HSBC GLOBAL INVESTMENT FUNDS - GLOBAL GREEN BOND

a sub-fund of HSBC Global Investment Funds, (the "UCITS");
managed by HSBC Investment Funds (Luxembourg) S.A.

Class:ZQ1HGBP
ISIN:LU2417917007

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth and income by investing in a concentrated portfolio of bonds that support climate-related or environmental projects, as established by HSBC Green Impact Investment Guidelines, while promoting environmental, social and governance (ESG) Characteristics.

The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.

Investment Policy:

In normal market conditions, the Fund will invest at least 80% of its assets in investment grade bonds and non-investment grade bonds and other similar securities issued by government-related entities, supranational entities and issuers meeting certain green bond principles. The Fund will invest in developed markets and emerging markets.

Green Bond Principles, which are proprietary to HSBC, are used to determine the Fund's investible universe and include: bonds meeting the Green Bond Principles of the International Capital Market Association (ICMA); bonds considered to be complying with the Climate Bonds Initiative Taxonomy; sustainability-linked bonds and transition bonds for which over 50% of proceeds support climate related and environmental projects; and general corporate bonds from issuers with at least 90% of corporate revenues associated with the activities identified in the ICMA Green Bond Principles. Issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies and the Paris Aligned Benchmark exclusions, which may change from time to time. Please refer to the Prospectus for further details on Green Bond Principles and excluded activities.

Green Bond Principles, excluded activities and the need for enhanced due diligence will be identified and analysed using both HSBC's proprietary ESG Materiality Framework as well as research & information provided by financial and non-financial data providers.

The Fund invests mostly in bonds which are denominated in US dollars (USD). The Fund may have exposure up to 10% in non-USD currencies, including emerging market currencies.

The Fund may invest up to 10% of its assets in onshore Chinese bonds traded on the China Interbank Bond Market (CIBM) and up to 10% in asset backed securities (ABS) and mortgage-backed securities (MBS).

The Fund may invest up to 10% of its assets in non-investment grade bonds or similar securities, up to 10% in other funds and may invest in bank deposits and money market instruments for treasury purposes.

The Fund may invest up to 10% of its assets in contingent convertible securities.

However, this is not expected to exceed 5%.

The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings.

The Fund may also invest in derivatives and use them for hedging, cash flow management and efficient portfolio management purposes. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ♦ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ♦ Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency GBP and the base currency of the Fund USD.
- ♦ The reference benchmark, shown in the past performance section, does not take account of currency hedging. There may be a greater difference between the past performance of the share class and the reference benchmark than for other share classes in the Fund.
- ♦ The Fund is actively managed and does not track a benchmark. The reference benchmark for the Fund is Bloomberg MSCI Global Green Bond USD Hedged.
- ♦ The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that the reference benchmark will not be used as a universe from which to select securities.
- ♦ Income is distributed.
- ♦ You may sell your investment on most working days.
- ♦ Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 3 years.
- ♦ This product is based overseas and is not subject to UK sustainable investment labelling and disclosure requirements.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 4 because its price or simulated data has shown medium fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- ♦ **Callable Bond Risk** Any unexpected behaviour in interest rates could negatively impact the performance of callable debt securities (securities whose issuers have the right to pay off the security's principal before the maturity date).
- ♦ **CoCo Bond Risk** Contingent convertible securities (CoCo bonds) are comparatively untested, their income payments may be cancelled or suspended, and they are more vulnerable to losses than equities and can be highly volatile.

- ♦ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- ♦ **Credit Risk** A bond or money market security could lose value if the issuer's financial health deteriorates.
- ♦ **Default Risk** The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- ♦ **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- ♦ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ♦ **Interest Rate Risk** When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- ♦ **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ♦ **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ♦ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charge	3.10%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.21%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

Past Performance

- ◆ The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- ◆ A conversion charge of up to 1.00% of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
- ◆ The ongoing charges figure shown is an estimate due to a material change in the fee structure. The UCITS' annual report for each financial year will include detail on the exact charges made.

Further information on Charges can be found in the “Charges and Expenses” section of the Fund’s Prospectus.

- ◆ Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- ◆ Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- ◆ The past performance of this share class is calculated in GBP.
- ◆ The reference benchmark for the Fund, for comparison purposes only, is the Bloomberg MSCI Global Green Bond USD Hedged.
- ◆ The Fund was launched on 12 January 2022.
