This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### HSBC Global Funds ICAV - Multi-Factor Worldwide Equity Fund

a sub-fund of HSBC Global Funds ICAV, (the "UCITS"); managed by HSBC Investment Funds (Luxembourg) S.A.

Class:ZDEUR ISIN:IE00BN4L5374

#### **Objectives and Investment Policy**

#### **Investment Objective:**

The Fund aims to provide long term capital growth.

#### **Investment Policy:**

The Fund promotes the environmental and/or social characteristics within the meaning of Article 8 of SFDR. The Fund aims to have a lower carbon intensity and a higher environmental, social and governance (ESG) score, calculated respectively as a weighted average of the carbon intensities and ESG scores given to the issuers of the Fund's investments, than the weighted average of the constituents of its reference benchmark.

In normal market conditions, the Fund will invest at least 90% of its assets in shares (or securities similar to shares) of companies that are based anywhere in the world, including emerging markets.

The Fund may invest in real estate investment trusts and depository receipts.

The Fund may also invest in cash and money market instruments (which includes bills, commercial paper and certificates of deposit) and funds

The Fund's investment process identifies stocks from a universe of investable shares from countries anywhere in the world, and ranks them from the least attractive to most attractive based upon certain factors, such as value, quality, momentum, low risk, ESG score and size. The Investment Manager will then quantitatively select the shares to create a portfolio which maximises the exposure to the highest ranked stocks whilst minimising the Fund's risk. In order to lower exposure to carbon intensive businesses and raise the Fund's ESG score, all holdings in the portfolio are assessed for their individual carbon intensity and ESG scores.

The Fund may invest up to 10% of its assets in other funds, including HSBC funds.

The Fund will not invest in: issuers with involvement in specific excluded activities, such as the production of banned or controversial weapons and tobacco; IPOs by companies engaged in expansion of thermal coal production and non-compliance with UNGC principles; issuers with more than 10% of revenue generated from thermal coal

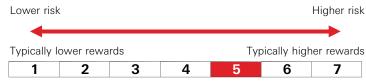

power. Please refer to the Fund's supplement for more details on the excluded activities and specific involvement.

The Fund may also invest up to 10% of its assets in total return swaps. However, this exposure is not expected to exceed 5%.

The Fund may also invest in derivatives for hedging and efficient portfolio management purposes (such as to manage risk and costs, or to generate additional capital or income).

- The Fund may enter into securities lending transactions for up to 30% of its assets. However, this is not expected to exceed 25%.
- The reference currency of the Fund is USD. The reference currency of this share class is EUR.
- The Fund is actively managed and does not track a benchmark. The reference benchmark for the Fund is MSCI All Country World Index (USD Net Total Return).
- The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- The deviation of the Fund's performance relative to the benchmark is also monitored, but not constrained, to a defined range.
- The investment management process will result in periods when the Fund's performance may be close to that of the reference benchmark, as well as periods when it is not.
- Income is distributed.
- You may sell your investment on most working days.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.
- This product is based overseas and is not subject to UK sustainable investment labelling and disclosure requirements.

#### **Risk and Reward Profile**

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

#### Why is this Fund in this specific category?

This Fund is classified in category 5 because its price or simulated data has shown medium to high fluctuations historically.

## Material risks not fully captured by the Risk and Reward Indicator:

- Counterparty Risk The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- Exchange Rate Risk Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- Investment Leverage Risk Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
  Liquidity Risk Liquidity Risk is the risk that a Fund may encounter
- Liquidity Risk Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- Operational Risk Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.
