Disclaimer

No subscription can be received on the basis of financial reports only. Subscriptions are only valid if made on the basis of the current relevant Key Information Document and the current Prospectus accompanied by the latest annual and the most recent semi-annual report, if published thereafter.

The current Prospectus, the Key Information Document (“KID”) and the Articles of Incorporation, together with both the interim and audited annual reports are available free of charge upon request from the Management Company.

*Dealing and Official Net Asset Value calculation of Russia Equity sub-fund have been suspended since 25 February 2022 following Russia’s invasion of Ukraine and the resultant closure of the Russian Stock Market to most foreign investors and the imposition of EU and other sanctions on Russian companies and individuals (the “Suspension”). Given the elapsed time since the Suspension, the Board has taken the decision to liquidate the sub-fund as at 30 July 2025 in the best interest of Shareholders.

* Based on market circumstances due to the Ukraine and Russia Crisis since 25 February 2022, the Pricing Committee and Management company have agreed and instructed to write down to zero all the local RUB-denominated Russian equities held in the Portfolio of Investments.

** Dealing and Official Net Asset Value calculation of Russia Equity sub-fund have been suspended since 25 February 2022 following Russia's invasion of Ukraine and the resultant closure of the Russian Stock Market to most foreign investors and the imposition of EU and other sanctions on Russian companies and individuals (the "Suspension"). Given the elapsed time since the Suspension, the Board has taken the decision to liquidate the sub-fund in the best interest of Shareholders. The Pricing Committee and Management Company have agreed and instructed to write down to zero all the local RUB-denominated Russian equities held in the Statement of Investments.

*** The Total Net Assets of Multi-Strategy Target Return Sub-Fund and the Net Asset Value per Share on Share Classes IC, ICH GBP and ID have been adjusted for the prior year end as at 31 March 2024, following an over-accrual on Management Fees accrual, amounting to a total of USD 122,656, detected post year-end on 16 April 2024.

* Based on market circumstances due to the Ukraine and Russia Crisis since 25 February 2022, the Pricing Committee and Management company have agreed and instructed to write down to zero all the local RUB-denominated Russian equities held in the Portfolio of Investments.

** Dealing and Official Net Asset Value calculation of Russia Equity sub-fund have been suspended since 25 February 2022 following Russia's invasion of Ukraine and the resultant closure of the Russian Stock Market to most foreign investors and the imposition of EU and other sanctions on Russian companies and individuals (the "Suspension"). Given the elapsed time since the Suspension, the Board has taken the decision to liquidate the sub-fund in the best interest of Shareholders. The Pricing Committee and Management Company have agreed and instructed to write down to zero all the local RUB-denominated Russian equities held in the Statement of Investments.

* Swung Net Asset Value per Share (see Note 14).

** Hedged Classes.

*** Dealing and Official Net Asset Value calculation of Russia Equity sub-fund have been suspended since 25 February 2022 following Russia's invasion of Ukraine and the resultant closure of the Russian Stock Market to most foreign investors and the imposition of EU and other sanctions on Russian companies and individuals (the "Suspension"). Given the elapsed time since the Suspension, the Board has taken the decision to liquidate the sub-fund in the best interest of Shareholders. The Pricing Committee and Management Company have agreed and instructed to write down to zero all the local RUB-denominated Russian equities held in the Statement of Investments.

NAV per share for share classes closed during the reporting period are considered as of closing date.

NAV per share as at 31 March 2024 were presented in sub-fund currency. Starting from 31 March 2025, there is a change in the presentation of the NAV per share as the values will be now disclosed in share classes currencies.

Notes to the Financial Statements

As at 30 September 2025

1. General information

HSBC Global Investment Funds (the “Company”) is incorporated under the laws of the Grand Duchy of Luxembourg as an investment company with variable capital (Société d’Investissement à Capital Variable or “SICAV”). The capital comprises various separate portfolios (a “sub-fund”) consisting of securities, cash and other sundry assets and liabilities and each sub-fund may comprise various classes of shares being distinct from the other due to their fee structure, distribution policy and target investors.

The accompanying financial statements present the assets and liabilities and the statement of operations and changes in net assets of the individual sub-funds and of the Company taken as a whole. The financial statements of each individual sub-fund are expressed in the currency designated in the Prospectus for that particular sub-fund and the combined financial statements of the Company are expressed in United States Dollars (USD). The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statements of each sub-fund.

The financial statements have been prepared in accordance with the format prescribed by the Luxembourg authorities for Luxembourg investment companies under the going concern basis of accounting except for the sub-funds Asia ESG Bond, ESG Short Duration Credit Bond and Russia Equity. Asia ESG Bond and ESG Short Duration Credit Bond sub-funds were put into liquidation on 16 May 2025 and Russia Equity is under liquidation since 30 July 2025, and as such, the financial statements for these sub-funds have been prepared on a non-going concern basis.

For the sub-funds for which the financial statements have been prepared on a non-going concern basis, the following accounting policies differ from those described in the following notes:

- Expected liquidation expenses (if any) will be covered as part of the Operating, Administrative and Servicing Fees;
- Any remaining formation expenses have been fully expensed;
- The valuation of the sub-funds’ investments are based on their net realizable value.

The application of the non-going concern basis of accounting has not led to adjustments to the sub-funds’ published net asset value.

The Company is an officially registered investment fund under part I of the amended 2010 Law and qualifies as a UCITS fund under the European Directive 2009/65/EC.

Certain sub-funds of the Company are authorised by the Hong Kong Securities and Futures Commission under Section 104 of the “Securities and Futures Ordinance”.

In the Prospectus and in the various reports, the short names of the sub-funds are used. The complete name of each sub-fund consists of “HSBC Global Investment Funds” plus the short name of the sub-fund.

From 1 April 2025 to 30 September 2025:

- a) The following sub-fund has been closed:
- ▶ Asia ESG Bond on 16 May 2025
 - ▶ ESG Short Duration Credit Bond on 16 May 2025

c) Russia Equity status moved from "Suspended" to "In liquidation" from 30 July 2025.

2. Accounting policies

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the Company's financial statements.

a. Accounting convention

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds.

b. Assets and portfolio securities valuation

Portfolio securities and/or financial derivative instruments which are listed on an official stock exchange are valued at the last available price on the principal market on which such securities are traded. Securities traded on other organised markets are valued at the last available price or yield equivalents obtained from one or more dealers in such organised markets at the time of valuation.

If such prices are not representative of their fair value, all such securities and all other permitted assets shall be valued at their fair value at which it is expected they may be resold as determined in good faith by or under the direction of the Board of Directors.

