HSBC GLOBAL INVESTMENT FUNDS - GLOBAL SECURITISED CREDIT BOND

a sub-fund of HSBC Global Investment Funds, (the "UCITS"); managed by HSBC Investment Funds (Luxembourg) S.A.

Class:IM3HGBP
ISIN:LU3041227904

Objectives and Investment Policy

Investment Objective:
The Fund aims to provide long term capital growth and income by investing in a portfolio of “crossover” (that is, at the intersection of Investment Grade and Non-Investment Grade) securitised credit, while promoting ESG characteristics.
The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management’s responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.
Investment Policy:
The Fund may also invest in other bonds instruments issued globally denominated in a range of currencies, including corporate bonds, securities issued or guaranteed by governments, government agencies and supranational bodies worldwide, and in cash.
The Fund includes the identification and analysis of a company’s environmental and social factors and corporate governance practices as an integral part of the investment decision making process. The Fund aims to invest in securitised credit with a low and medium, HSBC proprietary, securitised credit ESG risk assessment score.
Issuers considered for inclusion within the Fund’s portfolio will be subject to excluded activities in accordance with HSBC Asset Management’s Responsible Investment Policies, which may change from time to time. Please refer to the prospectus for further details on excluded activities.
Environmental and social factors, corporate governance practices and excluded activities and the need for ESG due diligence will be identified and analysed using both HSBC’s proprietary ESG Materiality Framework and scores as well as research & information provided by financial and non-financial data providers.
The Fund aims to invest in securitised credit with a low and medium, HSBC proprietary, securitised credit ESG risk assessment score. A lower ESG risk assessment score signifies lower ESG driven investment risk. This is determined through a combination of ESG factors most relevant to each securitised credit subsector and structural features of the specific security.
Securitised credit comprises asset backed securities, commercial mortgage-backed securities, collateralised loan obligations and residential mortgage-backed securities.
The Fund invests in normal market conditions a minimum of 70% of its net assets in Securitised Credit will focus on those rated between BBB+ and BB-, or equivalent, as assigned by independent rating agencies such as Fitch, Moody's or Standard & Poor's.
The Fund may temporarily invest in money market instruments and/or short-dated bonds issued by governments in developed markets.
The Fund may invest up to 10% of its assets in Chinese onshore bonds through the China Interbank Bond Market (CIBM), up to 10% in other funds and may invest in bank deposits and money market instruments for treasury purposes.
The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings.
The Fund's primary currency exposure is to US Dollar (USD) denominated bonds. Non-USD exposures will be hedged into USD.
The Fund may use derivatives and use for, managing interest, credit risks, currency positioning and efficient portfolio management purposes.

- The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency GBP and the base currency of the Fund USD.
- The Fund is actively managed and is not constrained by a benchmark.
- Income is distributed.
- You may sell your investment on most working days.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

Risk and Reward Profile

Lower risk — Higher risk

Typically lower rewards — Typically higher rewards

1	2	3	4	5	6	7

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 4 because its price or simulated data has shown medium fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- **ABS Risk** ABS and MBS typically carry prepayment risk, as well as having potential for default. The securities can carry an above-average risk of being hard to value or to sell at a desired time and price.
- **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- **Credit Risk** A bond or money market security could lose value if the issuer’s financial health deteriorates.
- **Default Risk** The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- **Emerging Markets Risk** Emerging markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- **Interest Rate Risk** When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

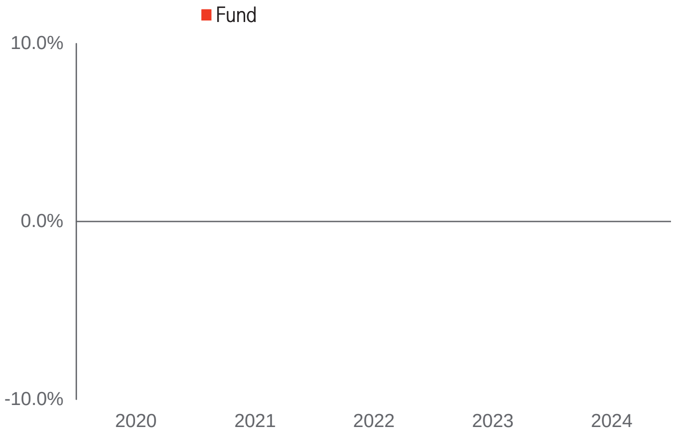
The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charge	3.10%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.86%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

- The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- A conversion charge of up to 1.00**%** of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
- The ongoing charges figure shown here is an estimate of the charges as the share class has not been priced for a full financial year. The UCITS' annual report for each financial year will include detail on the exact charges made.

Further information on Charges can be found in the "Charges and Expenses" section of the Fund's Prospectus.

Past Performance



- Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- The past performance of this share class is calculated in GBP.
- The Fund was launched on 16 January 2018.
- Insufficient data is available to provide past performance figures.
