Companies' weights in the Index are capped at 2% by market value.

The business involvement screens include, but are not limited to: a threshold on carbon emission intensity (measured and estimated using MSCI ESG Research's proprietary carbon estimation model); and the exclusion of companies with business activities in alcohol and weapons.

The Fund is passively managed and utilises an investment technique called optimisation. This technique seeks to minimise the difference in return between the Fund and the Index by taking into account tracking error (the risk that the Fund

return varies from the Index return) and trading costs when constructing a portfolio. However, there may be circumstances when it is not possible or practical for the Fund to invest in all constituents of the Index.

The Fund may invest up to 10% of its assets in other funds, including other HSBC funds and may invest in non-investment grade bonds.

The Fund may invest up to 10% of its assets in total return swaps and contracts for difference, however, this is not expected to exceed 5%.

The Fund may also invest in derivatives for efficient portfolio management purposes (such as to manage risk and costs, or to generate additional capital or income) and for investment purposes.

- ◆ The Fund may enter into securities lending transactions for up to 30% of its assets. However, this is not expected to exceed 25%.
- ◆ The reference currency of the Fund is EUR. The reference currency of this share class is EUR.
- ◆ Income is reinvested.
- ◆ Authorised Participants only may deal in the Fund's shares directly with the UCITS.
- ◆ The Fund's shares are listed on one or more stock exchange(s).
- ◆ You may sell your investment on most working days.
- ◆ Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

## Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

### Why is this Fund in this specific category?

This Fund is classified in category 4 because its price or simulated data has shown medium fluctuations historically.

### Material risks not fully captured by the Risk and Reward Indicator:

- ◆ **Callable Bond Risk** Any unexpected behaviour in interest rates could negatively impact the performance of callable debt securities (securities whose issuers have the right to pay off the security's principal before the maturity date).
- ◆ **CoCo Bond Risk** Contingent convertible securities (CoCo bonds) are comparatively untested, their income payments may be cancelled or suspended, and they are more vulnerable to losses than equities and can be highly volatile.
- ◆ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- ◆ **Credit Risk** A bond or money market security could lose value if the issuer's financial health deteriorates.

- ◆ **Default Risk** The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- ◆ **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- ◆ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ◆ **Index Tracking Risk** To the extent that the Fund seeks to replicate index performance by holding individual securities, there is no guarantee that its composition or performance will exactly match that of the target index at any given time ("tracking error").
- ◆ **Interest Rate Risk** When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- ◆ **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ◆ **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ◆ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

## Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.18%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

## Past Performance

- ◆ No entry nor exit charges are payable where investors deal in shares in the secondary market – i.e. where shares are purchased and sold on a stock exchange. In such cases, investors may pay fees charged by their broker. Authorised Participants dealing directly with the Fund may be subject to a Direct Dealing (Cash Transaction) Fee of up to 3.00% on subscriptions and up to 3.00% on redemptions.
- ◆ A conversion charge may be payable.
- ◆ The ongoing charges figure shown here is an estimate of the charges as the share class has not been priced for a full financial year. The UCITS' annual report for each financial year will include detail on the exact charges made.

Further information on Charges can be found in the “Fees and Expenses” section of the Prospectus and the Fund Supplement.

- ◆ Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- ◆ Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- ◆ The past performance of this share class is calculated in EUR.
- ◆ The investment benchmark for the Fund is the Bloomberg MSCI Euro Corporate SRI Carbon ESG-Weighted (EUR Unhedged).
- ◆ The Fund was launched on 16 November 2021.
- ◆ Insufficient data is available to provide past performance figures.

## Practical Information

### Depository

HSBC Continental Europe.

### Further information

Further information about the Company including the Prospectus, the most recent annual and semi-annual reports of the Company and the latest share prices, may be obtained free of charge, in English, from the Administrator by emailing [ifsinvestorqueries@hsbc.com](mailto:ifsinvestorqueries@hsbc.com), or by visiting [www.etf.hsbc.com](http://www.etf.hsbc.com).

Details of the underlying investments of the fund are available on [www.etf.hsbc.com](http://www.etf.hsbc.com). The indicative intra-day net asset value of the fund is available on at least one major market data vendor terminal such as Bloomberg, as well as on a wide range of websites that display stock market data, including [www.reuters.com](http://www.reuters.com)

This document describes a single share class of a sub-fund of the Company. The Prospectus, annual and semi-annual reports are prepared for the entire Company.

### Share classes

It is possible to switch your shares into shares of a different share class or sub-fund within the Company. Details of how to do this are in the “Conversion of Shares - Primary Market” section of the Prospectus.

### Remuneration Policy

The up-to-date remuneration policy of the Management Company, including a description of how remuneration and benefits are determined, is available at [www.global.assetmanagement.hsbc.com/about-us/governance-structure](http://www.global.assetmanagement.hsbc.com/about-us/governance-structure). A paper copy is available free of charge from the Management Company.

### Tax

The Fund is subject to Irish tax regulations. This may have an impact on your personal tax position.

### Management Company

HSBC Investment Funds (Luxembourg) S.A. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

### Segregated liability

HSBC ETFs PLC is an investment company with segregated liability between sub-funds under Irish law. This means that the holdings of one sub-fund are kept separate from the holdings of the other sub-funds and your investment in the Fund cannot be used to pay the liabilities of any other sub-fund.