The assets of the sub-funds are valued using prices available at different times during the day of 30 September 2025, being the last business day of the reporting period.

The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in accordance with market practice as follows:

Options

Outstanding options traded on a regulated market are valued based on the intraday price or the last available market price of the instruments.

OTC options are marked to market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty.

The market value of options is included in the statement of net assets under the headings "Unrealised Gain/(Loss) on Options".

The realised gains/(losses) and change in unrealised appreciation/(depreciation) on options are disclosed in the statement of operations and changes in net assets respectively under the headings "Realised Gains/(Losses) on Derivatives" and "Change in Unrealised Appreciation/(Depreciation) on Derivatives".

Futures Contracts

Upon entering into a futures contract, the Company is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by each sub-fund periodically and are based on changes in the market value of open futures contracts.

The unrealised appreciation/(depreciation) on futures Contracts is disclosed in the statement of net assets under “Unrealised Gain on Futures Contracts” and “Unrealised Loss on Futures Contracts”. Changes in the market value of open futures contracts are recorded as unrealised appreciation/(depreciation) in the statement of operations and changes in net assets under “Change in Unrealised Appreciation/(Depreciation) on Derivatives”. Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under “Realised Gains/(Losses) on Derivatives”. Securities deposited as initial margin account are designated in the Portfolio of investments and other Net Assets and cash deposited is recorded in the statement of net assets in “Cash at bank”. A receivable and/or a payable to brokers for the daily variation margin is also recorded in the statement of net assets under caption Cash at Bank or Bank Overdraft.

Forward Foreign Exchange Contracts

The values of the Forward Foreign Exchange Contracts are adjusted daily based on the applicable forward exchange rate of the underlying currency for the remaining period, until maturity. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until the contract settlement date. When the forward contract is Securities are initially recognised at cost, being closed, the sub-fund records a realised gain or loss equal to the difference between the value at the time the contract was opened and the value at the time it was closed.

The unrealised appreciation/(depreciation) on Forward Foreign Exchange Contracts is disclosed in the statement of net assets under “Unrealised Gain on Forward Foreign Exchange Contracts” and “Unrealised Loss on Forward Foreign Exchange Contracts”. Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under “Realised Profit/(Loss) on Derivatives” and “Change in Unrealised Appreciation/(Depreciation) on Derivatives”.

Interest Rate Swaps

Interest rate swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under “Unrealised Gain on Swaps” and “Unrealised Loss on Swaps”. Realised gains/(losses) and changes in unrealised appreciation/(depreciation) as a result thereof are included in the statement of operations and changes in net assets respectively under “Realised Profit/(Loss) on Derivatives” and “Change in Unrealised Appreciation/(Depreciation) on Derivatives”.

Credit Default Swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party (the protection buyer) pays the other (the protection seller) a fixed periodic coupon for the specified life of the agreement in return for a payment contingent on a credit event related to the underlying reference obligation.

If a credit event occurs, the protection seller would be obliged to make a payment, which may be either: (i) a net cash settlement equal to the notional amount of the swap less the auction value of the reference obligation or (ii) the notional amount of the swap in exchange for the delivery of the reference obligation. Selling protection effectively adds leverage to a Company’s portfolio up to the notional amount of swap agreements.

Credit Default Swaps (continued)

Credit default swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under “Unrealised Gain on Swaps” and “Unrealised Loss on Swaps”. Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under the heading “Realised Profit/(Loss) on Derivatives” and “Change in Unrealised Appreciation/(Depreciation) on Derivatives.”

Total Return Swaps

A total return swap is a bilateral agreement in which each party agrees to exchange payments based on the performance of an underlying instrument represented by a security, commodity, basket or index thereof for a fixed or variable rate. One party pays out the total return of a specific reference asset, and in return, receives a regular stream of payments. The total performance will include gains and losses on the underlying, as well as any interest or dividends during the contract period according to the type of underlying. The cash flows to be exchanged are calculated by reference to an agreed upon notional amount or quantity. To the extent the total return of the reference asset underlying the transaction exceeds or falls short of the offsetting payment, the Company will receive a payment from or make a payment to the counterparty.

Total return swaps are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contract, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under “Unrealised Gain on Swaps” and “Unrealised Loss on Swaps”. Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under the heading “Realised Profit/(Loss) on Derivatives” and “Change in Unrealised Appreciation/(Depreciation) on Derivatives”.

As at 30 September 2025, there is no total return swap derivative held in the portfolio of investments.

Collective Investment Schemes

Shares or units in underlying open-ended investment sub-funds are valued at their last available Net Asset Value reduced by any applicable charges.

Money Market Investments

The Company uses the amortized cost method of valuation in valuing its portfolio of financial instruments in the form of short term debt (such as commercial paper, certificate of deposit, treasury bills). In addition, in the rare circumstances where a fixed income instrument with a time to maturity exceeding 90 days becomes stale, the Company will effectively value it at amortised cost until such date when it is either sold or its market becomes active again.

Mortgage related securities - To Be Announced securities (TBAs)

TBA positions refer to the common trading practice in the mortgage backed securities market in which a security is to be bought from a mortgage pool (e.g., Ginnie Mae, Fannie Mae or Freddie Mac) for a fixed price at a future date. At the time of the purchase the exact security is not known, but the main characteristics of it are specified. Although the price has been established at the time of the purchase, the principal value has not been finalised. TBA positions are disclosed in the portfolio of investments and other net assets. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under "Payable on Investment Purchase" in the statement of net assets. Negative positions in the portfolio of investments and other net assets reflect the Fund's sale commitments of TBAs. The amount corresponding to the receivable due when the transaction is settled, is disclosed under "Receivable on Investment Sold" in the statement of net assets. The realised gains/(losses) on TBAs and changes in unrealised appreciation/(depreciation) are disclosed in the statement of operations and changes in net assets respectively under the headings "Realised Profit/(Loss) on Investments" and "Change in Unrealised Appreciation/(Depreciation) on Investments".

c. Income and expenses

Dividends are accounted for on an ex-dividend basis. Dividends are reflected in the Statement of Operations and Changes in Net Assets, net of withholding taxes, under the caption "Investment Income, net".

Interest income on debt securities is accrued on a day-to-day basis. In the case of debt securities issued at discount or premium to maturity value, the total income arising on such securities, taking into account the amortisation of such discount or premium on an effective interest rate basis, is spread over the life of the security. Interest income on bonds are accounted for using the effective interest rate ("EIR") method. Interest income on debt securities are reflected in the statement of operations and changes in net assets under the caption "Investment Income, net".

