

HSBC Global Funds ICAV

Multi-Factor EMU Equity Fund

Marketing communication | Monthly report 30 November 2025 | Share class XC

This product is based overseas and is not subject to UK sustainable investment labelling and disclosure requirements.

Investment objective

The Fund aims to provide long-term capital growth.

Investment strategy

The Fund is actively managed.

In normal market conditions, the Fund will invest at least 90% of its assets in shares (or securities similar to shares) of companies incorporated in the developed markets of the European Economic and Monetary Union (EMU), while promoting environmental, social and governance (ESG) characteristics within the meaning of Article 8 of SFDR and aims to do this by achieving a lower carbon intensity and a higher ESG score.

The Fund's investment process identifies stocks from a universe of investable shares from the MSCI EMU Index, and ranks them from the least to most attractive based upon certain factors, such as value, quality, momentum, low risk and size. A portfolio which maximises the exposure to the highest ranked stocks whilst minimising the Fund's risk is then created quantitatively.

The Fund will not invest in companies with involvement in specific excluded activities, such as: companies involved in the production of controversial weapons and tobacco; companies with more than 10% revenue generated from thermal coal extraction; and companies with more than 10% revenue generated from coal-fired power generation.

The Fund may invest up to 10% in other funds and up to 10% in total return swaps.

See the Prospectus for a full description of the investment objectives and derivative usage.

Main risks

- The value of investments and any income from them can go down as well as up and investors may not get back the amount originally invested
- The value of investible securities can change over time due to a wide variety of factors, including but not limited to: political and economic news, government policy, changes in demographics, cultures and populations, natural or human-caused disasters etc.
- Derivatives may be used by the Fund, and these can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.

Performance

Share class details

Key metrics

NAV per share	EUR 15.23
Performance 1 month	0.73%
Volatility 3 years	10.61%

Fund facts

UCITS V compliant	Yes
UK reporting fund status (UKRS)	Yes
Dividend treatment	Accumulating
Dealing frequency	Daily
Valuation time	23:00 Ireland
Share class base currency	EUR
Domicile	Ireland
Inception date	26 April 2021
Fund size	EUR 235,426,509
Reference benchmark	100% MSCI EMU Net
Managers	HSBC Index and Systematic Equity Portfolio Management Team

Fees and expenses

Minimum initial investment ¹	EUR 10,000,000
Ongoing charge figure ²	0.250%

Codes

ISIN	IE00BN0T3862

Reference benchmark	7.8	7.0	5.6	6.5

The MSCI ESG Key Issue Score is the numerical, weighted average of MSCI's E, S, and G pillar scores. A higher number indicates a more favourable ESG profile in the view of MSCI.

The weighted averages of the Key Issue Scores are aggregated and companies' scores are normalized by their industries. After any overrides are factored in, each company's Final Industry-Adjusted Score corresponds to a rating.

For more information, see MSCI ESG Ratings Methodology @ <https://www.msci.com/esg-and-climate-methodologies>

Risk disclosures

- Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- Where overseas investments are held the rate of currency exchange may cause the value of such investments to go down as well as up.
- Further information on the potential risks can be found in the Key Information Document (KID) and/or the Prospectus or Offering Memorandum.

Benchmark disclosure

The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that the reference benchmark will not be used as a universe from which to select securities. The deviation of the Fund’s performance relative to the benchmark is monitored, but not constrained, to a defined range.
