

# **Key Investor Information**

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

# HSBC GLOBAL INVESTMENT FUNDS - ASIA ESG BOND

a sub-fund of HSBC Global Investment Funds, (the "UCITS"); managed by HSBC Investment Funds (Luxembourg) S.A.

Class:ZC ISIN:LU2423949689

## **Objectives and Investment Policy**

#### **Investment Objective:**

The Fund aims to provide long term capital growth and income by investing in a portfolio of Asian bonds, while promoting environmental, social and governance (ESG) characteristics. The Fund's ESG score is calculated as a weighted average of the ESG scores given to the issuers of the Fund's investments, and it aims to be higher than the weighted average of the constituents of the reference benchmark.

The Fund promotes ESG Characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.

#### **Investment Policy:**

In normal market conditions, the Fund will invest at least 90% of its assets in investment grade, non-investment grade bonds and unrated bonds, and other similar securities issued or guaranteed by governments, government-related entities, and supranational entities or by companies, that are based in Asia.

The Fund will invest at least 70% of its assets in investment grade, non-investment grade bonds and unrated bonds, and other similar securities issued by issuers meeting certain ESG scores and lower carbon intensity criteria (ESG and Lower Carbon Criteria). ESG and Lower Carbon Criteria, together with fundamental qualitative issuer analysis, are used to determine the Fund's investible universe. Companies and/or issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time. Please refer to the Prospectus for more details on ESG and Lower Carbon Criteria, and excluded activities.

ESG and Lower Carbon Criteria, excluded activities and the need for enhanced due diligence will be identified and analysed using both HSBC's proprietary ESG Materiality Framework as well as research & expertise from well-established financial data providers.

The Fund may invest up to 30% of its assets in onshore Chinese bonds traded on the China Interbank Bond Market (CIBM) and will not invest more than 10% in unrated Chinese onshore bonds.

The Fund will invest up to 40% in securities that are rated below investment grade and may also invest in bank deposits and money market instruments for treasury purposes. The Fund may invest up to 10% of its assets in securities issued by a single sovereign issuer, up to 10% of its assets in asset backed securities (ABS) and mortgage-backed

securities (MBS), up to 10% in convertible bonds (excluding contingent convertible securities) and up to 10% in other funds.

The Fund may invest up to 10% of its assets in contingent convertible securities. However, this is not expected to exceed 5%.

The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings.

The Fund's primary currency exposure is to the US Dollar (USD). Exposure to non-USD currencies, including Asian currencies, will be limited to 30% of assets.

The Fund may invest in derivatives and use them for hedging and efficient portfolio

management purposes. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- The reference currency of the Fund is USD. The reference currency of this share class is USD.
- The Fund is actively managed and does not track a benchmark. The Fund has an internal or external target to a reference benchmark, JP Morgan ESG Asia Credit.
- The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a material percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- The deviation of the Fund's performance and underlying investments' weightings relative to the benchmark are monitored, but not constrained, to a defined range.
- Income is reinvested.
- You may sell your investment on most working days.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.
- This product is based overseas and is not subject to UK sustainable investment labelling and disclosure requirements.

# **Risk and Reward Profile**

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

#### Why is this Fund in this specific category?

This Fund is classified in category 4 because its price or simulated data has shown medium fluctuations historically.

## Material risks not fully captured by the Risk and Reward Indicator:

- Callable Bond Risk Any unexpected behaviour in interest rates could negatively
  impact the performance of callable debt securities (securities whose issuers have the
  right to pay off the security's principal before the maturity date).
- CoCo Bond Risk Contingent convertible securities (CoCo bonds) are comparatively untested, their income payments may be cancelled or suspended, and they are more vulnerable to losses than equities and can be highly volatile.
- Counterparty Risk The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.

- Credit Risk A bond or money market security could lose value if the issuer's financial health deteriorates.
- Default Risk The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- Derivatives Risk Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s) instrument or asset.
- underlying reference(s), instrument or asset.
   Emerging Markets Risk Emerging markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- Exchange Rate Risk Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- Interest Rate Risk When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- Investment Leverage Risk Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- amplification effect from a movement in the price of the reference source.

  Liquidity Risk Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing existing investors.
- Operational Risk Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

# Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment

One-off charges taken before or after you invest	
Entry charge	3.10%
Exit charge	0.00%

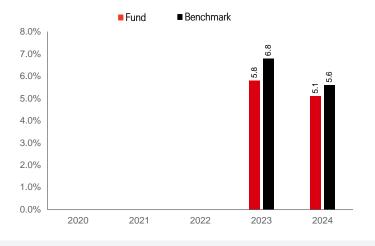

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year	
Ongoing charge	0.25%
Charges taken from the Fund under certain specific condition	ons
Performance fee	None

- The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser
- A conversion charge of up to 1.00% of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
- The ongoing charges figure is based on last year's expenses for the year ending 31/03/2025. Charges may vary from year to year.

Further information on Charges can be found in the "Charges and Expenses" section of the Fund's Prospectus.

#### **Past Performance**

- Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- The past performance of this share class is calculated in USD.
- The reference benchmark for the Fund, for comparison purposes only, is the JP Morgan ESG Asia Credit.
- The Fund was launched on 18 January 2022.