The interest income / expense on interest rate swap contracts (IRS) are accrued on a day-to-day basis. The net interest income / expense on interest rate swap contracts (IRS) are reflected in the Statement of Operations and Changes in Net Assets under the caption "Investment Income, net".

d. Foreign exchange

The cost of investments, income and expenses in currencies other than the sub-funds' relevant reporting currency have been recorded at the rate of exchange ruling at the time of the transaction. The market value of investments and other assets and liabilities in currencies other than the relevant reporting currency have been converted at the rates of exchange ruling at 30 September 2025.

e. Realised profit/(loss) on sale of investments

Realised profit/(loss) on sale of investments is the difference between the historical average cost of the investment and the sale proceeds (excluding any transaction expenses as further explained in Note 5).

f. Foreign currency translation

The reference currency of the Fund is USD and the combined statements are expressed in that currency. The books and records of each sub-fund are denominated in the reference currency of the corresponding sub-fund.

Income and expenses, assets and liabilities expressed in currencies other than the reference currency of the Fund are converted at exchange rate prevailing at period-end.

Notes to the Financial Statements (continued)

As at 30 September 2025

2. Accounting policies (continued)

f. Foreign currency translation (continued)

Here are the main exchange rates applied at period-end.

1 USD = EUR 0.8511

g. Segregated liability

The Company has segregated liability between its sub-funds; meaning, the assets of a sub-fund are exclusively available to satisfy the rights of shareholders in relation to that sub-fund and the rights of creditors whose claims have arisen in connection with the creation, operation and liquidation of that sub-fund.

h. Securities lending

The Company may enter into Securities Lending transactions by which a counterparty transfers securities subject to a commitment that the borrower will return equivalent securities at a future date or when requested to do so by the transferor, that transaction being considered as securities lending for the counterparty transferring the securities and being considered as securities borrowing for the counterparty to which they are transferred.

The Company will ensure that it is able at any time to recall any securities that has been lent out or terminate any Securities Lending agreement into which it has entered.

All revenues (less transaction costs) from Securities Lending transactions are accrued to the relevant sub-fund based on information confirmed by the Lending Agent.

Detail on Security Lending transaction is disclosed in Note 11 of the current report.

To guarantee this transaction, the relevant sub-fund receives collateral. Securities on loan are delivered to a third party broker, the assets lent continue to be valued as part of the portfolio of the relevant sub-fund. Upon termination of a loan, the relevant sub-fund is required to return to the borrower the posted collateral. This remuneration is accounted for in the Statement of Operations and Changes in Net Assets under "Investment income, net".

i. Spot foreign currency transactions

Unsettled spot foreign currency transactions as at 30 September 2025 are recorded under "Receivable on Unsettled Spot Foreign Currency Transactions" and "Payable on Unsettled Spot Foreign Currency Transactions" in the Statement of Net Assets.

j. Trailer fees and rebates

The Company pays management fees to the Management Company. Trailer fees are either taken out of the management fees or the Management Company may instruct the Company to pay a portion of the management fees directly out of the assets of a sub-fund to a recognised intermediary. In both cases, the management fees due are reduced accordingly.

* Successive J, L, M, R, YP and ZP Share Classes in a given sub-fund may be numbered 1, 2, 3.... and would be referred to as J1, J2, J3 (...), L1, L2, L3 (...), M1, M2, M3 (...), N1, N2, N3 (...), R1, R2, R3 (...), YP1, YP2, YP3 (...) and ZP1, ZP2, ZP3 (...).

** Successive S Share Classes will be issued in one or different sub-funds, numbered 1, 2, 3 etc. and named S1, S2, S3 etc. for the first, second and third S Class launched respectively.

The Board of Directors of the Company is authorised to issue different Classes of Shares in one or more sub-funds. Details of the characteristics of such Share Classes offered shall be determined at the sole discretion of the Board of Directors. In case of the creation of any additional Classes of Shares, the Prospectus shall be updated.

The subscription proceeds of all Shares in a sub-fund are invested in one common underlying portfolio of investments. All Shares of the same Class have equal rights and privileges. Each Share is, upon issue, entitled to participate equally in assets of the relevant class of the sub-fund to which it relates on liquidation and in dividends and other distributions as declared for such sub-fund. The Shares shall carry no preferential or pre-emptive rights and each whole Share shall be entitled to one vote at all meetings of shareholders.

Notes to the Financial Statements (continued)

As at 30 September 2025

3. Share capital (continued)

The Board of Directors may suspend the right to vote of any shareholder who does not comply with his/her/its obligations set out in the Articles of Incorporation and/or any document (including any application form) stating his/her/its obligations towards the Company and/or the other shareholders. In case the voting rights of one or more shareholders are suspended in accordance with the above paragraph, such shareholders shall be sent the convening notice for any general meeting and may attend the general meeting but their Shares shall not be taken into account for determining whether the quorum and majority requirements are satisfied. Any shareholder may undertake (personally) not to exercise his/her/its voting rights in respect of all or part of his/her/its Shares, temporarily or indefinitely.

The minimum initial investment amount may be waived or reduced at the discretion of the Board of Directors of the Company.

Share Class Denominations and Successive Classes:

The Share Classes issued in the different sub-funds are designated by their class name, followed by their distribution characteristics and, if applicable, their specific hedging policy and the currency into which the Base Currency is hedged. This means that for example Shares issued in Class A which are distributing income and applying a hedging policy to Euro, as defined above, would be identified as ADHEUR whereas Class I Shares accumulating income would be identified as IC.

Distribution Shares are identifiable by a "D" following the sub-fund and Class names (e.g., Class AD), with the exception of Monthly Distribution Shares which are identifiable by a "M" following the sub-fund and Class names (e.g., Class AM), Bi-Monthly Distribution Shares which are identifiable by a "B" following the sub-fund and Class names (e.g., Class AB), Quarterly Distribution Shares which are identified by a "Q" following the sub-fund and Class names (e.g., Class AQ) and Semi-Annual Distribution Shares which are identified by a "S" following the sub-fund and Class names (e.g., Class AS). Shares that distribute a fixed dividend rate are identified by a "FIX5", a "FIXA" or a "TW" (e.g., Class AMFIX5, Class AMFIXA, Class AMTW) and shares that distribute a variable dividend rate are identified by a "FLX" (e.g., Class AMFLX).

Within each Share Class of a sub-fund, separate currency hedged classes may be issued (suffixed by "H" or "O" and the currency into which the Base Currency is hedged or the currency into which the sub-fund total assets are primarily invested in, is hedged. These currency hedged share classes shall be named: "ACHEUR" or "ACOEUR" for a Capital-Accumulation Share Class hedged into Euro). Any fees of the Administrator or other appointed parties relating to the execution of the currency hedging policy shall be borne by the relevant currency hedged class. These fees are in addition to the operating, administrative and servicing expenses detailed below. Any gains or losses shall also accrue to the relevant currency hedged class.

