

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

HSBC GLOBAL INVESTMENT FUNDS - GLOBAL CORPORATE BOND CLIMATE TRANSITION

a sub-fund of HSBC Global Investment Funds, (the "UCITS");
 managed by HSBC Investment Funds (Luxembourg) S.A.

Class:ZQ1HGBP
 ISIN:LU2055194323

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth and income by investing in a portfolio of corporate bonds, while promoting Environmental, Social and Governance (ESG) characteristics within the meaning of Article 8 of SFDR. The Fund aims to have a lower carbon intensity, calculated as a weighted average of the carbon intensities the Fund's investments, than the weighted average of the constituents of its reference benchmark.

The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.

Investment Policy:

In normal market conditions, the Fund will invest at least 80% in investment grade and non-investment grade bonds, and other similar securities issued by companies, based in developed markets and emerging markets.

The Fund will invest a minimum of 80% of net assets in fixed income securities issued by issuers that are deemed to be on a clear and measurable path by meeting certain climate transition related criteria ("Climate Transition Criteria"). The purpose of the climate transition assessment is to determine an issuer's progress or commitment towards alignment with Net Zero pathways (i.e. the projected emissions allowed to an issuer through to 2050 to meet the Paris Agreement goal to limit the temperature increase to 1.5 degrees Celsius compared to pre-industrial levels).

The Investment Adviser aims to construct a portfolio which aims for a lower carbon intensity, calculated as a weighted average of the carbon intensities of the Fund's investments, than the weighted average of the constituents of the reference benchmark which has been designed to achieve net zero carbon emissions by 2050. Companies and/or issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time. Please refer to the Prospectus for further details on excluded activities.

Climate Transition Criteria, environmental and social factors, corporate governance practices and excluded activities and the need for ESG due diligence may be identified and analysed by using, but not exclusively, HSBC's Proprietary ESG Materiality Framework and scores, fundamental qualitative research and corporate engagement. The Fund may invest up to 10% of its assets in onshore Chinese bonds through the China Interbank Bond Market, up to 10% of its assets in non-investment grade bonds, up to 10% in asset backed securities (ABS) and mortgage-backed securities (MBS), up

to 10% in contingent convertible securities, up to 10% in other funds, and may invest in bank deposits and money market instruments for treasury purposes.

The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings.

The Fund may also invest in derivatives for efficient portfolio management purposes, hedging and investment purposes. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ◆ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ◆ Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency GBP and the base currency of the Fund USD.
- ◆ The reference benchmark, shown in the past performance section, does not take account of currency hedging. There may be a greater difference between the past performance of the share class and the reference benchmark than for other share classes in the Fund.
- ◆ The Fund is actively managed and does not track a benchmark. The Fund has an internal or external target to a reference benchmark, ICE Global Corporate Climate Transition Index Hedged USD.
- ◆ The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- ◆ The deviation of the Fund's performance relative to the benchmark is also monitored, but not constrained, to a defined range.
- ◆ Income is distributed.
- ◆ You may sell your investment on most working days.
- ◆ Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.
- ◆ This product is based overseas and is not subject to UK sustainable investment labelling and disclosure requirements.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 4 because its price or simulated data has shown medium fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- ◆ **Callable Bond Risk** Any unexpected behaviour in interest rates could negatively impact the performance of callable debt securities (securities whose issuers have the right to pay off the security's principal before the maturity date).
- ◆ **CoCo Bond Risk** Contingent convertible securities (CoCo bonds) are comparatively untested, their income payments may be cancelled or suspended, and they are more vulnerable to losses than equities and can be highly volatile.

- ◆ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- ◆ **Credit Risk** A bond or money market security could lose value if the issuer's financial health deteriorates.
- ◆ **Default Risk** The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- ◆ **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- ◆ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ◆ **Interest Rate Risk** When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- ◆ **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ◆ **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ◆ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charge	3.10%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.21%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

Past Performance

- ◆ The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- ◆ A conversion charge of up to 1.00% of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
- ◆ The ongoing charges figure shown is an estimate due to a material change in the fee structure. The UCITS' annual report for each financial year will include detail on the exact charges made.

Further information on Charges can be found in the “Charges and Expenses” section of the Fund’s Prospectus.

- ◆ Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- ◆ Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- ◆ The past performance of this share class is calculated in GBP.
- ◆ The reference benchmark for the Fund, for comparison purposes only, is the ICE Global Corporate Climate Transition Index Hedged USD.
- ◆ Historically the benchmark has been: Bloomberg Barclays Global Aggregate Corporates Diversified Hedged USD from launch until 15/05/2025.
- ◆ The Fund was launched on 27 September 2017.

Practical Information

Depository Bank
HSBC Continental Europe, Luxembourg.

Further information
Further information about the Company including the Prospectus, the most recent annual and semi-annual reports of the Company and the latest share prices, may be obtained free of charge, in English, from the Registrar and Transfer Agent by emailing amgtransferagency@lu.hsbc.com, or by visiting www.global.assetmanagement.hsbc.com. The most recent Prospectus is available in English and German.
This document describes a single share class of a sub-fund of the Company. The Prospectus, annual and semi-annual reports are prepared for the entire Company.

Share classes
It is possible to switch your shares into shares of a different share class or sub-fund within the Company. Details of how to do this are in the “How to convert between Sub-Funds / Classes” section of the Prospectus.

Remuneration Policy
The up-to-date remuneration policy of the Management Company, including a description of how remuneration and benefits are determined, is available at

www.global.assetmanagement.hsbc.com/about-us/governance-structure. A paper copy is available free of charge from the Management Company.

Tax
The Fund is subject to Luxembourg tax regulations. This may have an impact on your personal tax position.

Management Company
HSBC Investment Funds (Luxembourg) S.A. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Segregated liability
HSBC Global Investment Funds is an investment company (“Société d’Investissement à Capital Variable”) with segregated liability between sub-funds under Luxembourg law. This means that the holdings of one sub-fund are kept separate from the holdings of the other sub-funds and your investment in the Fund cannot be used to pay the liabilities of any other sub-fund.

The Fund is authorised in the Grand Duchy of Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF).
This key investor information is accurate as at 20 June 2025.
