Objectives and Investment Policy

- The aim is to provide capital growth and income on your investment over time.
- The Fund will invest normally at least 90% of its assets in equity securities (i.e. shares) or similar securities of companies based in developed and emerging markets.
- The Fund will invest in companies positioned to benefit from growth of the consumer economy in China.
- Investments in Chinese equities include China A-shares and China B-shares with a maximum exposure of 30% of the Fund's assets. The Fund may invest up to 20% of its assets in China A-shares through the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and have up to 30% of its assets exposed to China A-shares indirectly through China A-shares Access Products (CAAP).
- The Fund may invest up to 10% of its assets in Real Estate Investment Trusts (REITs)
- The Fund may invest up to 10% in p-notes and convertible securities.
- The Fund may invest up to 10% of its assets in funds (including other funds of HSBC Global Investments Funds).
- The Fund may use derivatives to meet its investment objectives.
- The Fund may use derivatives for hedging and cash flow management.
- The reference currency of the Fund is USD. The reference currency of this share class is USD.
- The Fund is actively managed and does not track a benchmark. The reference benchmark for the Fund is MSCI AC World Net.
- The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- Income is reinvested.
- You may sell your investment on most working days.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 6 because its price or simulated data has shown high fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- **Concentration Risk** The Fund may be concentrated in a limited number of securities, economic sectors and/or countries. As a result, it may be more volatile and have a greater risk of loss than more broadly diversified funds.
- **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.

- **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- **Emerging Markets Risk** Emerging markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	1.90%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

- The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- A conversion charge of up to 1.00% of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
- The ongoing charges figure is based on last year's expenses for the year ending 31/03/2020. Charges may vary from year to year.

Further information on Charges can be found in the "Charges and Expenses" section of the Fund's Prospectus.

Past Performance

- Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- The past performance of this share class is calculated in USD.
- The reference benchmark for the Fund, for comparison purposes only, is the MSCI AC World Net.
- The Fund was launched on 23 September 2011.