4. Charges and expenses

a. Explanation of the charging structure

Investment in the Company is generally offered via charging structures, as represented by the A, B, E, F, I, J, K, L, M, N, P, R, S, SP, T, U, W, X, Y, YP, Z and ZP Classes of Shares.

HSBC Investment Funds (Luxembourg) S.A. (the "Management Company") is entitled, in respect of each Class of Shares, to a management fee to cover all investment management, investment advisory and distribution services provided in relation to the relevant class (see paragraph (b) headed "Management Fee" below).

In addition, the Company pays to the Management Company a fee to cover operating, administrative and servicing expenses. To safeguard shareholders from fluctuations in a sub-fund's operating, administrative and servicing expenses, the Company has agreed with the Management Company that the fee charged to cover such operating, administrative and servicing expenses is fixed at an annual rate.

The potential excess of such expenses above such annual rate shall be borne directly by the Management Company (see paragraph (e) headed "Operating, Administrative and Servicing Expenses/Operating Currency Hedged Share Class Fees" below).

Notes to the Financial Statements (continued)

As at 30 September 2025

4. Charges and expenses (continued)

b. Management fee

The Company pays to the Management Company an annual management fee calculated as a percentage of the Net Asset Value of each sub-fund or share class ("Management Fee"). The Management Fee is accrued daily and payable monthly in arrears.

The Management Fee covers investment management, investment advisory and distribution services provided in relation to the relevant sub-fund of the Company by the Management Company, the Investment Advisers and the Distributors. The Management Company is responsible for paying, out of such fee, the fees of the Investment Advisers and the Distributors and may pay part of such fee to recognised intermediaries or such other person as the Management Company may determine, at its discretion.

The Management Company may instruct the Company to pay a portion of the Management Fee directly out of the assets of the Company to any of such service providers or identified persons. In such case, the Management Fee due to the Management Company is reduced accordingly. If the Company invests in shares or units of UCITS (including other sub-funds of the Company) and other eligible UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is linked by way of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, then there will be no duplication of management, subscription or repurchase fees between the Company and the UCIs into which the Company invests.

The effective management fee payable to the Management Company out of the net asset value of the relevant category of shares issued in the sub-fund is presented in the Key Figures section of the report. The maximum management fees payable to the Management Company are presented in the latest prospectus of the Company.

c. Directors' fees, expenses and interests

A Director may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is interested, provided that he has disclosed to the other Directors, prior to the conclusion of any such transaction or arrangement, the nature and extent of any interest of his therein. Subject to approval of the Board, a Director may vote in respect of any contract or arrangement or any proposal whatsoever in which he has an interest, having first disclosed such interest. He shall not be disqualified by his office from contracting with the Company. If a Director declares his interest in any contract which the Company is considering entering into, he may be counted in the quorum of any meeting to consider the contract and may vote on any resolution to enter into such contract, provided that the decision to be taken by the Board of Directors relates to the current operations entered into under normal conditions.

The Company pays an annual fee to each of the Independent Directors amounting to EUR 55,000. This amount is paid by the Management Company through the operating, administrative and servicing expenses paid by the Company. The amount of Operating, Administrative and Servicing Expenses is accrued with every net asset value calculation and paid quarterly in arrears. For the period-end as at 30 September 2025, a total of EUR 82,500 has been charged as Independent Directors' fees.

d. Operating, Administrative and Servicing Expenses / Operating Currency Hedged Share Class Fees

The Company pays to the Management Company fees to cover certain Operating, Administrative and Servicing expenses and the execution of the currency hedging policy. The Management Company is responsible for discharging out of this fee, the expenses described below, inter alia, payable to the Depositary Bank, the Administration Agent and the Registrar and Transfer Agent or any other appointed entity. If the total actual expenses described below exceeds the total of Operating, Administrative and Servicing Expenses and the Operating Currency Hedged Share Class Fee set for each sub-fund and Share class, the excess of such expenses above such annual percentage will be borne directly by the Management Company or its affiliates, and equally the Management Company or its affiliates may retain any surplus.

Notes to the Financial Statements (continued)

As at 30 September 2025

4. Charges and expenses (continued)

d. Operating, Administrative and Servicing Expenses / Operating Currency Hedged Share Class Fees (continued)

(i) Operating, Administrative and Servicing Expenses cover the ongoing custody/depositary fees and safekeeping charges payable to the Depositary Bank and its correspondent banks, fees for Fund accounting and administration services (including domiciliary services) payable to the Administration Agent and transfer, registrar and payment agency fees payable to the Registrar and Transfer Agent.

Operating, Administrative and Servicing Expenses also cover expenses relating to the creation of new sub-funds; the costs of the Subsidiaries; the Luxembourg asset-based tax d'abonnement, at the rate referred to under Section "Taxation" of the Company's Prospectus; fees and reasonable out-of-pocket expenses incurred by the Board of Directors; legal and auditing fees and expenses; ongoing registration and listing fees, including translation expenses; the costs and expenses of preparing, printing, and distributing the Company's Prospectus, Key Investor Information Documents, financial reports, statements and other documents made available directly or through intermediaries to its shareholders.

This fee is set, for each sub-fund and/or Class, at a fixed percentage of the Net Asset Value of the relevant sub-fund or Class specified in the Company's Prospectus dated June 2025 (as specified in the table on page 75 and following).

No Operating, Administrative and Servicing Expenses shall be charged to Class W Shares. All the fees and charges allocated to such Class of Shares shall be paid directly by a member or an affiliated entity of HSBC Group.

(ii) Operating Currency Hedging Fees cover the fees of the Administration Agent or other appointed parties relating to the execution of the currency Hedged Share Class policy for the Currency Hedged Share Classes as described in "Profile of the Typical Investor Categories".

The maximum rate for (i) and (ii) together for Class A, B, E, I, J, L, M, N, P, R, S, X, Y, YP, Z and ZP Shares is 1.0%. However, the Board of Directors reserves the right to amend the levels of the above fees applicable to each Class of Shares. In the event of an increase of such expenses, the concerned shareholders will be given at least one-month prior notice, of such increase. During this notice period, such shareholders may request the redemption of their Shares, free of charge.

The Management Company may instruct the Company to pay a portion of the aforesaid fees directly out of the assets of the Company to any of the aforementioned service providers. In such case the fee due to the Management Company is reduced accordingly.

The effective Operating fees payable out of the net asset value of the relevant category of shares issued in the sub-fund is presented in the Key Figures section of the report.

