**This document contains important information about your investment in the
HSBC Global Investment Funds - Global Sustainable Equity Income (the "Sub-Fund")**

Dear Shareholder,

We are writing to inform you of some changes we are making to the regulatory disclosures for the above Sub-Fund. Our records show that you hold Shares in the Sub-Fund which is classified as an Article 8 under the Sustainable Finance Disclosure Regulation ("SFDR").

The Sub-Fund considers principal adverse impacts ("PAIs") on certain sustainability factors. These are detailed in the pre-contractual disclosure ("PCD") document which forms part of the prospectus of the Company (the "Prospectus"). However, in the latest PCD, which formed part of the Prospectus dated 6 November 2023, the PAIs were incorrectly stated. We will be updating our documentation to correct this error and to remove the following incorrect PAI.

- Carbon footprint (Scope 1 & Scope 2)

The following PAIs are, and will continue to be, appropriate for the investment objective of the Sub-Fund so these will remain:

- Greenhouse gas emissions (Scope 1 & Scope 2)
- Greenhouse gas intensity of investee companies (Scope 1 & Scope 2)
- Violation of UNGC; and
- Share of investment involved in controversial weapons

We can confirm that the management of the Sub-Fund, the investment objective and investment process will not change as a result of the removal of the incorrectly stated PAI. The removal of this PAI will be reflected in the PCD when it is next updated which will be effective from the date of the next visa-stamped Prospectus. This is expected to be on or around 31 January 2024.
