

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

HSBC GLOBAL INVESTMENT FUNDS - GLOBAL BOND TOTAL RETURN

a sub-fund of HSBC Global Investment Funds, (the "UCITS");
 managed by HSBC Investment Funds (Luxembourg) S.A.

Class:BCHGBP
 ISIN:LU2378495076

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth and income by investing in a portfolio of global bonds and other similar securities, while promoting environmental, social and governance (ESG) characteristics. The Fund aims to have a higher ESG score than its reference benchmark; calculated as a weighted average of the ESG scores of the issuers of the Fund's investments versus the weighted average of the ESG scores of its reference benchmark.

The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.

Investment Policy:

The asset classes the Fund may invest in include but are not limited to: developed markets sovereigns, developed markets quasi-sovereigns; developed markets investment grade corporate securities; developed markets high yield corporate securities, emerging markets sovereigns and emerging markets corporate securities. The Fund employs a Total Return strategy which has a flexible allocation across the global bond universe and currency markets. Through seeking multiple sources of return the strategy aims, over an investment cycle, to achieve risk-adjusted returns above those of the investment universe. However, your capital is still at risk and there is no guarantee of stable growth over time.

In normal market conditions, the Fund will primarily invest its assets in investment grade bonds and non-investment grade bonds and other similar securities issued by governments, government-related entities, supranational entities, and companies that are based in developed or emerging markets.

The Fund includes the identification and analysis of a company's ESG credentials as an integral part of the investment decision making process to help assess risks and potential returns. ESG Credentials may include environmental and social factors, and corporate governance practices. Companies and/or issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time. Please refer to the Prospectus for more details on ESG credentials and excluded activities.

ESG credentials, excluded activities and the need for enhanced due diligence may be identified and analysed using both HSBC's proprietary ESG Materiality Framework as well as research & information provided by financial and non-financial data providers. The Fund may invest up to 10% of its assets in onshore Chinese bonds, up to 30% in asset-backed securities (ABS) and mortgage-backed securities (MBS), up to 10% of its assets in contingent convertible securities (however this is not expected to exceed 5%), up to 49% of its assets in cash or money market instruments, up to 10% in other funds and may also invest in bank deposits, money market instruments for treasury purposes. The Fund invests in bonds which are mostly denominated in US dollars (USD) and may have exposure to non-USD currencies. The Fund may invest up to 10% of its assets in securities issued by any single government issuer with a non-investment grade rating. The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings. The Fund may also invest in derivatives and may use them for hedging and efficient portfolio management purposes. Derivatives will be used for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ◆ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ◆ Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency GBP and the base currency of the Fund USD.
- ◆ The Fund is actively managed and is not constrained by a benchmark.
- ◆ Income is reinvested.
- ◆ You may sell your investment on most working days.
- ◆ Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 3 years.
- ◆ This product is based overseas and is not subject to UK sustainable investment labelling and disclosure requirements.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 3 because its price or simulated data has shown low to medium fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- ◆ **ABS Risk** ABS and MBS typically carry prepayment risk, as well as having potential for default. The securities can carry an above-average risk of being hard to value or to sell at a desired time and price.
- ◆ **Callable Bond Risk** Any unexpected behaviour in interest rates could negatively impact the performance of callable debt securities (securities whose issuers have the right to pay off the security's principal before the maturity date).
- ◆ **CoCo Bond Risk** Contingent convertible securities (CoCo bonds) are comparatively untested, their income payments may be cancelled or suspended, and they are more vulnerable to losses than equities and can be highly volatile.

- ◆ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- ◆ **Credit Risk** A bond or money market security could lose value if the issuer's financial health deteriorates.
- ◆ **Default Risk** The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- ◆ **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- ◆ **Emerging Markets Risk** Emerging markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- ◆ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ◆ **Interest Rate Risk** When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- ◆ **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ◆ **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ◆ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charge	3.10%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.71%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

Past Performance

- ◆ The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- ◆ A conversion charge of up to 1.00% of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
- ◆ The ongoing charges figure shown is an estimate due to a material change in the fee structure. The UCITS' annual report for each financial year will include detail on the exact charges made.

Further information on Charges can be found in the “Charges and Expenses” section of the Fund’s Prospectus.

- ◆ Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- ◆ Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- ◆ The past performance of this share class is calculated in GBP.
- ◆ The Fund was launched on 27 February 2015.

Practical Information

Depository Bank
HSBC Continental Europe, Luxembourg.

Further information
Further information about the Company including the Prospectus, the most recent annual and semi-annual reports of the Company and the latest share prices, may be obtained free of charge, in English, from the Registrar and Transfer Agent by emailing amgtransferagency@lu.hsbc.com, or by visiting www.global.assetmanagement.hsbc.com. The most recent Prospectus is available in English and German.
This document describes a single share class of a sub-fund of the Company. The Prospectus, annual and semi-annual reports are prepared for the entire Company.

Share classes
It is possible to switch your shares into shares of a different share class or sub-fund within the Company. Details of how to do this are in the “How to convert between Sub-Funds / Classes” section of the Prospectus.

Remuneration Policy
The up-to-date remuneration policy of the Management Company, including a description of how remuneration and benefits are determined, is available at

www.global.assetmanagement.hsbc.com/about-us/governance-structure. A paper copy is available free of charge from the Management Company.

Tax
The Fund is subject to Luxembourg tax regulations. This may have an impact on your personal tax position.

Management Company
HSBC Investment Funds (Luxembourg) S.A. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Segregated liability
HSBC Global Investment Funds is an investment company (“Société d’Investissement à Capital Variable”) with segregated liability between sub-funds under Luxembourg law. This means that the holdings of one sub-fund are kept separate from the holdings of the other sub-funds and your investment in the Fund cannot be used to pay the liabilities of any other sub-fund.

The Fund is authorised in the Grand Duchy of Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF).
This key investor information is accurate as at 30 January 2025.