5. Transaction expenses and extraordinary expenses

Transaction expenses linked to security dealing are included with the cost of investments purchased and deducted from the proceeds received on sales of investments and are included in the statement of operations and changes in net assets under the heading "Transaction Fees".

Each sub-fund bears the costs and expenses of buying and selling portfolio securities and financial instruments, brokerage fees and commissions, interest or taxes payable, and other transaction related expenses. These transaction fees are accounted for on a cash basis and are paid when incurred or invoiced from the net assets of the sub-fund to which they are attributable. Transaction fees are allocated across each sub-fund's Share Classes.

The Company bears any extraordinary expenses including, without limitation, litigation expenses and the full amount of any tax, levy, duty or similar charge and any unforeseen charges imposed on the Company or its assets.

For debt securities and derivatives, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

6. Taxation of the Company

The following is based on the Company's understanding of the law and practice currently in force in the Grand Duchy of Luxembourg and is subject to changes therein.

The Company is not liable to any Luxembourg tax on profits or income or gains and is not subject to net wealth tax in the Grand Duchy of Luxembourg. No stamp duty, capital duty or other tax will payable in Luxembourg upon the issue of the Shares of the Company. Distributions made by the Company as well as liquidation proceeds and capital gains derived therefrom are not subject to withholding tax or VAT in the Grand Duchy of Luxembourg.

The Company is however liable in Luxembourg to a tax of 0.05% per annum of its Net Asset Value, such tax being payable quarterly on the basis of the value of the net assets of the Company at the end of the relevant calendar quarter. The tax rate is reduced to 0.01% per annum for Classes SP, ZP, J, L, S, W, X and Z Shares in the relevant sub-funds.

The classes/sub-funds may be exempted from this 0.01% tax if they comply with the requirements of the articles 174 and 175 of the 2010 Law which include: (i) the shares of the class/sub-fund must be reserved to institutional investors; (ii) the exclusive object of the class/sub-fund's portfolio must be the investment in money market instruments and/or deposits with credit institutions; (iii) the remaining average maturity of the class/sub-fund's portfolio must be less than 90 days; and (iv) the class/sub-fund must benefit from the highest possible rating of a recognized rating agency.

Since 1 January 2021, subject to certification and in case the proportion of net assets of an individual sub-fund invested in sustainable economic activities ("Sustainable Economic Activities") as defined in Article 3 of the Taxonomy Regulation (except for the proportion of net assets an individual sub-fund invested in fossil gas and/or nuclear energy related activities), a reduced subscription tax rate applies as indicated in the list below:

The reduced subscription tax rates would be of:

- 0.04% if at least 5% of the total net assets of the sub-fund, are invested in Sustainable Economic Activities;
- 0.03% if at least 20% of the total net assets of the sub-fund are invested in Sustainable Economic Activities;
- 0.02% if at least 35% of the total net assets of the sub-fund are invested in Sustainable Economic Activities; and
- 0.01% if at least 50% of the total net assets of the sub-fund are invested in Sustainable Economic Activities.

Following are also exempt from this tax:

- a) The portion of any sub-fund's assets (prorata) invested in a Luxembourg investment fund or any of its sub-funds to the extent it is subject to the subscription tax;
- b) Any sub-fund, whose securities are reserved for (i) institutions for occupational retirement pension or similar investment vehicles, set up on one or more employers' initiative for the benefit of their employees and (ii) companies of one or more employers investing funds they hold, to provide retirement benefits to their employees and (iii) savers in the context of a pan-European personal pension product established under Regulation (EU) 2019/1238 of the European Parliament and of the Council of 20 June 2019 on a pan-European personal pension product (PEPP);
- c) Any sub-funds whose main objective is the investment in microfinance institutions; and
- d) Any sub-fund, (i) whose securities are listed or traded on a stock exchange and (ii) whose exclusive object is to replicate the performance of one or more indices. If several Share Classes are in issue in the relevant sub-fund meeting (ii) above, only those Share Classes meeting (i) above will benefit from this exemption.

Notes to the Financial Statements (continued)

As at 30 September 2025

6. Taxation of the Company (continued)

No Luxembourg tax is payable on the realised or unrealised capital appreciation of the assets of the Company.

Other Taxes

Under applicable foreign tax laws, withholding taxes may be deducted from interest and dividends and capital gains taxes may be payable at various rates. For the summary of foreign tax laws and practices, refer to Appendix I.

General

In many markets the Company, as a foreign investment fund, may be subject to non-recoverable tax on income and gains (either by withholding or direct assessment) in relation to the investment returns it realizes from its holdings of shares and securities in those markets. Where practicable the Company shall make claims under the relevant double tax treaties and domestic law of the countries concerned in order to minimize the impact of local taxation on the investment return and to obtain the best return for its shareholders. Those claims shall be made on the basis of the Company's understanding of the validity of such claims given the information available from the Company's depositaries, external advisers and other sources as to the interpretation and application of the relevant legal provisions by the tax authorities in the country concerned.

The Company shall seek to provide for tax on capital gains where it considers that it is more likely than not that the tax shall be payable, given the advice and information available to the Company at the date concerned. However, any provision held may be insufficient to cover, or be in excess of, any final liability.

The Company shall seek to claim concessionary tax treatment and account for tax on a best efforts basis, given the tax law and practices at that date. Any change in tax law or practice in any country where the Company is registered, marketed or invested could affect the value of the Company's investments in the affected country. In particular, where retrospective changes to tax law or practice are applied by the legislature or tax authorities in a particular country these may result in a loss for current Shareholders in the affected sub-fund. The Company does not offer any warranty as to the tax position of returns from investments held in a particular market nor of the risk of a retrospective assessment to tax in a particular market or country.

7. Net asset value disclosures

a. Closing prices

The assets of the sub-funds are valued using prices available at different times during the day of 30 September 2025, being the last business day of the reporting period.

The following sub-fund were valued using prices available at different dates, prior to 30 September 2025:

Sub-fund	Valuation date
Global High Yield Securitised Credit Bond	29 September 2025

If the Company had calculated the Net Asset Values solely with a view to publication, the market prices used to value the net assets would have been the closing prices on 30 September 2025. However, these Net Asset Values would not have been significantly different from those shown in these financial statements.

b. Cross sub-fund investments

As at 30 September 2025, the total cross sub-fund investments amounts to USD 982,084,512 and therefore the total combined net assets at the period end without cross sub-fund investments would amount to USD 51,490,620,277.

10. Other Income

Other income mainly consists of dilution levy (refer to Note 14).

