HSBC GLOBAL INVESTMENT FUNDS - ECONOMIC SCALE JAPAN EQUITY

a sub-fund of HSBC Global Investment Funds, (the "UCITS");
managed by HSBC Investment Funds (Luxembourg) S.A.

Class:PD
ISIN:LU0011818076

Objectives and Investment Policy

- The aim is to provide capital growth and income on your investment over time.
- The Fund will normally invest at least 90% of its assets in equity securities (i.e. shares) of companies of any size that are based in or carry out most of their business in Japan.
- The investment process identifies companies according to their economic scale. The chosen measure of economic scale is a company's contribution to Gross National Product ("GNP"). This is also referred to as "Value Added" - the difference between a company's outputs and inputs.
- The Fund may invest up to 10% of its assets in closed-ended real estate investment trusts ("REITs").
- The Fund may invest up to 10% of its assets in other funds, including other funds of HSBC.
- The Fund may use derivatives for hedging or cash flow management purposes.
- The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- The reference currency of the Fund is JPY. The reference currency of this share class is JPY.
- The Fund is actively managed and does not track a benchmark. The reference benchmark for the Fund is MSCI Japan Net.
- The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- The investment management process will result in periods when the Fund's performance may be close to that of the reference benchmark, as well as periods when it is not.
- Income is distributed.
- You may sell your investment on most working days.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 6 because its price or simulated data has shown high fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.

- **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	0.75%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

- The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- A conversion charge of up to 1.00% of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
- The ongoing charges figure is based on last year's expenses for the year ending 31/03/2021. Charges may vary from year to year.

Further information on Charges can be found in the "Charges and Expenses" section of the Fund's Prospectus.

Past Performance

- Warning: the performance returns before the change in investment objective(s) on 24 October 2017 were achieved under circumstances that no longer apply.
- Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- The past performance of this share class is calculated in JPY.
- The reference benchmark for the Fund, for comparison purposes only, is the MSCI Japan Net.
- Historically the benchmark has been: TOPIX Price from launch until 31/12/2001; TOPIX Gross from 01/01/2002 until 16/02/2015 and HSBC Economic Scale Japan Net from 17/02/2015 until 24/10/2017.
- The Fund was launched on 16 January 1987.
