

## Fund overview

For Professional Clients only

# HSBC UCITS Common Contractual Fund – Islamic Global Equity Index Fund (SFDR Article 6) July 2025

## Investment objective

- ◆ This is a passively managed fund that aims to replicate the performance of the Dow Jones Islamic Market 100 Titans Net total return, while minimising the tracking error between the fund's performance and that of the index
- ◆ The fund is prohibited from investing in financial derivatives, or other non Shariah-compliant instruments

## Why consider the HSBC Islamic Global Equity Index Fund?

- ◆ Designed for Shariah-compliance: the fund aims to replicate a Shariah-compliant index; overseen by an independent Global Shariah Supervisory Committee
- ◆ Global Shariah Supervisory Committee : the independent Global Shariah Supervisory Committee consists of two internationally renowned Islamic scholars who oversee investment in the fund to ensure compliance with Islamic principles
- ◆ Provides exposure to global equities: the index holds the largest 100 stocks traded globally that pass rules-based screens for compliance with Islamic investment guidelines
- ◆ Full physical replication: the fund aims to invest in all the constituents of the index in the same proportion as the index
- ◆ Consistent growth in the fund: the fund has received inflows consistently for the last five years

### 1 Dow Jones: Exclusion Screens – Sectors<sup>1</sup>

Conventional Financial Services	Weapons and Defence
Entertainment	Pork related products
Alcohol	Tobacco

### 2 Dow Jones: Exclusion Screens – Financial ratios

Total Debt/24 month average market capitalisation ratio exceeds 33%

## Dow Jones Islamic Market Titans 100 Index methodology

- ◆ Dow Jones uses a rules-based screen for inclusion in their Shariah compliant index; publicly available on their website
- ◆ Dow Jones contracts with Ratings Intelligence Partners, a London/Kuwait based consulting company specialising in global Islamic investments, to provide the Shariah screens and filter the stocks based on those screens
- ◆ The Shariah Supervisory board, which is a board of 4 Islamic scholars, oversees Dow Jones Islamic Market indices

## What is a Shariah-compliant fund?

An investment fund which meets all of the requirement of Shariah law and the principles articulated for Islamic Finance.

A Shariah fund will only invest in Shariah-compliant companies and approved financial instruments.

A Shariah board is appointed to carry out an annual Shariah audit and to purify certain prohibited types of income such as interest or dividend, by donating them to charity.

The Fund tracks the Dow Jones Islamic Market Titans 100 Index which is Shariah compliant. The Fund follows an investment process that has been approved by an independent Shariah committee.

The Global Shariah Supervisory Committee monitors the Fund throughout the year and issues an annual Shariah certificate on the Fund's compliance with Shariah principles. This certificate is included in the annual financial report of the Fund as a confirmation of the Shariah compliance for that year. Before investing, please do check that this Fund meets your Shariah requirements, and if in any doubt please consult an adviser.

This is a marketing communication. Please refer to the prospectus of the UCITS and to the KIID before making any final investment. This product is based overseas and is not subject to UK sustainable investment labelling and disclosure requirements.

Shariah investment restrictions may result in the funds performing less well than funds with similar objectives which are not subject to these restrictions. The views expressed above were held at the time of preparation and are subject to change without notice.

## Global Shariah Supervisory Committee

The Global Shariah Supervisory Committee is responsible for the following activities:

- ◆ Study of the prospectus, investment objectives and policies
- ◆ Use of investment techniques and instruments
- ◆ Advising the Board of Directors regarding compliance with Shariah principles
- ◆ Establishing principles for calculating an appropriate percentage of impure income
- ◆ Approving proposals for the nomination of suitable charities to which the impure income will be donated
- ◆ Preparing an annual certificate of the fund's compliance with Shariah principles for inclusion in the financial reports

## Purification costs

- ◆ The fund receives company dividends generated as part of a company's normal business operations. However, a small part (must be less than 5%) of their revenue may come from non-compliant activities hence the need for a purification cost
- ◆ An impure income ratio is created for each company included in the portfolio on annual basis, using the dividend purification cost ratio (calculated as non-permissible revenue / total revenue). The methodology for calculations is reviewed and approved by the Global Shariah Supervisory Committee
- ◆ The ratio of impure income varies from company to company and portfolio to portfolio (depending on the composition of the portfolio). It can typically range from 1.0% to 5.0% of the dividend income of a fund's holdings
- ◆ Impure income is donated to charity, approved by the Global Shariah Supervisory Committee

1. Ongoing Charges Figure, is based on expenses over a year. The figure includes annual management charge but not the transaction costs. Such figures may vary from time to time.
2. SFDR Art. 6 Product: A financial product which does not integrate sustainability into the investment process.
3. The rating is based on price volatility over the last five years, and is an indicator of absolute risk. Historical data may not be a reliable indication for the future. The scale varies from 1 (least risky) to 7 (most risky). The rating is not guaranteed to remain unchanged and the categorisation may shift over time. The lowest rating does not mean a risk-free investment. Do not run any unnecessary risk. Read the Key Investor Information Document.

## Key risks

**The value of an investment in the portfolios and any income from them can go down as well as up and as with any investment you may not receive back the amount originally invested.**

- ◆ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations
- ◆ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly
- ◆ **Index Tracking Risk** To the extent that the Fund seeks to replicate index performance by holding individual securities, there is no guarantee that its composition or performance will exactly match that of the target index at any given time ("tracking error")
- ◆ **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source
- ◆ **Liquidity Risk** **Liquidity Risk** is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors
- ◆ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things

Further information on the potential risks can be found in the Key Investor Information Document (KIID) and/or the Prospectus or Offering Memorandum

The value of investments and any income from them can go down as well as up and investors may not get back the amount originally invested. Where overseas investments are held the rate of currency exchange may also cause the value of such investments to fluctuate. Investments in emerging markets are by their nature higher risk and potentially more volatile than those inherent in some established markets. Stock market investments should be viewed as a medium to long term investment and should be held for at least five years. Any performance information shown refers to the past and should not be seen as an indication of future returns.

It is important to note that the Shariah investment restrictions placed on the investments in the HSBC Islamic Funds may result in the funds performing less well than funds with similar objectives which are not subject to these restrictions.