11. Security Lending

Each sub-fund may for the purpose of generating additional capital or income (either through the fee paid by the borrowers or the reinvestment of the cash collateral) or for reducing costs participate in Securities Lending subject to complying with the provisions set forth in Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse ("SFTR"), ESMA's Guidelines of 1 August 2014 on ETFs and other UCITS issues (ESMA/2014/937EN) (the "ESMA Guidelines on ETFs and other UCITS issues"), CSSF Circular 08/356 relating to the rules applicable to undertakings for collective investment when they use certain techniques and instruments relating to transferable securities and money market instruments and CSSF Circular 14/592 relating to the ESMA Guidelines on ETFs and other UCITS issues (the "CSSF Circular 14/592") and any other applicable laws, regulations, circulars or CSSF positions as may be amended or replaced.

The Board of Directors has delegated the implementation, management and day to day oversight of a Securities Lending Programme to the Management Company. The Management Company may decide which sub-fund should participate in a Securities Lending programme in which securities are transferred temporarily to approved borrowers by the Management Company in exchange for collateral. Any of the transferable securities or money market instruments belonging to a sub-fund may be subject to Securities Lending. The Management Company report regularly to the board on the Securities Lending activity and remain subject to the ongoing supervision and control of the board in relation to the Securities Lending Programme.

The aim is to use Securities Lending on a continuous basis. The proportion of a sub-fund's net assets subject to Securities Lending transactions is intended to be around 25%.

The Lending Agent, shall receive a fee of 15% of the gross revenue for its services related to Securities Lending and the Management Company a fee of 10% of the gross revenue for the oversight work undertaken in relation to Securities Lending. The remainder (75%) of the gross revenue is received by the relevant sub-funds taking part in the Securities Lending program. The detail of return and cost for each sub-fund are disclosed on Appendix VII (Unaudited Additional Disclosures) – Securities Financing Transactions Regulation ("SFTR") from page 485 to page 540.

The approval and selection process for counterparties to Securities Lending is a dynamic assessment of counterparties based on various criteria. Criteria used for approval of counterparties may include, but are not limited to, a counterparty's minimum credit rating, country or origin, accessibility, execution of specialized trade and regulatory risk profile.

No soft commission arrangements are in place, except commission sharing arrangements as specifically detailed below.

In some locations, the investment adviser and its connected persons have entered into commission sharing arrangements (related solely to research services, defined as soft commissions by the Hong Kong Securities and Futures Commission, that are utilized by the Fund) with certain brokers, for which goods and services used to support the investment decision making process were received by it or its connected persons.

The investment adviser or its connected persons do not make direct payment for these services, but transact and agree an amount of business with brokers on behalf of the sub-funds concerned. All transactions were entered into in the ordinary course of business and on normal commercial terms.

Commissions were paid by the Company on these transactions. The goods and services utilized for the Company include the following: research and advisory services, economic and political analysis, portfolio analysis, market analysis and investment related publications.

c. Director holdings in the Company

Timothy Palmer acquired, prior to his appointment as a Director of the Company, and holds shares in HGIF Turkey Equity.

13. List of movements in the investment portfolio

The detailed list of movements in the investment portfolio can be obtained free of charge upon request at the registered office of the Company.

14. Anti-Dilution Mechanisms

There are two Anti-Dilution Mechanisms available to each sub-fund, a Pricing Adjustment and an Anti-Dilution Levy, both mechanisms aim to protect shareholders in a sub-fund. There are 2 different Pricing Adjustment mechanisms: a Partial Swing Pricing Adjustment and a Full Swing Pricing Adjustment (which operates only for Sub-Fund Corporate Euro Bond Fixed Term 2027).

When investors buy or sell Shares in a sub-fund, the Investment Adviser may need to buy or sell the underlying investments within the sub-fund. Without an Anti-Dilution Mechanism to take account of these transactions, all Shareholders in the sub-fund would pay the associated costs of buying and selling these underlying investments. These transaction costs can include, but are not limited to, bid-offer spreads, brokerage and taxes on transactions.

Notes to the Financial Statements (continued)

As at 30 September 2025

14. Anti-Dilution Mechanisms (continued)

Anti-Dilution Levy

Until Anti-Dilution Mechanism's threshold rate is triggered, no Anti-Dilution Levy or Pricing Adjustment is applied and the transaction costs will be borne by the sub-fund. This will result in a dilution (reduction in the Net Asset Value per Share) to existing Shareholders. Investors should note that sub-distributors may levy the sales charge (if any) on an investor's full subscription and may not take into account the application of an Anti-Dilution Levy. For the avoidance of doubt, it is clarified that fees other than the sales charge will continue to be calculated on the basis of the unadjusted Net Asset Value for Pricing Adjustment.

There is an adjustment of the Net Asset Value per Share only when a Pricing Adjustment is applied. When Anti-Dilution Levy is applied, in the case of net capital inflows, the Anti-Dilution Levy will be deducted from each subscription amount and accordingly reduce the number of Shares received by an investor or, in the case of net capital outflows, will be deducted from each redemption amount and accordingly reduce the redemption proceeds received by an investor. The amount of the Anti-Dilution Levy may be up to a maximum of 2% and may be reduced or waived at the discretion of the Board of Directors. In the case of Pricing Adjustment, the adjustment will not exceed 2%. However, it may be significantly higher during exceptional market conditions such as periods of high volatility, reduced asset liquidity and market stress.

Details of each Mechanism are specified in the latest Company's offering document from page 52 to page 53.

Pricing Adjustment

Partial Swing Pricing Adjustment has been applied by the Company during the period.

No Full Swing Pricing Adjustment has been applied during the period on eligible sub-fund Corporate Euro Bond Fixed Term 2027.

Details of which Anti-Dilution Mechanism is applicable on a particular sub-fund can be obtained from the Management Company. Should the Company decide to change the Anti-Dilution Mechanism in operation for a particular sub-fund (i.e. from a Pricing Adjustment to Anti-Dilution Levy or vice versa), prior approval will be sought from relevant regulators (where required) and affected investors will receive at least one month's prior written notification.

A list of the sub-funds that have applied the mechanism of pricing adjustment (whether the NAV has swung or not) during the financial period is available at <https://www.assetmanagement.hsbc.co.uk/en/intermediary/funds>

The table below discloses the Net Asset Value per Share in each sub-fund's reference currency before pricing adjustment (the "Unswung NAV per share") and the Net Asset Value per Share in each sub-fund's reference currency pricing adjustment (the "Swung NAV per share") for sub-funds which have been impacted by pricing adjustment on 30 September 2025.

15. Total expense ratio

The Total Expense Ratio ("TER") has been computed by the Administrator as required per the AMAS (Asset Management Association Switzerland) guidelines on the calculation and disclosure of the TER of collective investment schemes. The actual expenses incurred during the period are annualised and calculated as a percentage of the average Assets Under Management of the share class for the period. The TER also includes the percentage corresponding to passive hedging fees.

