

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

HSBC GLOBAL INVESTMENT FUNDS - EURO CONVERTIBLE BOND

a sub-fund of HSBC Global Investment Funds, (the "UCITS");
managed by HSBC Investment Funds (Luxembourg) S.A.

Class:ZC
ISIN:LU1498393484

Objectives and Investment Policy

- The aim is to provide capital growth and income on your investment over time.
- A convertible bond is a type of debt security that may be converted into a predetermined number of shares in the issuing company (or cash or securities of equal value).
- The Fund will normally invest at least 75% of its assets in high and lower quality convertible bonds, unrated convertible bonds and other similar securities. The convertible securities will be issued by companies which are based in or which carry out most of their business in Europe.
- The convertible bonds will be primarily valued in Euro or in other currencies hedged into Euro.
- The Fund may invest up to 10% of its assets in convertible bonds issued by non-European companies, including companies based in emerging markets.
- The Fund may invest up to 15% of its assets in contingent convertible securities, however this is not expected to exceed 10%.
- The Fund may invest up to 25% of its assets in non-convertible securities.
- The Fund may invest up to 10% of its assets in equity securities (i.e. shares) of companies of any size.
- The Fund may invest up to 10% of its assets in other funds, including other funds of HSBC Global Investment Funds.
- The Fund may use derivatives for hedging, cash flow management and investment purposes.
- The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- The reference currency of the Fund is EUR. The reference currency of this share class is EUR.
- The Fund is actively managed and does not track a benchmark. The Fund has an internal or external target to a reference benchmark, Exane Eurozone Convertible.
- The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- The deviation of the Fund's performance relative to the benchmark is also monitored, but not constrained, to a defined range.
- Income is reinvested.
- You may sell your investment on most working days.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 3 years.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 4 because its price or simulated data has shown medium fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- **Convertible Bond Risk** Convertible securities are structured as bonds that typically can, or must, be repaid with a predetermined quantity of equity shares, rather than cash. Therefore, they carry both the risks of equities, and the credit and default risks typical of bonds.
- **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- **Credit Risk** A bond or money market security could lose value if the issuer's financial health deteriorates.
- **Default Risk** The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- **Interest Rate Risk** When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- **Investment Leverage Risk** Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	3.10%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	0.15%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

- The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- A conversion charge of up to 1.00% of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
- The ongoing charges figure shown here is an estimate of the charges as the share class has not been priced for a full financial year. The UCITS' annual report for each financial year will include detail on the exact charges made.

Further information on Charges can be found in the "Charges and Expenses" section of the Fund's Prospectus.

Past Performance

- The Sub-fund was created on 12/05/2017 following the merger by absorption of the French FCP HSBC Europe Convertibles (the "Merging Fund"). The Sub-fund and the Merging Fund have similar characteristics, in particular as regards the identity of their investment advisor, their investment objective and their charges and fees structure and their investment strategy. Performance returns represent the Z class of the Merging Fund until 12/05/2017. Prior to the Z class first price date on 09/12/2016, returns have been simulated using the track record of an older share class. The French FCP HSBC Europe Convertibles was similarly created on 16/12/2008 following the merger by absorption of the SICAV L Convertibles (the "Merging Fund 2"). Performance returns are those of the Merging Fund 2 from inception until 16/12/2008.
- Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- The past performance of this share class is calculated in EUR.
- The reference benchmark for the Fund, for comparison purposes only, is the Exane Eurozone Convertible.
- The Fund was launched on 12 May 2017.
- Insufficient data is available to provide past performance figures.

Practical Information

Depository Bank

HSBC Continental Europe, Luxembourg.

Further information

Further information about the Company including the Prospectus, the most recent annual and semi-annual reports of the Company and the latest share prices, may be obtained free of charge, in English, from the Registrar and Transfer Agent by emailing amgtransferagency@lu.hsbc.com, or by visiting www.global.assetmanagement.hsbc.com. The most recent Prospectus is available in English and German.

This document describes a single share class of a sub-fund of the Company. The Prospectus, annual and semi-annual reports are prepared for the entire Company.

Share classes

It is possible to switch your shares into shares of a different share class or sub-fund within the Company. Details of how to do this are in the "How to convert between Sub-Funds / Classes" section of the Prospectus.

Remuneration Policy

The up-to-date remuneration policy of the Management Company, including a description of how remuneration and benefits are determined, is available at www.global.assetmanagement.hsbc.com/about-us/governance-structure. A paper copy is available free of charge from the Management Company.

Tax

The Fund is subject to Luxembourg tax regulations. This may have an impact on your personal tax position.

Management Company

HSBC Investment Funds (Luxembourg) S.A. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Segregated liability

HSBC Global Investment Funds is an investment company ("Société d'Investissement à Capital Variable") with segregated liability between sub-funds under Luxembourg law. This means that the holdings of one sub-fund are kept separate from the holdings of the other sub-funds and your investment in the Fund cannot be used to pay the liabilities of any other sub-fund.