Synthetic TER is applicable for each sub-fund that invests at least 10% of its net assets as a fund of funds in other collective investment schemes (target funds) which publish a TER within the meaning of the present guidelines. A composite (synthetic) TER of the fund of funds is to be calculated by the administrator, as of the closing date of the financial period or the end of the financial period.

18. Subsequent Events

There is no subsequent event affecting the Company after the financial period.

Additional Disclosure (Unaudited Information)

Appendix I - Taxation of the Company (foreign countries)

The following summary is based on the Company's understanding of the law and practice currently in force in the in other jurisdictions and is subject to changes therein.

Belgium

The Belgian government has enacted a law which charges an annual Net Asset Value tax on foreign investment funds registered with the FSMA (Financial Services and Markets Authority). An annual tax of 0.0925% is charged on the net outstanding amounts of sub-funds placed in Belgium through Belgian financial intermediaries on 31 December of the preceding year.

To date as the amounts are small, the Management Company has paid this tax cost on behalf of the Company out of the Operating, Administrative and Servicing Expenses it receives. However, should the cost become substantial or long term, the Management Company may require the sub-funds concerned to bear that tax charge for future periods.

People's Republic of China ("PRC")

Where the Company invests in shares and securities issued by companies tax resident (or with their primary activity) in the Peoples Republic of China ("PRC"), securities issued by government agencies in the PRC or other permissible PRC investments, the Company may be subject to Corporate Income Tax ("CIT"), withholding and other taxes imposed in the PRC.

The tax laws, regulations and practice in the PRC are constantly changing, and they may be changed with retrospective effect. In particular, there is uncertainty as to whether and how capital gains are to be taxed. Therefore, any provision for PRC tax liabilities that the Company may hold is likely to be excessive or inadequate to meet final PRC tax liabilities, and in particular (but not exclusively) in relation to gains derived from the disposal of PRC investments.

Consequently, the Company and shareholders may be disadvantaged depending upon the final outcome of how PRC investment returns will be taxed.

Germany

The sub-funds listed below will seek to continuously invest a minimum percentage of their net assets in equity assets as defined in sec. 2 para 8 German Investment Tax Act (2018).

% of Sub-fund's Net Assets	Sub-funds
More than 50%	All Equity Sub-Funds other than Russia Equity
	Managed Solutions – Asia Focused Growth
At least 25%	Russia Equity
	Managed Solutions – Asia Focused Income

Hong Kong

The Company may be subject to Hong Kong profits tax in relation to a particular sub-fund if it is treated as carrying on a trade or business in Hong Kong either on its own account or through the agency of the investment adviser of that subfund. If the Company is treated as carrying on business in Hong Kong, a liability to profits tax, the rate of which is currently 16.5%, shall only exist in respect of any profits of the relevant sub-funds which arise in or are derived from Hong Kong from that trade or business, and which are not capital in nature.

Under Hong Kong tax law and practice, funds resident outside Hong Kong ("Offshore Funds") are exempted from Hong Kong profits tax providing certain conditions are met. It is intended that affairs of the Company shall be conducted as far as possible to comply with the conditions for exemption from profits tax. However, the Company can offer no warranty that such exemption will be obtained in every instance.

India

The Income Tax Act, 1961 ("ITA") introduced the General Anti Avoidance Rule ("GAAR") which has been effective since 1 April 2017. Under GAAR, the Indian tax authorities have been given the power to re-characterise or disregard any arrangement which qualifies as an "impermissible avoidance arrangement" ("IAA"). This means an arrangement, the main purpose of which is to obtain a "tax benefit" (i.e., a reduction or avoidance of tax that would be payable under the ITA), and, amongst other things, which "lacks" or is "deemed to lack" commercial substance in whole or in part. The Income Tax Rules further clarify that a Foreign Portfolio Investor ("FPI") making investments in securities in the Indian market and availing any benefits under the double taxation avoidance agreement ("DTAA") could fall within the purview of GAAR. Accordingly, there is a risk that Indian tax authorities could deny tax exemption or relief claimed as per the provisions of the DTAA by invoking provisions of the GAAR. The Income Tax Rules also provide that investments made up to 31 March 2017 will be protected from the application of the GAAR.

United Kingdom

It is the intention of the Board of Directors to conduct the affairs of the Company so that it does not become resident in the United Kingdom. On the basis that the Company is not resident in the United Kingdom for tax purposes it should not be subject to United Kingdom corporation tax on its income and capital gains.

France

Currently applies to Euroland Value, Euroland Equity Smaller Companies and Euroland Growth.

"Plan d'Epargne en Actions"

In order for a sub-fund to claim eligibility to the French "Plan d'Epargne en Actions" and as long as they are registered with the Autorité des Marchés Financiers in France, the following additional investment restriction applies:

The total amount invested in equity or equity equivalent securities (as defined by art. L-221-31 of the French Monetary and Financial Code, § I-1°, a), b) and c)), which have their registered office in a country member of:

- ▶ the EU; or
- ▶ the European Economic Area (provided that the said country has concluded with France a bilateral tax cooperation agreement with a clause of administrative assistance aiming at fighting against tax fraud or evasion).

must not be less than 75% of the total assets of the relevant sub-fund at any point of time.

The definition given by art. L- 221-31 of the French Monetary and Financial Code, § I-1°, a), b) and c), excludes equities or equity equivalent securities issued by corporates which are not subject to corporate tax at the normal rate applying in their home country, and which in particular excludes shares of listed real estate corporates ("SIIC" - "sociétés d'investissements immobiliers cotées").

The following sub-funds are eligible as from 1 April 2007:

	% of holdings in shares
Euroland Equity Smaller Companies	99.03%
Euroland Growth	97.09%
Euroland Value	95.20%

Article 150-OD of the tax General Regulation

In order for a sub-fund to claim under Article 150-OD 1ter of the Tax General Regulation, the total amount invested in equity or equity equivalent securities must not be less than 75% of the total assets of the relevant sub-fund at any point of time.

Investment risk

Information in relation to certain investment risks are disclosed for selected sub-funds as follows:

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as market prices, foreign exchange rates and interest rates. It comprises of three major types of risks i.e. currency risk, interest rate risk and other price risk.

As invested in equities and fixed income securities, the Fund is exposed to the risk that the equity and fixed income markets decline. This risk is monitored in absolute by the equity exposure and relative to the benchmark by the calculation of the ex-ante tracking-error.

a. Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in foreign exchange rates.

c. Credit risk (continued)

Credit risk arising on bonds is mitigated by investing in government bonds where the credit risk is minimal, or corporate bonds which are rated at least investment grade. The sub-funds also invests in high yield and emerging market bonds which are non-investment grade. The sub-fund manages the associated credit risk by requesting the investment manager to diversify the portfolio to minimise the impact of default by any one issuer.

e. Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Other price risk arises principally in relation to the sub-fund's return seeking portfolio which includes shares, depositary receipts, warrants/equity linked securities, preferred shares and collective investment scheme.

The sub-fund manages this exposure to other price risk by constructing a diverse portfolio of investments across various markets.

At the period end, the sub-fund's exposure to investments subject to other price risk was:

Fair value hierarchy

The fair value of financial instruments has been determined using the following fair value hierarchy:

Category (a) The quoted price for an identical asset in an active market.

Category (b) When quoted prices are unavailable, the price of a recent transaction for an identical asset adjusted if necessary.

Category (c) Where a quoted price is not available and recent transactions of an identical asset on their own are not a good estimate of fair value, the fair value is determined by using a valuation technique which uses:

C (i) observable market data; or

C (ii) non-observable data.

The sub-fund's investment assets and liabilities have been fair valued using the above hierarchy categories as follows:

Appendix III - Dealing Days of the Fund

Dealing for Shares in the Company will take place on any Business Day (other than days during a period of suspension of dealing in Shares) and which is also for each sub-fund, a day where stock exchanges and regulated markets in countries where the sub-fund is materially invested are open for normal trading.

The Business Days which are not Dealing Days will be listed in the annual report and semi-annual reports and available at the registered office of the Company. Any amendments to such lists are also available at the registered office of the Company.

Shareholders who deal through the Company's local distributor or representative should note that there will be no dealing for the Shares of the Company in the jurisdiction in which such distributor or representative operates on a day which is not a Business Day in such jurisdiction. Shareholders in such jurisdictions can however deal via the Transfer Agent in Luxembourg.

The Company will determine the dealing/non-dealing calendar according to the latest market information obtained by the Company from time to time. Shareholders can obtain the latest dealing/non-dealing calendar of the Company from the registered office of the Company or from the Company's local distributor or representative.

HSBC Investment Funds (Hong Kong) Limited has been appointed by the Company as its Representative and Share Distributor in Hong Kong. There shall be no dealing for the shares of the Company in Hong Kong on a day which is a public or bank holiday in Hong Kong.

* Other – dates on which other individual markets, which when amalgamated represent a material portion of the fund's underlying exposure, are closed.

** The NYSE and Nasdaq are open on Columbus Day (13th October) and Veteran's Day (11th November) therefore equity sub-funds listing the US as a material market will not have a holiday on these dates. Bond markets will be closed to trading on these dates and bond sub-funds listing the US as a material market will be closed.

*** NAV is calculated weekly on Monday (or on the immediately following business day if the relevant Monday is not a business day).

**** Dealing and Official Net Asset Value calculation of Russia Equity sub-fund (In Liquidation) have been suspended since 25 February 2022 following Russia's invasion of Ukraine and the resultant closure of the Russian Stock Market to most foreign investors and the imposition of EU and other sanctions on Russian companies and individuals (the "Suspension"). Given the elapsed time since the Suspension, the Board has taken the decision to liquidate the sub-fund as at 30 July 2025 in the best interest of Shareholders.

Appendix VI - Risk Management

General

HSBC Investment Funds (Luxembourg) S.A. (the "Management Company") uses a risk management process that monitors the risk of the portfolio positions and their share of the overall risk profile of the portfolios on the managed funds at any time. In accordance with the Law of 17 December 2010 and the applicable regulatory requirements of the Commission de Surveillance du Secteur Financier ("CSSF"), the Management Company reports to the CSSF on a regular basis on the risk management process. The Management Company assures on the basis of appropriate and reasonable methods that the overall risk associated with derivatives does not exceed the Net Asset Value of the portfolio. The Management Company uses the following methods:

Commitment Approach

The "Commitment Approach" is based on the positions of Financial Derivative Instruments ("FDI") converted into their corresponding underlying equivalents using the delta approach. Netting and hedging might be considered for FDI and their underlying assets provided that the approach complies with the regulations. The sum of these underlying equivalents must not exceed the Net Asset Value of the Fund.

Value-at-Risk ("VaR") is a mathematical approach used to estimate the potential loss of a portfolio over a specified holding period within a given confidence level. VaR can be calculated on either an absolute or a relative basis.

Absolute VaR approach

In the absolute VaR approach the VaR (99% confidence level, 20-day holding period) of the Fund cannot exceed 20% of the Fund net assets.

Relative VaR approach

Relative VaR is calculated in relation to a suitable benchmark or reference portfolio. Using this approach, the relative VaR cannot exceed the VaR of a reference portfolio by more than a maximum of twice (200%). The reference portfolio is a matching portfolio in comparison to the Fund's investment policy.

The UK and India GSC Risk Teams of HSBC Asset Management Limited are responsible for setting up, maintaining and running the APT risk model, and ensuring that appropriate analysis and reports are available for the local risk teams to consume. The local risk teams (AMUS, AMFR, AMHK and UK Risk Team) are responsible for reviewing and validating the results, applying Management Action Trigger levels ("MATs"), following up with fund managers, and reporting as required to the Management Company.

The calculation of the VaR is done accordingly to the following calculation standards and in line with the standards defined in ESMA guidelines 10/788 Box 15 and CSSF CR 11/512:

- a) Confidence interval: 99%
- b) Simulation horizon: 4 weeks.
- c) Model estimation window of 180 weeks (3.5 years) used to calibrate the correlation structure of the model.
- d) Daily VaR calculation with daily data sets updates

Currently the risk team use the APT Parametric VaR approach. Since 1st January 2023, the Monte-Carlo VaR model is used for the monitoring of Multi-Asset Style Factors sub-fund.

The VaR utilization (lowest, highest and average) of the sub-fund is calculated by dividing the realized (lower, highest and average during the period) daily VaR by the VaR Regulatory limit (20% for the Absolute VaR and 200% for the Relative VaR sub-funds).

Leverage

For sub-funds measuring and monitoring the global risk on derivatives via VaR approach, the Management Company has delegated the leverage monitoring to the respective sub-funds' Investment Advisers who determine the sum of the notional values of all the relevant FDI and estimate in this regard a degree of the expected average value (leverage). This level of leverage can, depending on the respective market conditions, derive from the actual value at the reporting date. Furthermore, the published expected/ level of leverage is explicitly not understood as an investment limit.

For the sub-funds using the Value at Risk method, the leverage has been calculated using the sum of notionals for the entire period.
